ACACIA VILLA SCHOOL

CLOSING EXERCISES

The examinations and closing exercises of Principal Patterson's school took place on Tuesday last. The weather was delightful and more than the usual number of the parents of the boys and other visitors were present. The class examinations were up to the usual average. Particularly noticeable were the classes of Mr. Tait, in French, Mr. McGill's class in chemistry and botany, and Miss Fulton's class in book-keeping. Mr. Tait has the correct accent and a most admirable way of teaching the French language and the class had caught the inspiration of the leader.

At the noon hour the tables in the large dining room were filled with the boys and guests and ample justice done to the good things provided by the very efficient matron, Mrs. Armstrong and her helpers, under the supervision of Miss Annie Patterson, who always assists at these critical periods in the internal economy of the school. If the boys' capacity for learning equals their capacity for the good things of the table, certainly they will go home well filled with knowledge.

In the afternoon the examination continued and closed with a dumb-bell exercise outdoors led by Mr. Patterson.

In the evening the Hall was filled with an appreciative audience and delighted with an excellent program. The patriotic songs by the Glee Club and the vocal and instrumental music by others, were very good. The original essays by P. Moore, Wm. Eaton and Miss Gertrude Curry were all very creditable and the recitations were well learned and well delivered without exception. Mr. McGill's address, "The Requirements of the Times," was a most timely and eloquent paper, which should be published for the reading public. At the close there were addresses by several gentlemen and the Principal's report. The school has numbered from 45 to 60 boarders and some day scholars and has been most prosperous.

The boys in Miss Fulton's class, presented her with \$10 as a mark of their esteem and appreciation of her teaching abilities and kindness of heart, to which she replied in just the right spirit and words. Miss Fulton is very popular and is doing good work in the school. She has been engaged for another year. There will be some changes in the teaching staff, but the old school will be all ready for work at the beginning of another term, with a good staff of teachers as usual.

What the Ottawa Citizen says.

Hon. George H. Murray, premier of Nova Scotia, arrived in the city Saturday evening. It is said his visit has to do with the dissolution of the provincial legislature, the time appearing opportune for a general election in Nova Scotia, owing to the prevailing good condition of business.

The payment of the federal award of \$671,800 is expected to facilitate Mr. Murray's chances of return to power.

About two weeks ago eighteen panes of glass were broken in Victoria Hall, Berwick, by some unknown parties. A subscription list was circulated among the people of that place and the sum of \$50 was raised to replace the glass and reimburse any future loss which may be put upon Justice Bligh in the discharge of his duty in enforcing the Scott Act.
