

FARMING WITH A TELEPHONE PUTS YOUR FARM ON A BUSINESS BASIS

80 PAGE RURAL TELEPHONE BOOK FREE

Farming is a business and should be considered so. Nothing will aid you more in systematizing your farm than a telephone. With the aid of a telephone you can communicate at any time with your grain, stock and produce buyer, your bank, your station agent, your implement store—in fact, everybody with whom you have business relations. Think of the time and energy saved in calling over the telephone for the market quotations, which will enable you to buy and sell at an advantage. What a blessing to you to order broken parts for your machinery by phone. And the trips to town which are saved. All this means convenience and less work. With a telephone you can run your farm like a business. You can get all the profit there is in the business of farming.

The telephone makes farm life pleasant, it brings you nearer to your neighbors. You can talk with your friends any hour of the day or night. You can instantly send an emergency call for a doctor when the life of a loved one is in danger. Don't think because of these many advantages that the telephone is expensive. It costs very little to have a telephone placed in your home.

It's in the Clamp

The lasting strength of a wire fence rests mainly in the clamp that secures the crossing wires.

The famous Anchor clamp has a grip that never fails. Bending the wires slightly, it keeps them fastened in the one place steadily, in spite of storm and pushing animals. It cannot slip. Nor can the wires spread.

Made from one-inch steel—japanned or galvanized, the latter being proof against rust.

Anyone can put up an Anchor fence. But our agent will do it, if you like. There's no fencing so thoroughly satisfactory. Simple, reliable and wonderfully low-priced.
