

THE TROUBLE IN MOROCCO

Causing Uneasiness in France and Among Other Powers.

Danger of Uprising in Spain—May Kill Ambassador.

Moors Reinforced and 10,000 Rifles Entrenched at Zeluan.

Paris, Oct. 5.—The preparations for the extension of Spain's operations in Morocco, involving the sending of heavy reinforcements, are creating increasing uneasiness in Paris. The Petit Parisien, a journal owned by Minister of Commerce Dupuy, in which what is believed to be an inspired article to-day says that Spain's programme seems to go beyond the object originally communicated to the powers. It provokes apprehension in Europe, especially in London and Paris. The colonial authorities of Algeria have notified Paris of the existence of fanatical excitement in the interior and speak of danger along the Algerian frontier.

In conclusion the paper intimates that the reports from the interior of Spain indicate that there is grave danger of serious trouble at home as soon as the country is denuded of troops.

The Spanish embassy here is under heavy guard night and day as it is feared that the Barcelona revolutionaries are plotting the assassination of the Marquis del Muni, the Spanish Ambassador, as a means of forcing the government to abandon its repressive measures in Catalonia.

MOORS REINFORCED.

Madrid, Oct. 5.—The Imparcial to-day confirms the report that the Moors south of Zeluan have received numerous reinforcements from the Beni Burriague and Azza tribes. Rifles to the number of 10,000 are now entrenching themselves on the heights surrounding Zeluan.

NO COURT.

Cases Either Not Ready or Pending Settlement.

Seven actions were to have been tried before Judge Monck at the County Court sitting this morning, but the court lasted only about half an hour, as the cases were not ready and had to be laid over pending settlement or preparation. The cases were of an unimportant nature. An adjournment was made until Friday, October 22nd.

TO HONOR THEM.

Honorary Degree of LL. D. to be Conferred by Queens.

Kingston, Ont., Oct. 5.—The Senate of Queen's University has decided to confer the honorary degree of LL. D. on the following at the fall convocation to-morrow night: Hon. D. C. Fraser, Lieutenant-Governor of Nova Scotia; Rev. Charles Gordon, Ralph Connor, of Winnipeg, and James H. Coyne, M. A., St. Thomas, a graduate of Toronto University, and a member of the senate of that university.

DOMINION STEEL.

President Ross May Sell Out—Sudden Jump in Steel.

Montreal, Oct. 5.—To-day the report in connection with the Dominion Steel & Coal affair is that President Jas. Ross, of the Coal Company, shows a disposition to accede to the wishes of certain steel interests to sell out. That an offer was made to Mr. Ross by an independent circle of steel people in Toronto is now beyond any question. Mr. Ross was known to be averse to selling out his large interest, unless all the shareholders received the same treatment, but it is now stated he is ready to revise his views on this point. The sudden jump in the price of Dominion Coal shares in the stock market to-day to 93 1/2 from 88 1/2 at the close of yesterday lends color to the statement that Mr. Ross may sell out.

LIGHT WENT OUT.

Fast Freight Wrecked Engine and Cars at London.

(Special Despatch to the Times.) London, Oct. 5.—Because the fall put out his lantern when he jumped from the westbound Sarnia freight train in the G. T. R. yards early this morning, Switchman Gouck was unable to signal the fast eastbound Sarnia freight to stop and it tore into the train wrecking the engine and many cars, and tearing up the main line. The loss to the rolling stock will be heavy. No one was injured. An investigation is being held.

TRAFALGAR DAY.

His Honor the Lieutenant-Governor has consented to preside at a great patriotic demonstration on Trafalgar Day, Oct. 21, in Massey Hall, Toronto. Besides the Trafalgar commemoration, the inaugural ceremony of the presentation of Lord Strathcona's Nelson shields for universities, colleges and schools will be held. The Festival Chorus of 30 voices, under Dr. Torrington, will render patriotic music.

IN HARD LUCK.

The Loss of a Leg Follows Many Other Hardships.

Dame Fortune has been frowning with undue severity lately on Harry Hamar, who lives at Gage's Inlet. Yesterday, while working at the steel plant, he in some manner got his leg caught in the machinery of a large 20-ton crane, and it so severely crunched the limb that it was almost completely cut in two. It is said that he drew his knife from his pocket and severed the leg completely off at the joint.

Dr. Parry was at once sent for, also the ambulance, and the poor fellow was taken to the City Hospital, where he was put on the operating table. On the way to the hospital he exclaimed to the constable in charge of the ambulance: "Hurry up boys, I can't stand it much longer." He was then feeling faint from loss of blood.

It is only a few weeks since Hamar left the hospital, after being treated for injuries to both legs. Last summer one of his children were drowned in the inlet and two more died of sickness.

BERNIER TALKS.

Speaks of Cook and Peary—Etab Farthest North Reached.

(Special Despatch to the Times.) Quebec, Oct. 5.—Captain Bernier and the Arctic arrived here to-day. They were given a big reception. Bernier said he received a letter from Dr. Cook in September, written in May last, in which Cook told all about reaching the pole, and making serious charges against Peary for taking his provisions. Bernier announced that the farthest point reached was Etab. Members of his crew explored the northwest passage, and found Peary's records.

THE SUCCESS.

Of the Gourlay piano is without a parallel in the history of Canadian piano-building. This success is due alone to its wonderful tone-charm and absolute reliability. True merit is bound to win.

HARRY WHITNEY

Believes Cook and Peary Were Both at the North Pole.

Cook's Records Will First Go to Copenhagen.

New Haven, Conn., Oct. 5.—Harry Whitney, the big game hunter, arrived here to-day from Boston, but refused to discuss in any manner the North Pole controversy. He went to the home of his parents here, where he will remain until to-morrow, when he will go to New York to obtain from the hold of Commander Peary's ship, the Roosevelt, the skins and other trophies of his quest for the Pole.

Mr. Whitney said he was tired out from worry, induced mostly by repelling would-be interviewers. Regarding the Cook-Peary controversy, he said that he believed each had found the Pole, and would continue to believe so until the claim of one or the other, or both, was disproved.

Upon arrival here he went to the home of his mother, in Whitney avenue, to greet his relatives, who had not seen him since July 5, 1905, when he left to join the Peary expedition. Mrs. William Blodgett, of Peekskill, N. Y., his sister, and Steven Whitney, jun., his brother, met Mr. Whitney.

As to his future plans, Mr. Whitney says that after a month's stay at home he will go south for the winter, and next year will shoot big game in Africa.

There was a lengthy discussion in regard to the Jennings award for the dredging of the canal, after which Reeve Lawson moved, seconded by Councillor Pennington, that the matter be referred to the Ontario Railway and Municipal Board, in order to compel the H. & D. Railway Company to carry out the terms of the award.

L. P. Spittal, on behalf of the Property Committee, reported that the park fence had been completed at a cost of \$181.80; judge's stand, \$49; pavilion, \$337.65. The report was received.

Reeve Lawson, on behalf of the Board of Works, recommended, 1. That the town bridges be repaired and retaining walls pointed and that the committee be instructed to procure enough lumber to put them in good repair; 2. That the Creighton road be strengthened with the necessary steel, and the wood deck be replaced with reinforced concrete; 3. That the offer of Joseph H. Bowman for the sale of the strip of land on the east end of his property on King street be accepted at a cost of \$600, he to remove all lumber and properly fence same, and other terms as per his offer; 4. That in reference to the purchase of land from W. Cowper & Co., no action be taken; 5. That the stone drain at the intersection of Main and King streets be rebuilt with concrete. The report was adopted.

NOT GUILTY.

The Plea of Mrs. Scott in Thordale Tragedy.

Justifiable Self Defence and Temporary Insanity.

London, Oct. 5.—Mrs. Wesley Scott appeared before Justice Latchford in court this morning, on a charge of shooting her father-in-law at Thordale. Mrs. Scott was represented by Edmund Meredith, K. C., and appeared very calm in the witness box. She looks much better than at any time since her incarceration, and does not seem to be worrying as she did at first. When asked to plead she replied in a firm voice, "Not guilty." Her counsel has asked that the case be laid over until Monday morning, because he wished to ask for a postponement. This was agreed to. There are eight witnesses to be heard, although the defence may call many more to testify to the corroborating character of the late Harvey Scott. It is understood that the plea will be justifiable self-defence, in accordance with the verdict brought in by the jury at the inquest, and the defence may also plead temporary insanity.

SPY MANIA IN FRANCE.

Popular Feeling Almost Equals That of English War Scare. France is mightily concerned just at the frontier and learning all her important military secrets. Report has it that valuable documents and drawings have been stolen and that even the model of a new rifle has been carried away. The German press for the moment ceases its ridicule of England's naval fears and is unanimous in declaring that France is "suffering from a bad attack of spy mania. No mania or no mania, however, the fact remains that the French secret police have recently arrested six persons implicated in espionage. One of these is a soldier named Taffin, employed by the engineer officers at Nancy in copying plans for frontier forts. Two others are young women of the demimonde class, and three are youths of Austrian, Belgian and Swiss nationality.
