

HE WOULD GIVE HORSES VACATION

Manufacturer Suggests a Farm For That Purpose

BOSTON DOES IT

For of Our Four Footed Friends Tells Interested Audience About Good Work of the Animal Rescue League—Refers to High Grade of Nova Scotia Cattle.

Thursday, Sept. 28.—An audience much pleased with the appearance and standard of the working horses of St. John, said Mrs. Huntington, of Boston, president of the Animal Rescue League of Boston and editor of "Our Four Footed Friends," who addressed an audience last night in the hall of the Natural History Society, why they deserve a rest now, she said.

Mrs. Smith, who is a very pleasant and a woman of great experience in the care and treatment of dumb animals, was listened to by a large and interested audience. Along with other things which she referred to locally was suggestion to establish a farm here for the horses a vacation, and this she thought that this work would be taken up immediately here. The address was illustrated with sixty-colored lantern slides. The lecturer explained the work of the society which she is president in caring for horses, dogs and cats. The organization, said, has been authorized to take up the work of the owner and if it cannot be done, it is killed with as much pain as possible. A special special appliance is used for this. Cats dogs are treated likewise. Waifs taken off the streets and cared for until they have recovered sufficiently, are sent to their owners.

Mrs. Smith urged that some local organization take up this work as a whole. She said, she thought that an organization could operate effectively. Referring to the cattle, Mrs. Smith said on her trip from Halifax to St. John, she saw the cattle were of a very high standard and better than had been seen anywhere before. In the herd, she said, conditions are very opposite. Once when she was there she was compelled to return home on account of the sickly condition of the herd.

At the conclusion of her lecture a vote of thanks, moved by Mrs. Thomas, was tendered by the speaker by the members of the society.

GGGESTS LIGHT SHIP FOR DUTY AT BRIER ISLAND

Captains who have been complaining of the inadequacy of the Brier Island light have now been satisfied by the decision of the marine department to place a quadruple flashlight instead of present stationary light on the island. The matter had been taken up by board of trade, and pilots and captains, and it was decided that the decision of the department, yesterday, the opinion that the flashlight would be much more satisfactory than the present system of lighting which is not so effective.

A pilot suggested that it would be better, if possible, to have a lightship moored off the island as it is difficult to hear the fog alarm from the island. This idea had not been considered.

CELEBRATION OF 25TH ANNIVERSARY

Thursday, Sept. 28.—At twenty-five years ago yesterday Presbyterian hall at Bathurst was used for service. Presbyterian church in the village was of older date in 1898 services were held in the hall waiting room by Rev. Wm. D. D. The church now occupied by the Episcopal church was built by the Presbyterians for some years, but eventually passed from them. The present hall, dedicated in 1903, is a very attractive room, finished in hardwood throughout, and lately fine fixtures have been installed.

At evening the services conducted by J. C. Mortimer, who has just returned from Scotland, bringing his wife, Mrs. Mortimer, who is a native of the town, were short and interesting. The service was followed by a social hour, when the services were continued. The church and Sunday school is known, were followed by a social hour, when the services were continued. The church and Sunday school is known, were followed by a social hour, when the services were continued.

VOL. LIII.

SULZER SCORED ON THREE POINTS

New Charges Bowled Out By Court

Prosecution Sought to Prove Corrupt Bargain

Case Against Governor Will Likely Be Completed Today—Assemblyman Tells of Vain Efforts to Get Pet Bill Signed After Winning Approval of Executive's Confidants.

(Canadian Press.)

Albany, N. Y., Sept. 28.—Governor Sulzer today won a triple victory over his accusers at the trial of his impeachment. Presiding Judge Cullen, of the high court, barred the introduction of evidence to prove that the governor had made a corrupt political bargain with Assemblyman Patrie, of Greene county, and held that the evidence brought forward to show that he had made similar bargains with other assemblymen, incompetent.

The legislation had to do in each case with certain improvements which the assemblyman had advocated in bills subsequently passed by the legislature to which they were desirous of getting the governor's signature. In the Patrie case, however, no charges were brought in the articles of impeachment and it was on this ground that Presiding Judge Cullen held that the case was incompetent.

The trial, according to the report, was a long one, and the governor's defense team, led by J. P. Jameson, acting American consul at Hankow, General Li Yuan Hong, vice-president of the Chinese republic, in sending troops to the district, but Tsao Yang is a long distance from Hankow, where it is hoped the Chinese brigades will respect the captured foreigners.

The latest list of the members of the Chinese relief force, at the request of J. P. Jameson, acting American consul at Hankow, General Li Yuan Hong, vice-president of the Chinese republic, in sending troops to the district, but Tsao Yang is a long distance from Hankow, where it is hoped the Chinese brigades will respect the captured foreigners.

ITALIAN ELECTIONS END OF OCTOBER

Pisa, Italy, Sept. 28.—King Victor Emmanuel today signed a decree submitted to him by Premier Giolitti at the royal hunting lodge at San Rossore, dissolving the chamber of deputies and calling general elections for the end of October.

A cabinet statement, which will be issued probably tomorrow, indicates that the pacification of Libya by Italy is almost complete. It declares that the time is approaching when it will be the aim of Italian peasants to emigrate there under the protection of the Fatherland instead of to foreign countries.

MISSIONARIES IN CHINA IN DANGER

Bandits Capture and Loot a Town and Seize Eight Foreigners

APPEAL FOR AID American Consul's Request for Protection of His Countrymen Promptly Accepted To—Relief Force Sent But the Distance is Long.

(Canadian Press.)

Peking, Sept. 28.—A missionary's telegram received at Hankow today from Fancheng in the north of the province of Hu-Peh, says:

"On Friday bandits looted and still hold the town of Tsao Yang. Eight foreigners, according to apparently authentic reports, were captured by them."

"At Fancheng there is a mission station belonging to the Hauges Norwegian Evangelical Lutheran Synod of America to which are attached five men and six women."

Edward T. Williams, charge d'affaires of the American legation, made representations to the Chinese foreign office today calling for the protection of the American missionaries.

Chinese Sending Relief Force.

AMERICAN TARIFF BILL SLATED TO PASS THIS WEEK

Most of Provisions in Effect at Once

Expected to be Signed by President Wilson on Friday—Senate Cut Many of the Rates in House Bill—Cotton Futures Trading Tax May be Omitted.

(Canadian Press.)

Washington, Sept. 28.—The Democratic tariff revision bill advanced to its last congressional stage today, when it was brought back to the house from the joint conference committee with the unanimous endorsement of the Democratic conference.

Leaders in both houses of congress were confident tonight that the bill practically complete now, would be signed by President Wilson before the end of this week. It will scarcely leave the center of the stage before the Currency bill, next in line, will be forced upon the attention of the country, and coincident with consideration of this will begin the administration work upon the tariff and railroad control programs that are to be brought forward when the December session opens.

President Wilson is satisfied that with the tariff bill out of the way, congress will take up the currency question, prepared to dispose of it before adjournment.

The tariff conference report went to the house today noon after that body convened at noon.

The house will take up the tariff bill at 11 o'clock tomorrow, and it is believed that it will be passed before adjournment. It is expected to reach the senate Wednesday and to pass that body by Thursday.

The cotton futures tax is still in dispute, the house refusing to accept the so-called clause amendment adopted by the senate. Expression from the White House and from congressional leaders today, however, indicated that the final conference on this feature, the tariff bill and taken up as a separate measure next week.

Further Cut in Duties.

The conference report on the Underwood-Simmons bill, which provides for the final adjustment of disputes between the senate and the house over the former's amendments, was made public early today, when Democratic managers submitted it for the first time to their Republican colleagues on the conference committee.

The general average of rates of the house bill was reduced about four per cent ad valorem.

The report shows the following important alterations of the original Underwood-Simmons bill:

Articles added to the free list include pig iron, ferro manganese ore, cheap grades of iron, steel and other food animals, wheat, flour, fax, hemp, sugar, refined machinery, school text books, and blast machinery, indigo dyes, photographic moving picture films, cement, asphalt and many other articles.

A new clause added for woolen stockings, gloves and mittens, makes a reduction from the house rate on these values at less than \$1.20 a dozen, and an increase on these above. Angora wool and articles made from it, were given a higher duty than in the house bill.

The house rate on silk ribbons and narrow fabrics was increased from 40 to 45 per cent, while the house rate on common paper box board, and papers used for photographic prints, were reduced.

An increased rate of duty was provided for lithographic plates on American securities and the rate on surface coated papers suitable for covering boxes, was increased from 35 to 40 per cent. Reduction in the house duties was made on wearing apparel of cattle or goat skins, fur hats, rough forms of dog and goat skins, camel's hair press cloth or fur in cotton oil-mills, and through a reclassification rates were slightly reduced from those fixed by the house on fancy grades of cotton cloth. The house rate on cotton stockings and half hose was also reduced.

Reductions in the house rates in the chemical schedule covered perfumed and medical soaps, crude chicle, linseed oil, chlorate of potash and several other items, while the house rates were increased on many kinds of acids, and on some classes of paints.

The senate succeeded in reducing the house rates on high power lenses, surveying instruments, telescopes and the like. Most of the senate changes reducing the rates on iron and steel products were approved by the conference committee making the rates considerably lower on the average than those of the original house bill.

The tariff on automobiles, fixed by the house at 45 per cent, and radically cut by the senate, was finally compromised by making a new classification of automobiles valued below \$2,000, for which a rate of 30 per cent was fixed.

Cut the Cost of Living.

Some of the more important changes agreed to by the conference covered the schedule of agricultural products and provisions. In addition to putting cattle and sheep on the free list, the conference agreed to reductions on oats, butter, beefs, extracts of meat, currants, cherries and other provisions and vegetables.

The five per cent rebate in tariff made by the house bill on goods brought in American ships, was retained in the conference examination, an additional tariff duty of fifteen per cent ad valorem can be imposed on his exports.

ALBANIANS TAKE SERBIAN TOWNS

Prisrend's Fall Expected Soon—Is Defended by 6,000 Men—Sultan Intends to Form an Autonomous Albania Under Turkey's Protection.

(Canadian Press.)

Vienna, Sept. 28.—According to reports received here, the Albanians captured Jakova only after heavy fighting. Prisrend, a few miles to the south, is surrounded by Albanians, and its fall is hourly expected. The Serbian prison there consists of 6,000 men.

News from Avlona, on the Adriatic Sea, states that the Albanians have captured Gheride after a fierce engagement.

London, Sept. 28.—A Constantinople dispatch says Essad Pasha has telegraphed to the Sultan that he intends to form an autonomous Albania under the suzerainty of Turkey.

The grand vizier congratulated the delegates on the completion of their work of peace. General Savoff, the Bulgarian delegate, replying, said that the treaty marked the resumption of relations of concord and friendship between Turkey and Bulgaria.

SENATOR LODGE IN CRITICAL STATE AFTER OPERATION

His Life Dispaired Of for 24 Hours—Has a Fighting Chance Think Physicians.

Chairman of New York Prison Reform Committee Occupied a Cell in Auburn Last Night.

Nahant, Mass., Sept. 28.—United States Senator Henry Cabot Lodge, who was operated upon Friday for a gastric ulcer, was according to his physicians tonight, "not entirely out of danger."

News of the senator's illness leaked out by accident today. Then it was learned that for twenty-four hours following the operation his life had been despaired of. The operation itself, his physicians said, was successful, but the patient, weakened by his labors at the extra session of congress, did not have the vitality to rally promptly from the shock.

His recovery, according to Dr. F. B. Harrington, one of his physicians, is largely a matter of vitality, in which his sixty-four years and the fact that he was a very tired man previous to the operation, must be taken into consideration. According to Dr. Frederick Winslow, another of the physicians, the senator's condition late tonight was "excellent."

The provisions of any treaty the United States has now.

The conference also amended that portion of the house bill requiring foreign manufacturers or exporters to submit their books to American custom agents, so that if the exporters refuse to allow such examination, an additional tariff duty of fifteen per cent ad valorem can be imposed on his exports.

BLOODY BATTLE FOUGHT IN MEXICO

TEDDY TO INVADE SOUTHERN WILDS

Plans to Spend Three Months This Winter in Paraguay

HAS BIG PARTY Colonel to Be the Big Hunter. But He Has Plenty of 'Nature Fakers' With Him—Will Deliver a Few Lectures Before Entering the Jungle.

(Canadian Press.)

New York, Sept. 28.—For more than three months, from about the middle of December to the end of March, Theodore Roosevelt will be buried in the wilds of South America. Arrangements for this end of the collector's South American trip were described today, but the announcement did not tell much about the party of naturalists at Cuyaba, Brazil, the head of navigation on the Parana river, and at that point the headquarters of the journey will begin.

The collector's companions from the point will be Anthony Plaza, of New York, the Arctic explorer, and George K. Cherris, of Indiana, and Lee E. Miller, of New York. Vermont, naturalist, connected with the American Museum of Natural History, under whose auspices the expedition will be undertaken. Teddy the Chief Hunter.

Mr. Plaza will look after the equipment of the expedition. Mr. Cherris will have charge of the collecting and preparation of bird specimens, and Mr. Miller will superintend the collection of mammals. The expedition will be the party's chief hunters.

These four, with native Indian bearers, porters, and servants, will embark at Cuyaba in light draught motor boats and canoes, although later it is expected that canoes alone will have to serve.

It was said today that when Colonel Roosevelt first received invitations to lecture in Brazil, Argentina and Chile, his first idea was to decline, but that the opportunity to hunt and collect scientific specimens in the wilds of Brazil was too attractive for him to resist. This opportunity was brought to his attention by the Rev. John Augustus Zahm, of Washington, provincial of the order of the Holy Cross, a missionary and a scientist, who has explored much of the wild country that Mr. Roosevelt will enter. Father Zahm has been consulted about the itinerary and the equipment of the Roosevelt expedition.

Four Hundred Dead on the Field

Want of Ammunition and Water Stopped the Conflict

Rebels in Their Retreat Blew Up Great Railway Bridge—Government Starts Conscription to Increase Its Army for Fall Campaign.

Piedras Negras, Mexico, Sept. 28.—More than 400 federal and rebel dead were left on the field below Barroteran, where a fierce struggle took place between the two forces Saturday and Sunday, according to reports brought to constitutionalist headquarters today.

Both sides were compelled to retire from the field last night because of lack of water and ammunition, the constitutionalists falling back to Sabinas, where they dynamited the great railroad bridge crossing the Sabinas river to prevent another attack from federals under General Mas.

Eye witnesses say desperate hand-to-hand fighting occurred after exhaustion of the revolutionists ammunition and that the federals at one time were on the point of fleeing from the field when they were rallied by their officers. The dead are piled high where these conflicts took place. Both sides agreed to a virtual armistice late Sunday to care for the wounded.

Despatches today indicate the federals will resume the march to Sabinas after a short rest at Aura. Confirmation of the destruction of all the mining towns in the region will be forthcoming.

Conscription by Government.

Cuernavaca, Sonora, Sept. 28.—Constitutionalists throughout Sonora have begun a concerted effort to increase the number of state troops for the fall campaign against the federals. Many parties of soldiers, headed by captains, have been sent to different parts of the state, for the purpose of conscription.

Amn. and ammunition in the possession of civilians are being confiscated, so far Americans and other foreigners are not being forced to surrender their arms but those who wish to do so are permitted to cash their arms and ammunitions and arrows of the Mayo Indians, 800 of whom recently joined the state troops.
