## "Carnefac Suits."

The users are the best judges, it is their recommends that has built our trade. They are delighted with Carnefac, because a small quantity and a short time's use gives entire satisfaction, they do not require to feed for months in order to find out whether it is going to be a benefit or not, a few weeks' use will put any animal's system in splendid form. Read what this well-known stockman writes us:

West L'Ardoise, Cape Breton, Jan. 27th, 1905.

The Carnefac Stock Food Co., Toronto.

Dear Sirs: Enclosed please find balance due on "1 pail" Carnefac, which duly arrived here Dec. 24th, 1904. Must say that Carnefac has proven very satisfactory. As a matter of fact, do not think I shall ever be without it again. I have recommended it, and you shall certainly hear from me when this pail is empty. Yours truly,

(Signed) JEFFREY MAUBOURQUETTE.

If further reasons are required than those already given as to why every man who feeds stock should use Carnefac, a card to our office will bring you our booklet containing the testimonials of the best veterinary surgeons and stockmen in Canada. No gifts or premiums, just Carnefac, the tonic that gives satisfaction. If your dealer has not got it, write direct.

ADVERTISE IN THE FARMER'S ADVOCATE

In answering any advertisement on this page, kindly mention the FARMER'S ADVOCATE.

## 10 Good Reasons

why you should own a Massey-Harris 20th Century Manure Spreader.

1. Because it gives the land an even coating of manure of uniform depth.
2. Because you can increase the production of your farm, double the present value by the use of a Massey-Harris 20th Century Spreader.
3. Because it cuts your expense for spreading manure in half. The small boy who can drive a team straight can operate the 20th Century as well as a man. He will do the work of four men and do it much better.
4. Because all operations are under the immediate control of the driver, and he loses no time in making changes.
5. Because the amount of manure to be spread per acre can be judged by the driver, who sets his gauge and drives ahead.
6. Because it does away with two-thirds of the heavy lifting and the old back-breaking method of hand-distribution, one of the most cordially hated jobs on the farm.
7. Because it spreads the manure evenly from the starting point.
8. Because in distributing the manure it will not clog and break the beater.
9. Because it is the most simple of construction of all Manure Spreaders.
10. Because it is easy running and light draft, having wide tires, enabling the horses to walk faster with less fatigue than with the hard-pulling, horse-killing, narrow-tired Manure Wagon.

We have had so many recommendations of CROWN JEWEL AXE it has been difficult to decide, but we have awarded the \$5.00 offered to A. E. Fletcher, Mulmur, Ont., who writes: "I have used a Crown Jewel for nearly two months and have found it very satisfactory in all kinds of chopping, especially in hard work, such as hemlock knots. It would wade in with no fracture of any description as a result and holds an edge the best of any axe I ever used."
