DR. F. V. WOODBURY ILL AT SHORNCLEIFFE

Suffering from Spinal Meningitis—Now Improving.

Halifax was startled last evening when it was learned that a cable had come from England stating that Capt. Frank V. Woodbury, of the Dalhousie Hospital Unit, was seriously ill at Shorncliffe with spinal meningitis, and that his condition was very critical. The news quickly spread through the city. People told one another of it in the offices, stores, street cars. The phones of the newspaper offices were kept busy, answering inquiries. The hearts of all went out to the family, for Dr. Frank V. Woodbury is honored as an excellent citizen, a skilled practitioner, a man of high ideals, a gentleman, a man without an enemy.

The announcement came in a brief cable to his father yesterday. No further particulars were given. The cable was sent by Major V. F. Hogan, second in command of the unit. Dr. Woodbury arrived in England with Dalhousie Hospital Unit a week ago, and the news of his illness so soon after his arrival came as a great shock to his many friends in this city, who will hope for his speedy recovery. Mrs. Woodbury only left Halifax on Friday last to sail for England to join her husband.—Halifax Chronicle.

(Late cablegrams received from Lieut.-Colonel Stewart state that Dr. Woodbury is steadily improving. This good news will be gladly received.)
