

Necessity of Sleep As a Restorer.

The Vitality Consumed During Waking Hours Must be Replaced During Sleep—Otherwise Collapse.

Sleep is more essential to life than food.

Men have lived for weeks without food, whereas a few days without sleep and man becomes a raving maniac—a mental and physical wreck.

Nights of sleeplessness tell of a feeble and depleted nervous system, of approaching nervous prostration or paralysis.

The use of opiates merely gives temporary relief, and actually hastens the collapse of the nervous system.

The regular and persistent use of Dr. Chase's Nerve Food will form new, rich blood, create new nerve force and thoroughly cure sleeplessness and nervous exhaustion.

By keeping a record of your increase in weight while using this great food cure you can be certain that new, firm flesh and tissue is being added to the body. You will feel the benefit in every organ.

Mrs. S. Derocher, 495 Bethune Street, Peterboro, Ont., states: "I was troubled a great deal with nervousness and sleeplessness, and began a treatment with Dr. Chase's Nerve Food. I can say for a certainty that it is a splendid medicine, for besides steadying my nerves, it built up my system wonderfully and enabled me to rest and sleep well. We have used Dr. Chase's Kidney-Liver Pills and Ointment in our family for years and consider them excellent. For skin diseases, I think the Ointment cannot be equalled, and the Pills are a most satisfactory laxative."

Dr. Chase's Nerve Food, 50 cents a box, 6 boxes for \$2.50, at all dealers, or Edmanson, Bates & Co., Toronto. To protect you against imitations, the portrait and signature of Dr. A. W. Chase, the famous recipe-book author, are on every box.

HAMPSHIRE DOWN

SHEEP.

"RESERVE" FOR CHAMPION IN THE SHORT-WOOL CLASSES, SMITHFIELD, LONDON, 1901.

Splendid Mutton, Good Wool, Great Weight.

This highly valuable ENGLISH BREED OF SHEEP is unrivalled in its wonderfully early maturity and hardness of constitution, adapted to all climates, whilst in the quality of mutton and large proportion of lean meat it is unsurpassed; and for crossing purposes with any other breed, unequalled. Full information of

JAMES E. RAWLENCE,

SECRETARY HAMPSHIRE DOWN SHEEP BREEDERS' ASSOCIATION,
SALISBURY, ENGLAND

GOSSIP.

Mr. Edgar Silcox, of Elgin County, Ont., has, says the Ridgetown Dominion, thirty-six Jersey cows, from which he last year sold \$690.31 worth of cream and \$1,836.68 worth of butter, or a total of \$2,526.99, making an average of a little over \$70 per cow. A fair allowance for the skim milk and butter-milk would bring the average up to a little over \$80. The cows had no gain while on grass, and there are nine two-year-old heifers in the lot.

Mr. W. E. Woodruff, Lincoln Co., Ont., writes: "On page 106 of your paper, F. C., of Huron County, asked the question: 'Does silage hurt steers that are to be finished on grass?' In reply, I say it does not. We sold some cattle last spring to a butcher, which he finished on grass, and I heard no bad account of them. Mr. Hudson Usher, of Queenston Heights Stock Farm, buys cattle and winters them on silage, and finishes them on grass. I think it is reasonable to conclude that people would not do it if it did not pay."

In a recent issue of the London Livestock Journal we read: "Shire horses have made great strides in public favor during the year that has just passed, on the American side of the Atlantic, where Messrs. Truman & Sons, Bushnell, Ill., have been importing a large number of our Shires of the best class; amongst them have been several sons of Blaisdon Conqueror, and these have made a very favorable impression upon American breeders, having been successful both at the shows and as stud horses. Big, weighty, clean-limbed and active, they are just the stamp to suit that country, and to perpetuate a class of heavy horses of the highest value. It needs but a few more importations of this class to give the Shire horse as enviable a reputation in the Western continent as he now enjoys in England. Of the heavy horses in Messrs. Truman's stud in Illinois, totalling fifty head, some forty-six are English Shires. Several of the best of them are by Blaisdon Conqueror; amongst these is Blaisdon Pluto, champion at the International in 1901, and Blaisdon Albert, a grand young horse that won first recently at the Chicago International.

Right at the end of last year, Dunham, Fletcher & Coleman write: "We received an importation of Percheron, French Coach and Belgian stallions, which, perhaps, will bear favorable comparison with any that has ever been brought to these shores by this famous firm. Indeed, in the stables at Oaklawn Farm, Wayne, Ill., at this time may be found an array of stallions of these breeds, which, as far as their individuality and prizewinning record are concerned, have no equal in this country. It is impossible to go into particulars as fully as might be desired, but to begin with the Percherons, we find winners of two first prizes at the important French show at Le Mans, winners of first at Chartres, Chateau d'Un, Evereux, and other points, while we may also see the winners of the most important first prizes at the great round-up show at The Hague among the French Coachers, and among the Belgians are several which the Belgian Government strove hard to retain in its country. In continental Europe, the Governments, which encourage horse-breeding, offer annually what are termed 'conservation prizes,' and in Belgium these are of \$1,200 each. The stallion which wins one of these must make a season of a stated number of mares in the season following the date on which he is awarded the money, and it is owing to this fact, principally, that the importation of this magnificent lot of stallions was delayed until so late in the year 1903."
