

and September in each year and coupons shall be attached to each of the said debentures representing the respective payments of interest.

5. The said debentures shall be sealed with the corporate seal and shall be signed by the Mayor and City Treasurer and the said Coupons shall be deemed to be properly executed by each one having printed or lithographed thereon the name of the Mayor and by having placed thereon the written signature of the City Treasurer and the debentures may be issued in sterling or currency or partly in the one and partly in the other.

6. In addition to all other amounts there shall be levied and collected in each year, during the currency of the said debentures, on all rateable property in the City of Regina (except the sum of Three thousand dollars (\$3,000.00) for the annual interest and the sum of One thousand and sixty-nine dollars and eighty cents (\$1,669.80) by way of sinking fund to meet the principal at maturity, making in all the sum of Four thousand and six hundred and eighty-eight cents (\$4,688.80).

7. This By-Law shall take effect on the day of the final passing thereof.

8. J. Kelso Hunter is hereby appointed Returning Officer for the purpose of taking the votes of the burgesses upon the said By-Law.

9. The following persons shall be the respective Deputy Returning Officers to take the votes of the burgesses upon the said By-Law:

First Ward—John McCarthy.
Second Ward—W. Turnbull.
Third Ward—D. G. Ramage.
Fourth Ward—E. Turnbull.
Fifth Ward—T. B. Hooper.

10. This By-Law shall be submitted to the burgesses on Thursday the 27th day of February 1906 and for the purpose of taking the votes thereon the polling places shall be open between the hours of nine o'clock a.m. and five o'clock p.m. in each of the following places in the City of Regina:

First Ward—Corporation Weigh House, Ouellet Park.
Second Ward—City Hall, Scarth St.
Third Ward—Polling Booth, corner of Scarth St. and Victoria St.
Fourth Ward—City Hall, Albert St.
Fifth Ward—Cushing's office, Dewdney St.

11. On Friday the 28th day of February 1906 in the City Hall in the City of Regina at 10 o'clock in the forenoon the Returning Officer shall sum up the number of votes given for and against this By-Law.

12. On Wednesday the 26th day of February 1906, at the hour of four o'clock in the afternoon the Mayor shall attend at his office in the City Hall for the purpose of appointing persons to attend at the various polling places and to attend at the official summing up of the votes hereinafter referred to on behalf of the persons promoting or opposing the passage of the same respectively.

Read a first time this 3rd day of February, 1906.
J. KELSO HUNTER, J. W. SMITH
City Clerk Mayor.

Read a second time this 3rd day of February, 1906.
J. KELSO HUNTER, J. W. SMITH
City Clerk Mayor.

NOTICE

The above is a true copy of the proposed By-Law which has been introduced by the Council of the City of Regina and which may be finally passed by the said Council in the event of the assent of the burgesses being obtained thereto within four weeks of the voting thereon and upon the day and at the place fixed by the said By-Law for taking the votes of the Burgesses the voting thereon will be held between the hours of nine a.m. and five p.m.

Dated this 4th day of February, 1906.

J. KELSO HUNTER,
Returning Officer.

PATENTS PROMPTLY SECURED

We solicit the business of Manufacturers, Engineers and others who desire the expediency of having their Patent Transactions handled by Experts. Patent Agents, Inventors, Inventors, our Inventor's Adviser sent upon request. Martin & Martin, Reg'd., New York Life Bldg., Montreal and Chicago.

SEED GRAIN ARRANGEMENTS

Applications Should be in by February 22nd—Instructions How to Make Applications.

Ottawa, Feb. 6.—Two important circular letters having reference to the proposed seed grain advances to western farmers requiring the same, have been issued, signed by the representatives of the Dominion governments of the provinces of Alberta and Saskatchewan. As it is important that they should receive wide publicity in the west the letters have been handed to the press. The circulars are as follows:

SEED GRAIN CIRCULAR

In view of the partial loss of the crop of 1907 in certain sections of Saskatchewan and Alberta, resulting in a scarcity of good seed grain, and in view of the further stringent financial conditions now prevailing, it is believed that exceptional measures are necessary to ensure that sufficient reliable seed grain will be available for the coming spring.

Arrangements are in progress between the federal and provincial governments with a view to financing the purchase and distribution of seed grain in the provinces mentioned.

While arrangements between the respective governments are now in progress, and as the needs must be known before they can be provided for, application forms to be filled in by those needing grain, have been prepared and are being placed with secretaries of local improvement districts, post masters, Dominion land agents, sub-land agents, homestead inspectors, mounted police officers, and others throughout sections of the two provinces where seed is most urgently needed.

In case it is not possible under the arrangements in progress, to secure the amount of seed that will be necessary, every settler who can by any means secure seed for his own sowing should do so.

It is not intended in any case to make advances of seed grain to settlers who, although they may have land under cultivation, have not lost any crop, nor to those whose crop, although unfit for seed, brought or would bring a return at market prices which would enable them to purchase seed. Not more than two hundred bushels will be advanced to any settler. It is contemplated that those who have lost their crop, or whose crop was so badly damaged as to be unmarketable at a price which should enable them to purchase seed, may be assisted as far as possible on the conditions set forth in the application forms.

Repayment of all advances must be secured—in case of homesteaders who have not yet received recommendation for patent, by a lien upon their homesteads, and by those who have received recommendation for patent, or are owners of occupants of land by agreements of sale for purchased land by security of the provincial government satisfactory to that government.

The price to be charged will be the first cost of the grain, the cost of cleaning, sacking and transportation. Interest on advances will be charged at the rate of 5 per cent. per annum.

As the time is short, and as the applications when returned must form the basis of definite action, it is urgently necessary that all who may need seed grain shall secure the necessary forms and make their application at once. Otherwise it will be impossible to provide for their needs in time.

(Sgd.) FRANK OLIVER,
Minister of Interior.
(Sgd.) W. R. MOTHERWELL,
Commissioner of Agriculture, Sask.
(Sgd.) GEO. HARCOURT,
Deputy Minister of Agriculture, Alta.

INSTRUCTIONS

By arrangement between the Dominion, Saskatchewan and Alberta governments, it is proposed to advance seed grain to settlers so desiring in Saskatchewan and Alberta, who lost their crop by frost or hail last fall, or had their crop so damaged that it is unfit for seed, and saleable only at a loss.

Forms of application for seed grain advances are being freely distributed throughout the two provinces. The application must be filled out in duplicate and declared before the secretary treasurer of the local improvement district or municipality in which the applicant resides. The secretary treasurer will give the applicant a receipt for his application, and the form supplied, which receipt must be preserved. Applicants will be notified when grain is ready for delivery and must present their receipt as identification to the railway agent at the station at which they requested the seed to be delivered.

In Saskatchewan, the original application form must be sent by the secretary treasurer immediately to R. E. A. Leach, Regina; the duplicate to be presented to a special meeting of the council of the local improvement district or municipality for consideration, possible amendment and approval, and then forwarded to R. E. A. Leach, Regina.

In Alberta, the original application must be sent immediately to the Dominion lands agent at Edmonton, and the duplicate, after having been in the public schools in 1907 was

passed upon by the council shall also be sent to the Dominion land agent at Edmonton, and marked "Seed Grain Application" on the outside of the envelope.

All duplicate applications duly certified by the chairman and secretary treasurer should be in Regina and Edmonton respectively, not later than February 22nd.

When the applicant is not within a local improvement district, application must be made before a Dominion lands agent, sub-lands agent, homestead inspector, immigration agent or member of the R.N.W.M.P. for the district within which the applicant resides. Such officer shall amend and subscribe to the certificate "recommendation of council" forwarding original and duplicate copies immediately, according to above instructions.

It is impossible to say now what the price of seed grain will be, but it has been decided that the cost to farmers will be the actual cost of the grain, including the freight, re-cleaning and sacking, as near as can be ascertained.

As the time is very short until seeding will begin, it is of the greatest importance that prompt action be taken by all concerned. It is doubtful if applications not received by the 22nd February can receive consideration.

While the governments interested are taking every precaution to secure suitable seed grain at the lowest possible price and the highest grade of excellence, vitality and freedom from weed seeds, still the cost will necessarily be high; and, notwithstanding every care in purchasing and re-cleaning seed, it is possible that there may be some lost weed seeds distributed to those who avail themselves of this medium of securing seed. It will, therefore, be advisable for farmers to re-clean seed provided, and thus further minimize the possibility of introducing noxious weeds.

The secretary treasurer of every local improvement district who receives applications shall be entitled to a fee of twenty-five cents for each application, and for such fee the secretary treasurer will be expected to make the declaration therein provided and perform such other clerical work as may be required in connection with such application. All such fees shall be paid by Mr. Leach when the work is completed and a proper statement of fees earned is presented in duplicate.

(Sgd.) FRANK OLIVER,
Minister of Interior.
(Sgd.) W. R. MOTHERWELL,
Commissioner of Agriculture, Sask.
(Sgd.) GEO. HARCOURT,
Deputy Minister of Agriculture, Alta.

BOARD OF TRADE REVIEWS WORK

(Continued from page 6.)

tal for the year is \$292,011.72 an increase of over 100 per cent. over the previous year.

Regina has always taken a lead in educational matters. Under the act respecting secondary education the Regina high school district has been organized and the attendance and equipment of its school entitled it to rank as a Collegiate Institute. The courses of study pursued in the school are those prescribed by the regulations of the educational department, namely the teachers course, the university course, the general course, the agricultural course and the commercial course. Provision is also made whereby students may proceed with the university course of the second year as prescribed by the department of education. Principal Lang is assisted by a teaching staff of four and the enrollment of pupils number one hundred.

Just one month ago was held the first convocation of the university of Saskatchewan and some of the leading men in educational matters in Canada were present, among whom mention must be made of Professor Peterson of the McGill university; Dr. Hutton of the university college, Toronto and Pro. Bland of Wesley college, Winnipeg. The stirring addresses on educational matters delivered by these gentlemen in the Metropolitan Methodist church were listened to by a large number of citizens, and the great amount of interest taken in the subject by the public generally would lead us to hope that the beautiful Gothic spires of the university of Saskatchewan spoken of by Prof. Bland, will soon be seen raising their heads in the city of Regina.

The year 1907 saw the completion of yet another school, the Albert school in the Northwest portion of the city, though not so large as the Victoria school, having eight rooms instead of ten. It has the advantage of the most modern system of heating and ventilation. The cost was \$45,000 and the architects gave high praise to the contractors for the manner in which the building was finished.

The number of pupils on register and the duplicate, after having been in the public schools in 1907 was

1090 as compared to 630 in 1906, an increase of 73 per cent., and in the Grattan separate school 300 as compared with 200 in 1906. As fast as the schools are built they are crowded, and the call is always for more room. We submit that these figures are a sure indication of the increase of population in the city, and we are of the opinion that 10,000 is a conservative estimate of our population.

Two new banks were opened in 1907 the Nova Scotia and the Royal bank, making in all ten chartered banks now doing business in the city.

Considerable activity was in evidence during 1907 in the wholesale and warehouse district in the north of the city. Many sales have been made by the city council of lots in this district for warehouse sites, and many fine warehouses have been erected including the Michels and Shephard, the International Harvester Co., Messrs. Stockton & Mallinson and A.H. Thomas Wilkinson's warehouse occupied by Messrs. Cameron & Heap. The Nicholls & Shephard Co., and the Reeves Co., have transferred their offices from Winnipeg and are making Regina their headquarters. The opening of the wholesale grocery firm of Messrs. Campbell Bros. & Wilson and Messrs. Cameron & Heap also go to prove that Regina is becoming recognized as a wholesale and distributing centre.

We have left until the last what we consider the most important feature of the progress and development of the city of Regina in 1907 and that is the extensive program of public improvements carried on by the city council. A sum of over \$300,000 has been expended on pavements, concrete curb and gutter, and concrete sidewalks, and visitors to the city, one and all express surprise and admiration at our well paved streets. The waterworks and sewer system has been extended and some 300 residences have been connected. A large compensating basin has been built capable of containing one million gallons of water, and in addition a storage basin at the power house will hold 500,000 so that we have an ample supply of water for any emergency.

The electric light plant shows in a marked degree the growth and improvement of the city. The number of services have increased from 304 in 1905 and 495 in 1906 to 900 in 1907. Although a considerable reduction was made in the rate, and we have a rate of nine cents per kilowatt hour, as compared with 10 cents at Winnipeg and the same rate at Moose Jaw, the plant is being operated at a fair profit and after writing off a sufficient sum for the depreciation of the plant, the electric light service and the city water works are being maintained in a state of great efficiency without costing the taxpayer one single cent.

The city hall is nearing completion and will supply a long felt want in a very handsome manner. We are looking forward to the opening in the very near future.

A splendid auditorium with a seating capacity of two thousand, stabling for thirty-two horses and a fine arena 40 ft x 60 ft for stock judging purposes has been built at the exhibition grounds at a cost of \$12,000 and an additional stable costing over \$2,000. The grand stand was doubled in size and a water works system was installed so that we have now an exhibition grounds compact in every particular.

In addition to the provincial fair stock show, horse show and pure bred cattle sale held under the auspices of the Saskatchewan Stock Breeders' Association and the Saskatchewan department of agriculture in March, and the summer fair held by the Regina Agricultural Association on July 30, 31, Aug. 1 and 2, the buildings were also made use of for the sale of pure bred shorthorns by A. & G. Mutch. We hope that it may be possible to develop this latter business a little more fully, always taking due precaution that the buildings are kept in a thorough sanitary condition, so that in the near future Regina may come to be looked upon as the recognized headquarters of the stock in the province or even in the two provinces, and that she may be a great distributing point for all the stock bought and sold west of Winnipeg.

The wise policy of the city council in reserving ample space for parks is commented upon by all visitors to the city. Wascana park and Victoria park have been thoroughly cultivated during the past year and evergreen trees and shrubs this year, and the year 1907 saw considerable improvements in the equipment and general efficiency of the fire brigade. The new central fire hall on Hamilton street was completed, and the brigade moved into their beautiful commodious quarters. During the year thirty calls were turned in, and of these only ten did any considerable damage. The total damage done during the year amounted to only \$3,385. Unfortunately the year 1908 has already been marked by a serious fire which caused the destruction of the flour mill owned by the Regina Flour Mill Co. We have confidence in the company, however, and feel sure that we shall shortly see another roller mill in its place that will be able to handle this large industry in a profitable and progressive manner.

In conclusion we would point out that the future usefulness of the board in so far as the publicity cam-

aign is concerned is largely dependent upon the city council. During the past year our activity in this direction has been somewhat crippled by the fact that the full grant was not voted at the beginning of the year and your council was never in a position to organize a systematic plan of campaign. It has been suggested that the annual fee should be raised in order to provide a larger revenue, but we would point out that practically all the largest taxpayers in the city are members of the board of trade and it would be unfair to tax them for work that is beneficial to the whole community.

We would submit that it is most important that an active policy of advertising be pursued at the present time, when Regina is just beginning to assert herself as a recognized wholesale and distributing centre.

"There is a tide in the affairs of men,"

Which taken at the flood,
Leads on to fortune,
Omitted all the voyage of their life
Is bound in shallows and in miseries.
On such a full sea are we now afloat,
And we must take the current when it serves,
Or lose our ventures.

The recent sale of city debentures was a most satisfactory indication of the high position which Regina holds in the financial world, and compared very favorably with recent sales.

MEAL TIME MISERIES

Indigestion Can be Cured by the Tonic Treatment of Dr. Williams' Pink Pills

There is only one way to cure indigestion and that is to give your system so much good red blood that the stomach will have strength enough to do its natural work in a healthy, vigorous way. Many dyspeptics dose the stomach with tablets, syrups and other things alleged to assist in digesting food, but these things merely give temporary relief—they never cure indigestion—and the trouble grows worse and worse, until the poor dyspeptic is gradually starving. In a case of indigestion a half dozen boxes of Dr. Williams' Pink Pills are worth all the mixtures and so-called pre-digested foods in the country. These pills cure indigestion because they strengthen and tone the stomach, thus enabling it to do the work nature intends it should do.

Mr. Paul Charbonneau, St. Jerome Que., says: "For months I suffered tortures from indigestion. After every meal the misery was intense, so that I finally ate most sparingly. I tried several so-called indigestion cures, but they did me no good. My general health began to run down. I suffered from headaches and dizziness and pain about the heart. Often after the lightest meal I would be afflicted with a smothering sensation. Finally my mother induced me to try Dr. Williams' Pink Pills. Under the use of this medicine the trouble began to disappear, and in less than a couple of months I had completely recovered my health and can now enjoy a hearty meal as well as anyone."

If it is because they make new, rich blood that Dr. Williams' Pink Pills always cure indigestion, anemia, rheumatism, heart palpitation, neuralgia, sciatica, St. Vitus dance, and the headaches, backaches and other indescribable ills of girlhood and womanhood. Sold by medicine dealers or by mail at 50 cents a box or six boxes for \$2.50, from the Dr. Williams' Medicine Co., Brockville, Ont.

SECRETARY'S REPORT

The secretary's report first dealt with the finances of the board.

There is a membership of 185, forty-one of whom are in arrears for dues.

A detailed statement of work done along publicity lines was also included in the report.

The reports were adopted with an amendment to the council's report to include a reference to the establishing of the business of the Young Thomas Soap Co.

NEW OFFICERS

In future the officers are to include a president; 1st and 2nd vice president; a secretary-treasurer and a council of fifteen members.

The following were elected:

President: Major A. E. Whitmore.
1st vice pres.: H. W. Laird.
2nd vice pres.: W. McCausland.
Sec.-treas.: H. C. Lawson.
Auditor: Geo. S. Gamble.
Council: D. J. Taylor, P. McAra, Jr., W. P. Wells, J. H. Haslam, C. C. Knight, J. F. Bola, G. H. Smith, C. O. Hodgkins, J. M. Young, A. B. Cook, A. T. Hunter, P. Cooper, L. T. McDonald, E. A. McCausland, and J. A. Allan.

A committee was also appointed to revise the by-laws of the board. The committee named was W. McCausland, P. McAra, J. A. Cross, J. M. Young, and D. J. Taylor.

Before a meeting adjourned Mr. Haslam spoke briefly of the necessity of keeping on in the effort of securing a share of the settlers who are moving into the States to the south. There seemed to be a movement towards Texas and Washington and there was a danger of western Canada getting very few this coming year.

Japs Armed

Tacoma, Wash., Feb. 7.—Employed as bell boys in the hotel Donnelly, two young Japanese have admitted having rifles and equipment used in the war with Russia, through which they served with distinction. The announcement has created a decided sensation locally, as it is stated by many who are well informed on the Japanese conditions on the western coast that the two bell boys are merely representatives of a body of many thousand soldiers equipped with guns and uniforms sent to the Pacific coast by the Japanese government.

It is stated that all discharged Japanese soldiers, with the exception of those sent to the United States and Hawaii, were all compelled to return to the government with their guns and army equipment.

Fearing trouble with the United States the Japanese veterans sent to this country, it is said, were all equipped with weapons.

BOLD HOLD-UP

Robbers Take Goods From Railway Men in St. Paul Yards—Two Men Do The Trick

St. Paul, Feb. 8.—Give that signal and you are a dead man," was the order received by brakeman Wyland of the Burlington road early this morning in the St. Paul yards as he was about to signal a train to pull out. The order was given by two masked men and it was emphasized by four loaded revolvers. The train was loaded with valuable freight and it appears that it was being looted by two bandits at the time.

It was on the Great Northern track and was headed for Minneapolis where the cars were to be transferred to the Soo line. Wyland was held in check by one of the men while the others calmly loaded the truck with all the freight it could carry and it was carted away under the very nose of the railroad employee, who was powerless to interfere. Both of the robbers then made their escape. The conductor of the train was in the office at the time getting his running orders and was not a witness to the affair.

A delighted he greatly to meet with her of the old days in Ireland. Crooning hymns or old Irish ballads, she displayed great cheerfulness. On the whole, she had remarkable health and never to her daughters' knowledge had she been ill during her whole life.

Mrs. Argue, whose maiden name was Margaret Jameson, was born near the village of Pettigo, Fermanagh county, Ireland. She was mar-

SURVIVED

3 HUSBANDS

Oldest Canadian Woman Died in Manitoba—Lived in Three Centuries

Nesbitt, Feb. 7.—The death took place on Wednesday of Mrs. Argue, known as the oldest woman in Canada. According to family records, she would have been 108 years old next August, although several of her relatives claim that she was in her 111th year. She was peaceful to the last, and it was clearly evident that death was due to advanced age, as there was no evidence whatever of illness.

The late Mrs. Argue had the unique experience of living in three centuries, having been born on August 15th 1800, the last year of the eighteenth century. Though in excellent health with good appetite and spirits her physical powers were not commensurate with these, and she had never left her bed since July 1904. Her eyesight failed in 1898, but her hearing remained good practically up to the time of her death. Though wonderfully clear in mental perception, her years of blindness were no doubt the main reason for an indifference to present day events and a desire to live in the past.

A delighted he greatly to meet with her of the old days in Ireland. Crooning hymns or old Irish ballads, she displayed great cheerfulness. On the whole, she had remarkable health and never to her daughters' knowledge had she been ill during her whole life.

Robbers Take Goods From Railway Men in St. Paul Yards—Two Men Do The Trick

St. Paul, Feb. 8.—Give that signal and you are a dead man," was the order received by brakeman Wyland of the Burlington road early this morning in the St. Paul yards as he was about to signal a train to pull out. The order was given by two masked men and it was emphasized by four loaded revolvers. The train was loaded with valuable freight and it appears that it was being looted by two bandits at the time.

It was on the Great Northern track and was headed for Minneapolis where the cars were to be transferred to the Soo line. Wyland was held in check by one of the men while the others calmly loaded the truck with all the freight it could carry and it was carted away under the very nose of the railroad employee, who was powerless to interfere. Both of the robbers then made their escape. The conductor of the train was in the office at the time getting his running orders and was not a witness to the affair.

A delighted he greatly to meet with her of the old days in Ireland. Crooning hymns or old Irish ballads, she displayed great cheerfulness. On the whole, she had remarkable health and never to her daughters' knowledge had she been ill during her whole life.

Mrs. Argue, whose maiden name was Margaret Jameson, was born near the village of Pettigo, Fermanagh county, Ireland. She was mar-
