

parted from, and that at the present time the Arts, Science and Medical classes alike rank among their students in attendance, Anglicans, Romanists, Methodists, Baptists, Congregationalists and Presbyterians;

That Queen's University draws students from every part of Ontario, but more especially, owing to geographical proximity, from the following Towns and from the several Counties in which these Towns are situated:

Ottawa,	Cornwall,	Belleville,
Carleton Place,	Williamstown,	Trenton,
Renfrew,	Deseronto,	Picton,
Pembroke,	Gananoque,	Napanee,
Almonte,	Iroquois,	Peterboro',
Smith's Falls,	Morrisburg,	Lindsay,
Perth,	Brockville,	Kingston,

That the whole of Eastern Ontario is deeply concerned in the prosperity of Queen's University;

That a large and valuable property has been acquired at Kingston; that new, commodious and permanent buildings have been erected with funds furnished by the citizens of Kingston for the University; that the Municipality of the City of Kingston, together with twelve County Councils have unanimously passed resolutions in its support;

That Queen's University counts among its friends the great mass of the population from which the students are chiefly drawn;

That your petitioners learn with great satisfaction that the extension of University education is engaging the attention of the Government, and it is their earnest desire that the public importance of Queen's should be well known and duly considered;

That it has been publicly announced that additional revenues are required from the Province for carrying on University work in Toronto; that while your petitioners entertain the most friendly feeling towards Toronto University as a sister institution and sincerely wish it every possible prosperity, they trust they may point out that so far as Queen's is doing the same kind of work as Toronto University, and doing it equally as well, she establishes the strongest claim to receive recognition in some form;

That the work done of a purely public character by both institutions may be fairly measured by the number of students in the ARTS classes where general Literature and Science are taught;
