

WEAK TIRED WOMEN

How many women there are that get no refreshment from sleep. They wake in the morning and feel tired than when they went to bed. They have a dizzy sensation in the head, the heart palpitates; they are irritable and nervous, weak and worn out, and the lightest household duties during the day seem to be a drag and a burden.

MILBURN'S HEART AND NERVE PILLS

are the very remedy that weak, nervous, tired out, sickly women need to restore them the blessings of good health.

They give sound, restful sleep, tone up the nerves, strengthen the heart, and make rich blood. Mrs. C. McDonald, Portage la Prairie, Man., writes: "I was troubled with shortness of breath, palpitation of the heart and weak spells. I got four boxes of Milburn's Heart and Nerve Pills, and after taking them I was completely cured."

Price 50 cents per box or three boxes for \$1.25, all dealers or the The T. Milburn Co., Limited, Toronto, Ont.

Try Dorset Ram on your GRADE FLOCK.

They produce the very choicest butcher's lamb. I have several on hand at very reasonable prices. For particulars apply to:

R. H. HARDING, Mapleview Farm, Telephone connection. Thorndale, Ont.

A Southern farmer asked a negro farm hand the cause of his worried and harassed expression. "De trubbul, boss," said the negro, "is mah wife. She is de 'stravagantes' pussion I knows. She is alwus atter money. Money dis, en money dat, en mo' money. She comes ter me fer one dollar, en den she wants two dollars, en so hit goes." "But, Joe," inquired the boss, "what does she do with all this money?" "Well, de fac' is, boss," explained Joe, "I ain't give 'er none yit!"

QUESTIONS AND ANSWERS. Veterinary.

TUMOR.

Twelve-year-old dog has had a hard tumor, the size of three hens' eggs, inside his hind leg for two years. The lump can be moved a little. J. S. B.

Ans.—This growth can be dissected out. As the dog is so old, it might not be safe to give him chloroform or ether, but he must be held, or tied, securely, and the tumor carefully dissected out, the skin stitched, with the exception of an opening at the lowest part of the wound for the escape of pus. Then he will keep it clean by licking it, and it will require no dressing. It requires a person who has skill in such matters to operate; but, if skillfully performed, the operation should not prove serious, unless some complication sets in. V.

LAME MARE.

Two months ago my mare stumbled and skinned both knees. In a week, she went lame in right fore leg, and seemed sore in back tendon. I applied a liniment, and she got all right. In a few days she went lame in the other fore leg, and has been lame ever since. After a rest, she will drive sound for a few miles, and then commence to go lame and get worse the further she goes.

W. A. M.

Ans.—I am of the opinion there is inflammation of the knee joint. Give her rest. Clip the hair off the joint all around, and blister. Take two drams each biniodide of mercury and cantharides and mix with two ounces vaseline. Tie so that she cannot bite the part. Rub well with the blister once daily for two days. On the third day wash off and apply sweet oil. Turn loose in box stall, and oil every day. If the lameness has not disappeared in a month, blister again. V.

Miscellaneous.

A MISREPRESENTED STALLION

Owner of an entire horse gets out bills and advertises his horse to be pure-bred Clydesdale. Said horse proves to be not eligible for registration.

1. Is there any recourse for those using him in faith that he was as bills stated. Bills have number of horse and pedigree, which are all fictitious.

2. Can he collect his fee from patrons? Ontario. M. O. D.

Ans.—1. We think they have a good cause of action against the stallion-owner for damages.

2. We consider that they are in a position to successfully resist any legal proceedings on his part to collect.

CEMENT ROOT-HOUSE.

1. I intend building root-house 16 x 30 feet, 8 feet high; intend building above ground. Would one foot thick, without air spaces, save roots, or would it require air spaces?

2. How deep would I have to sink foundation?

3. What size would I have to start wall?

4. I would like to roof with cement. How would I start roof?

5. How many yards of gravel and broken stones, and how many barrels of cement would I need to build the above? G. McF.

Ans.—1. An air space, we think, would be necessary.

2. Below the frost line. Two feet should do in most localities.

3. The wall does not need to be any thicker at the surface of the ground than it is right up to the eaves.

4. A false roof, a temporary structure of old boards, strongly supported, will have to be built, on which the cement concrete for roof can be spread.

5. Allowing one foot for thickness of wall and roof, exclusive of air space in wall, and having concrete mixed one to eight, there would be needed about 64 cubic yards of broken stone and gravel, and 52 barrels of cement. T.

Farnham Farm Oxford Downs

We are now offering a number of select yearling rams and ram lambs, sired by imported ram, for flock headers; also yearling ewes and ewe lambs. Price reasonable.

Henry Arkell & Son, Arkell, Ontario. Arkell C. P. R.; Guelph, G. T. R.
