The Answer to your Paint Problem

A paint so completely opaque that it gives maximum covering-capacity per gallon—so elastic that it resists both extreme heat and zero temperature—so tough and durable that it provides protection for a longer period after application than any other brand.

The base of this paint consists of Brandram's Genuine B.B. White Lead and pure white zinc. The makers of B-H are the makers of B.B. White Lead—also the makers of their own linseed oil, and so are in a position to vouch for both these important ingredients.

These splendid raw materials correctly proportioned cannot fail to produce a superior paint. In B-H we offer you the brand that ensures a fine smooth surface, incapable of cracking or peeling. Use this paint this year—and your *next* painting of that surface will be years hence, with complete protection meanwhile positively assured.

**For sale at the better stores
throughout Canada.**

THE GARAGE YOU'VE BEEN LOOKING FOR

It has every advantage a Garage should have to meet your requirements. It is well-built and attractive—inexpensive—easily erected. It's one of the famous

PRESTON PORTABLE GARAGES

The folding doors are an exclusive Preston feature—a convenience that you will appreciate. Made in two styles and two standard sizes.

The Garage comes to you in sections—the heaviest of which can be easily handled by two men. It's but the work of a few hours to set it up, all ready to drive in your car.
