LONDON, Dec. 4.

The London papers generally praise President Grant's message. The *Times* says that the excessive privileges in regard to freedom from search, claimed for vessels bearing the American flag, would confer immunity on open piracy. Such pretensions are, indeed, short sighted for a mercantile nation.

The 42nd Regiment of Infantry—Royal Highlanders—and a portion of the 79th Regiment—Cameron Highlanders—have sailed for the Gold Coast, to reinforce the troops under Sir Garnet Wolseley.

The Bank of England rate is fixed at 5 per cent.; consols 92; bullion in the Bank of England increased during the week $627,000.

MADRID, Dec. 4.

It is reported that the Spanish mission at Washington has been offered to Senor Figueras.

The bombardment of Cartagena by the Republican batteries continues incessantly. Four hundred houses in the city have been destroyed. At the request of General Ceballos, commander of the Government forces, the foreign fleets have withdrawn from the harbor.

NEW YORK, Dec. 5.

THE WAR FEELING IN HAVANA—RESIGNATION OF THE CAPTAIN-GENERAL—NO SURRENDER OF THE VIRGINIUS.

Havana advices of last evening represent the Cubans as highly indignant and belligerent at the idea of surrendering the Virginius according to the agreement between Spain and the United States. Captain General Jouvellar resigned his position last night, professing his inability to enforce the orders of the Government, and it is reported that the Colonial Minister has also resigned. The people express a determination not to surrender the Virginius directly to the Americans, but will consent to give up the vessel to a neutral power. The Captain General assures the home government that the immediate delivery of the Virginius will instantaneously cause a frightful commotion throughout the Island, which would be sure to result in successive catastrophies even if a man of the highest ability should be in command. Enthusiastic preparations for war are in progress at Havana and Cienfuegos.

A SEVERE GALE

visited portions of Ohio and Western New York yesterday, doing considerable damage.

SUNK AT SEA.

News is received of a collision at sea between the British man-of-war Bellerophon and the Brazilian steamer Hamsteed. The latter was sunk, but all hands were saved.

The Storm.

Yesterday the city was visited by an old friend, the fog. In great banks it rolled in until towards evening a fierce storm of wind and rain came on. It had been announced from the Toronto Observatory, and the storm drum was hoisted. About six o'clock it burst in all its fury, and continued until about twelve. The wind blew in gusts, accompanied by heavy rain at intervals. The tide was not at its highest until the wind had subsided considerably, otherwise there might have been much damage to record. The Ballast wharf was visited by a large number of persons who had heard that there was a vessel on the foul ground, and, peering into the darkness, many feared a repetition of last season's horror, when the Reward struck in the same place Fortunately there is little damage to record, and those who it was feared had met a watery grave are now safe. The necessity for a life boat is still more apparent, and the opinion is pretty freely expressed to-day that the sooner the harbor is placed in the hands of a commission, under the Dominion Government instead of the Common Council, the better it will be for all parties.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs.

AMONG the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of **Consumption**, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing **Coughs**, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centered on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome **Influenza** and painful **Bronchitis**, when they know how easily they can be cured. Prepared by

Borrowed or Stolen.

A muff was taken from the store of R. S. Staples & Co. yesterday. The proprietors know who took the article, but do not know whether it was a mistake or not.

The Institute Fracas.

The Directors of the Mechanics' Institute held a meeting last evening. They decided to repair the damage done at the Smith entertainment at once, after which they will sue Messrs. Daniel and Cumberland for the amount paid for repairs.

Prince William Street Bridged.

The street crossings on Prince Wm. street, for some considerable time past, have been in the most dilapidated condition, but during yesterday and to-day some of them have been actually impassable. One in front of the Custom House building is worthy of special mention, as it was found necessary this morning to erect a plank bridge across before pedestrians could reach the other side.

Circuit Court.

J. L. Batson, who pleaded guilty of stealing a coat from Mr John McManus's clothing store, was brought into court this morning, and Judge Fisher sentenced him to four months imprisonment in the jail with hard labor.

Doe dem McVey vs. the Benj. Smith estate continues. Yesterday afternoon Mr. Thomson moved for a non-suit. This is the second time the defence have asked for a non-suit. Mr. Skinner made a long speech in reply, and was followed by Mr. Pugsley, who was speaking when the court adjourned at 1 o'clock.

An Improved Skate.

Mr. Whelpley, an employe in Messrs. Forbes' Acme Skate manufactory, Halifax, has just completed a skate which he purposes patenting at an early date. He does away with the side clips and wrench, making it self acting. It is the most simple and at the same time complete article of this description that has ever been invented. A sample having been forwarded by the inventor, to Mr. Gerow, of the Customs Department, can be seen by all fancy skaters. It is probable it will not be put into the market until next winter.

A Strange Guest at a Dance.

A party of young people had a dance the other evening at Indiantown, and a lady and gentleman came over from Millidgeville to attend it. The gentleman left his horse standing at the door of the hall, while he went up stairs with his lady. A party of "bloods," ready for a lark, saw the horse, unharnessed him, and tied him with the reins to the door. Another party saw the horse quietly standing there, and took him in the hall to the dressing-room. The ladies were rather surprised, on opening their door, to see a horse's nose poked in, and the gentlemen who had to help get the animal down did considerable swearing. A claim for "consequential damages" is to be made by the owners of the hall for broken stairs. The ball committee will refuse to pay, and a law suit may result. Those who were instrumental in getting the horse to the room think it a huge joke, and laugh at their brilliant exploit.

A young man, Hibbert Parsons, belonging to Kingston, Cornwallis, died on Tuesday evening from the effects of injuries received a week before by falling into an open hatchway in front of the Parker House, Barrington street. His skull was fractured by the fall.

Henry C. Gilmore, an artilleryman, died at Fort Clarence on Saturday after a short illness. He was seized with sudden vomiting on Saturday morning, was visited by a surgeon, who prescribed for him. The evidence adduced at the Inquest showed that Gilmore died from the effects of intemperance.

On Thursday last a miner named Gillis was so seriously injured in the Foord Pit, Albion Mines, that he died shortly after the accident. He incautiously attempted to cross in front of the "back balance" slide while it was descending, when he was knocked down and badly crushed—the injuries resulting in death.—On Wednesday evening of last week a man, whose name we have not ascertained, jumped off the coal train at Stellarton, and slipping under the wheels had one of his legs badly smashed.—One day last week, at Spring Hill, Thomas Shannahan, formerly of New Glasgow, was run over by a loaded trolly and instantly killed.

The day before the storm last week which drove the Atlantic wreck further inshore, one of the divers after coming up, reported that under the companion gangway were the bodies of a man, woman and child. The female had the body of the child under her arm, and clasped firmly in one hand a valise. The man's clothing exhibited a profusion of brass buttons, from which it was judged that he was an officer of the ship. The diver suggested that next day he would send up the bodies, and this was agreed to. During the next night the storm came on, and when the man came down next morning he found that the changed position of the ship had caused an immense weight of iron to be thrown on the bodies, and it is probable they may not be recovered at all. There they lie, the loved ones of some family circle, who in March last left their friends in the old country to cross the Atlantic, and now repose beneath the waters within a few yards of the rocky shore. Wonderful are the vicissitudes of life.—*Halifax Recorder.*
