Child Had

Bronchitis

Once people get acquainted with the wonderful control which Dr. Chase's Syrup of Linseed and Turpentine exerts over bronchitis, whooping cough, croup and colds, it is not easy to persuade them that anything else is "just as good." This is why the imitators never get very far.

In 1902 Mrs. Eugene Iler, King street, Truro, N.S., wrote as follows: From an infant one of my children was troubled with bronchitis, and the least cold would aggravate the trouble. We could not get anything to help him, and were often greatly alarmed. Hearing of Dr. Chase's Syrup of Linseed and Turpentine as a treatment for bronchitis we used it. and are glad to state that it effected a complete cure. If any of the children take a cold or cough I give this medicine, and have never known it o fail to bring relief."

Mrs. Iler now writes that she has since proven this medicine to be a cure for whooping cough, and would not be without it in the house.
