

## DYNAMITE IN CITY HALL.

Enough to Wreck the Building Figured in Court Case.

William Trudgeon Committed in Horse Trade Case.

A. Robinson Accused of Biting W. Bonner's Ear.

When Constable Pete Brannon walked into court this morning with a little black valise, all was going smoothly, but when it was whispered about that the innocent looking bag contained 35 sticks of dynamite the crowd started to slip quietly out, and pretty soon Brannon and the "firecrackers" had the corner all to themselves. Yesterday morning Brannon was called to Charlton avenue west, where some boys had surrounded John Dale, Cathcart and Kelly streets, and Fred Taylor, 122½ King William street, and were keeping them till the police arrived. When Constable Brannon walked into the circle and arrested the men, they submitted quietly, but the boys stated that one of the men had waved a stick of the dynamite about and threatened to throw it at the gang if they were molested. The police took 35 nitro-glycerine percussion caps off the sticks, and then gave the prisoners a night's lodging in the cells. The Crown Attorney asked for a remand until Wednesday in the case, which was granted, and bail was fixed in the sum of \$200, each having to furnish two sureties of \$100.

Mr. Edmonston, of Gibson, Osborne, O'Reilly & Levy, stated that the defence would be that the men were taking the stuff out to a place where they were to start work with it this morning. When the case was done with Brannon picked up the dynamite and walked out, and signs of relief were heard on all sides. There was enough in the bags to give the City Hall employees a trip to Mars.

The case of William Trudgeon, Waterdown, charged with passing a doped horse on to Ed. Jobborn, was called next, and through James Dickson, Trudgeon pleaded not guilty and declined to elect.

Jobborn was called and stated that in July last he met Trudgeon on the market, and the defendant asked him if he wanted to trade his horse for a fine big one, sound as a bell and worth \$250. Jobborn stated his willingness, and arranged to meet Trudgeon at Clapton's Corner. The horse was there, and was affected. The two met and the trade was made, Jobborn giving his note for \$20 "to boot." The horse did well all the way home, but in the morning it had not touched its food and was apparently far gone with the heaves. He took it to Dr. Craig and had it examined and received the comforting information that the horse was worth about 50 cents. He kept it five weeks without work and then it died.

Mrs. Jobborn and James McKay, a farmer, swore that the defendant stated that the horse was sound in their hearing. Alfred Talbot, of the Sawyer-Massey Co., said that his employers sold the horse to Trudgeon after being told of its condition, and that \$40 was the price paid.

Dr. Craig said the horse was beyond human aid and that the disease it had was the heaves. He explained that drugs were known that would temporarily relieve it and make a bad case of heaves invisible to the casual observer.

Daniel Trudgeon, brother of the defendant, said he understood that an attack of bronchitis was what bothered it. Mr. Dickson called the defendant to the stand. He denied that any "dope" had been used and said that he thought the horse had a bad cold and took a few days off. He swore that the horse was sold to him, but could not explain the sudden development of the heaves. Trudgeon was committed for trial. The Magistrate stated that if he had the fixing of the bail he would make it \$200, and Mr. Dickson decided to go to a summary judge.

William Bonner, 122 West street, and A. Robinson, 198 Cannon west, were charged with fighting in Victoria Park on Saturday, and the last named was charged by the former with assaulting and maiming him, by hitting part of his ear off. Through Mr. Edmonston Robinson pleaded not guilty and declined to elect. Bonner stated that he was going through Victoria Park on Saturday when he saw two men fighting. He stopped to watch and when Robinson tried to interfere he stopped him. A few minutes later Robinson grabbed him and he was turned round and threw Robinson to the ground. In the mixup that ensued he lost the top of his right ear and almost had his eye gouged out. He was quite sure that the defendant said it. Constable Smith, who stopped the fight, said that Bonner was on top when he got there, but he had to choke Robinson to make him let go. He saw Robinson spit the missing piece of ear out when he got on his feet.

The Magistrate committed the prisoner for trial. The charges of disorderly conduct were allowed to drop.

John Hebburn, Stoney Creek, charged by Market Clerk Hill with assault, was fined \$5. The evidence was similar to the story in the Times on Saturday.

Thomas Nixon, Toronto, charged with being a vag, was told to spend Sunday otherwise than by hanging around the market and was allowed to go.

Arthur Bell, 74 Queen street south, pleaded guilty to throwing a quid of tobacco at Constable Hill on MacNab street east on Saturday and was fined \$5.

John Snow, and his brother Roydon Snow, of Caledonia, were fined \$5 each for fighting at the Radial Station.

William Green, Caledonia, W. M. Nord, Blith street, Samuel Prime, Fernside, John Moran, Aurora street, George Reid, Emerald north, and Lewis Connolly, John street north, were fined \$2 each for being drunk.

### TWO SAFE.

Buffalo, N. Y., Sept. 23.—At the office of the Seaman's Union here it was said to-day that two of the crew of the steamer Alex. Nimnick, lost off Whitefish Point, were shipped here. They were Henry Holman, of Chicago, and a salt water sailor, name unknown. Charles Gray, of Buffalo, was engineer, and Jas. Hurley, of Buffalo, was assistant engineer. Last night a message was received from Hurley saying, "I am safe from Nimnick wreck. Engineer Gray with me."

The Don paper mills were sold at auction for \$20,000, presumably to Mr. Robt. Davies. Color blindness is more prevalent among men than women.

## HOME MADE REMEDY

ESPECIALLY VALUED BY THE ELDERLY PEOPLE WHO SUFFER.

A large health publication tells its readers of a number of simple and safe prescriptions that can be made at home. The following, however, for the cure of rheumatism and kidney and bladder troubles receives the greatest praise, viz., Fluid Extract Dandelion, one-half ounce; Compound Kagon, one ounce; Compound Syrup Caraparra, three ounces. These simple, harmless ingredients can be obtained at any good prescription pharmacy at little cost and are mixed by shaking well in a bottle.

The dose for adults is a teaspoonful after each meal and at bedtime, drinking a full tumblerful of water after each dose. It is further stated that this prescription is a positive remedy for kidney trouble and lame back, weak bladder and urinary difficulties, especially of the elderly people, and one of the best things to be used in rheumatic affections, relieving the aches and pains and reducing swellings in just a short while.

A well-known local druggist states that this mixture acts directly upon the eliminative tissues of the kidneys; cleanses these spongy organs and gives them power to sift and strain the poisonous waste matter and uric acid from the blood which is the cause of rheumatism.

Cut this out and hand to some sufferer, which would certainly be an act of humanity.

## DON'T BELIEVE THE BECK STORY.

FLIMSY ARGUMENT OF A LONDON PAPER TO DISPROVE IT.

City Officials Are Disgusted With Hydro-Power Scheme, and Would Like to See Something Done.

The Hamilton Times repeats the story that Hon. Adam Beck, of this city, is likely to leave London to take up his residence in Hamilton, and intimates that he will be a Conservative candidate in West Hamilton at the next Provincial election, says the London Free Press, and adds:

The Times is a Liberal newspaper, and unlikely to be in the confidence of the Conservative party. It claims, notwithstanding to have heard the news from an important source.

Hon. Mr. Beck is in the city, but was engaged when a reporter called upon him in regard to the matter. At the Borden meeting he, however, made references to the city of London which give no color to the statements made by the Times. He spoke most enthusiastically of London, and was proud of his citizenship, he said. Ever since the hydro-electric power scheme was introduced the municipal cabinet over the hydro-electric power commission programme. At the Borden meeting Mr. Beck also appeared to give the lie to this assertion, as he indicated that most satisfactory progress was being made in the direction of the giving of cheap power to the people.

It is rather significant that on the day the Times published the story, Mr. K. McNaught, M. P., one of the hydro-electric commissioners, in an interview admitted that there was much trouble over the power contract. Mr. Beck himself when in Hamilton early this month told city officials that the contract was to be signed "at once."

The report from Hamilton states that there are differences in the Provincial cabinet over the hydro-electric power commission programme. At the Borden meeting Mr. Beck also appeared to give the lie to this assertion, as he indicated that most satisfactory progress was being made in the direction of the giving of cheap power to the people.

Mr. Beck making his home in Hamilton, there is no doubt that his intention. Whether he will give up politics is a matter of conjecture. Politicians who read between the lines say he will not.

## DUNDAS NEWS.

Death of Mrs. Reid—W. Donkin Goes to Brantford.

Dundas, Sept. 23.—Mrs. James Reid died at an early hour on Saturday morning, aged 77 years. Her husband, who survives her, was a generation or so ago, one of the best known butchers and cattle buyers in this section. They had lived in Dundas for a good many years, where he carried on a meat business until old age compelled him to retire. The funeral took place to-day.

Rev. T. J. Mansell yesterday preached at the harvest home services in the morning at Rock View. The Methodist pulpit here was occupied in the morning by Rev. Chas. Cavers.

Miss Maus, of Paris, one of the recently appointed teachers on the Public school staff, has resigned, and a special meeting of the Board of Education will be held to-night to deal with the matter, and, perhaps, to do general business.

Misses Hattie and Alice Quackenbush are visiting in Niagara Falls and St. Catharines.

The Melbourne Hotel is likely to change hands again, owing to the ill health of the present proprietor, Edward Nichol. His successor is likely to be Wm. Mahoney of Hamilton, a brother of Andrew Mahoney, of the Freelon Hotel.

Walter Donkin left to-day for Brantford.

## ROBERT FULTON.

His Day Commemorated at the Jamestown Exposition.

Norfolk, Va., Sept. 23.—Elaborate and beautiful ceremonies marked to-day's observance of "Robert Fulton day" at the Jamestown exposition. Of the many historical events commemorated by the tercentennial none has been of greater importance and deeper significance than the celebration of the practical application of Robert Fulton's inventions to the needs of the world.

While the exercises to-day were under the direction of the exposition officials added prominence was given them by the participation of the Robert Fulton monument association, many members of which arrived here yesterday. The orator of the day was Martin W. Littleton, of Brooklyn, N. Y. The exercises which were held in the auditorium, were interspersed with music by the consolidated exposition bands. R. Fulton Cutting, of N. Y., was chairman of the celebration committee.

A spectacular feature of the celebration was a typical representation of what the inventions of Robert Fulton meant to the world. It was the assembling in Hampton Roads, just off the exposition grounds of every sort of craft propelled by steam. The vessels, of all sizes and description, all ablaze with flags and bunting formed a marine parade which was reviewed by the guests from the decks of the visiting yachts. The day's programme included the award of the cups presented by President Roosevelt, King Edward and Sir Thomas Lipton for the winners in the various classes of yacht races.

Louis Malecot, the aeronaut, made an ascent at Paris with a machine heavier than air.

Mrs. Rhoda M. Hall of Toronto, who had for years taken an active part in the charitable work of Cooke's Presbyterian Church, died on Friday morning in Philadelphia, at the home of her brother-in-law, Rev. William Patterson, D. D., pastor of "Wanamaker's Church," in that city, and formerly of Cooke's Church, Toronto.

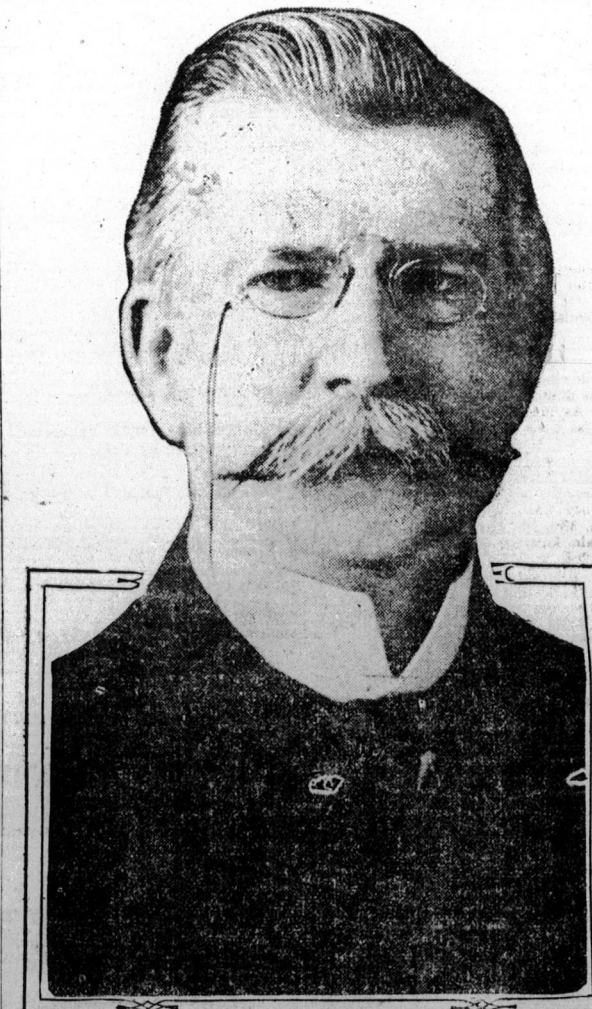

### CAYUGA FAIR.

Cayuga Fair will be held at Cayuga on Wednesday next, September 25. A special excursion train over the G. T. R. will leave Hamilton, from the King street station, at 9:45 a.m., for Cayuga, stopping at all intermediate stations, and returning after the concert at night. The 91st Band will be in attendance. Single fare for the round trip.

### KILLED THREE.

Orville A. O. Sept. 23.—The boiler of a locomotive pulling a westbound Pennsylvania freight train, while running 20 miles an hour, blew up at Burton City yesterday.

Conductor Rockhill, brakeman Crum and Engineer Rife were killed and Fireman Frank Rife was probably fatally hurt.

### HAMILTON CREW WON.

Defeated St. Catharines and Toronto Crews on Saturday.

A crew of the Hamilton Rowing Club which was made up after the club's fall regatta at the Beach and had trained together only a couple of weeks, went to St. Catharines on Saturday and carried off honors and gold medals. The crew was composed of Messrs. Coulson, Sloan, Townsend and Mahoney. It met, in working boat, the St. Catharines crew which won at the Canadian Henley, and the representative Bankers' crew of the Don Rowing Club, Toronto, which recently won the Hammond shield. The Hamilton crew rowed well and won the race. It was a popular victory.

The local crew and members of the club were heartily congratulated, too, especially by the former Hamiltonian, Capt. Malcolmson.

### EGYPT'S GREEN SUN.

Peculiar Phenomena Commented Upon by Ancient Nile Dwellers.

The appearance of green light at sunset, like many other phenomena supposed to have only recently attracted scientific attention, was noticed and commented upon by the ancient Egyptians, and more particularly so because in the clean air of Egypt the tints of sunset are peculiarly distinct.

As the sun there descends near the horizon and is immensely large and flaming, it becomes, for an instant, a brilliantly green color, and immediately a series of green rays suffuses the sky in many directions, well-nigh to the zenith. The same phenomenon appears at sunrise, but to a smaller extent. Sometimes, just as the last part of the sun's disk vanishes, its color changes from green to blue, and also after it has disappeared the sky near the horizon often is green, while toward the zenith it is blue.

This was alluded to in Egyptian writings. Day was the problem of life and night that of death, and the nocturnal sun, being identified with Osiris, thus rendered Osiris king of the dead. The setting sun was green; therefore, Osiris, as the nocturnal deity of the dead, was painted green. The splendid coffins of the high priests of Ammon frequently depict the green sun and the funeral deities are all colored green.

There are innumerable instances in the Egyptian relics of representations relative to death being colored green. The practice undoubtedly arose from the green tints of sunrise and sunset. The green sun disk is referred to 5,000 years ago, in Egypt. This is the earliest known human record of an astronomical phenomenon.

The convocation held at Trinity University, Toronto, on Saturday afternoon for the purpose of honoring Right Rev. Charles Scadding, Lord Bishop of Oregon, took on a deeper significance by reason of the hearty welcome extended to Rev. Dr. Falconer, principal of the University of Toronto, by Archbishop Swatman, Primate of All Canada, on behalf of the Anglican community and warmly endorsed by the representatives of the corporation of Trinity College.
