ROYAL BAKING POWDER

ABSOLUTELY PURE

Makes the food more delicious and wholesome

The first thing to do is to take off the leg at the second joint. Cut down alongside the leg and bear outward a little, with the knife set well in.

The knife is inserted above the leg, and after making an incision it is pressed outward. The second joint then parts easily from the body. After both legs are removed in this manner the wings should be cut off, the knife being used on particularly the same principle as that employed in removing the legs.

The next point for the skillful carver is to separate the drumstick, or first joint from the rest of the leg. This is done by fixing the fork in the second joint and the end of the leg is then pressed down with the knife.

The breast of white meat is now attacked. The fork is again placed over the breastbone in the original position, and slices are removed from the breast. The slicing should commence near the peak of the breastbone, the cut being taken thinly, the knife held horizontally and the cut extending downward toward the wings. After the meat has been taken from both sides of the turkey's breast in this fashion the knife is inserted transversely behind the little projection on the breast between the peak and the neck. This is formed by the wishbone, or merry thought. The knife slips easily between this and the breastbone, so that the wishbone is easily removed, carrying with it a liberal portion of white meat. The removal of the wishbone makes a convenient opening into the interior of the turkey through which a spoon may be inserted for the removal of the tasty dressing.

Nothing now remains but the carcass of the turkey, and the only task is to disjoint it. This is done by first removing the breastbone. By means of the fork the peak of bone is raised and swung over toward the neck, disjuncting it near the base of the latter. The neck, if desired, can be removed, leaving only one more portion of bird to be dealt with. This is the backbone.

The backbone is broken about three inches above the tail and there you are. The dismemberment of your turkey is now complete.

DR. AGNEW'S CATARRHAL POWDER

has proved a blessing to many a man before the public in cases of hoarseness, bad throat, tonsillitis and catarrh. Some of the most recent evidence of its efficacy comes from a well-known actor, whose home is in New York City. He says: "I never found anything to equal this remedy for quick relief." 60 cents.—Sold by A. Chipman Smith & Co.

Not so Very Hard,

Jack's father is a member of a society for "psychical research," and Jack has heard and overheard a good deal about mind-reading and thought transference. His mother has had periods of alarm lest her son's mental development should outrun his physical health.

Recently, however, the boy organized a "mind class" of his own, the members consisting of a number of playmates with whom he had indulged to join either by moral suasion or by bribes; and his mother, after overhearing the problem which closed the session, concluded that the strain on Jack's mind was not so severe as she had supposed.

Jack had left the reluctant class in the hall while he repaired to the pantry. In a few minutes his mother heard his address to his pupils.

"Now you've all got to think hard and quick," he said, briskly. "How many doughnuts have I got in my two biggest pockets? The boy or girl that guesses right will get the two doughnuts that are extras, for a prize; the rest of you can only have one apiece."

KEEP YOUR STOMACH IN GOOD WORKING ORDER

and your general health will take care of itself. This is the advice of an eminent specialist on stomach troubles and he "clinched" the advice by prescribing Dr. Voe Stan's Pineapple Tablets as a wonder worker in all phases of stomach disorders from the little ferment after eating to the chronic dyspepsia, 85 cents.—Sold by A. Chipman Smith & Co.

Logic is logic, whether it touches the affairs of nations or a cold in the head. The conviction, says Tit-Bits, was forced upon a Liverpool woman whose coachman, although he has been ill for several days, appeared one morning with his hair closely cropped.

Why, Dennis said the mistress, whatever possessed you to have your hair cut while you had such a bad cold?

Well, mum, replied the unshaven Dennis, I do be taking notice this long while that whenever I have no hair cut I take a bad cold, so I thought to meself that now, while I had the cold on me, it would be the time of all others to go and get me hair-cutting done, for by that course I would save meself just one cold. Do you see the power of me reasoning, mum?
