

099508

APPLES, FRESH (2)

Recommendation: The present preference of 10% is considered inadequate, and a specific tariff of 5s. per cwt. (112 lbs.) with free entry for Empire fruit is considered necessary to meet the situation.

This recommendation is based on the suggestion of the Dominion Department of Agriculture, and is the specific request of the National Horticultural Council of Canada and the Ministers of Agriculture of the three Maritime Provinces.
