Antwerp quoted wheat 50c to 1fr 50c lower; red winter being equal to 53c ed per 480 lbs. German markets partook of the weakness prevalent elsewhere. At Berlia, indeed, wheat, sithough very quiet and undecided in tone, showed so material decline, in spite of the deprediation abroad; "term" wheat, in fact, closed rather higher en the week. At Hamburg, on the other hand, a marked decline occurred in wheat, and rye also closed lower on the week. Whast on the spot had lest all the arcitement of the previous week, but supplies were small. Saale barley was firm, and in good demand, up to 54s to 58s per 448 lbs fl.o.b. for extra selected choice. In Austro-Hungary, weefind Visuna markets quieter for wheat on the 25th uit, buyers being reserved. At Pesth a smarked decline had takes place in wheat, huyers being reserved. Land—Seems rather firmer, but prices are unchanged at 8½ for tierces; at 9c for tinnets, and 9½ for pails in small lots; with no movement reported in trade lots and none of them offering, as stocks are small.

Hoss—There has been nothing doing in rail lots, as none have been offered. Street receipts have been very small, but apparently sufficient; prices to-day stood at \$5.50 to \$6. 1878. DRIED APPLES—Country lots of new have sold at \$2 to 5c, which prices would probably be repeated today. Small lots sell at \$5 to \$2c, but cannot be said to have been very active.

HOPS—There have been saics of choice new at 27 to 30c, and of yearlings at from \$ to 15c, according to quality, the latter for exceptionally fine only. Offerings are on the increase, and buyers have begun to hold off, so it is not safe to rely on these prices being repeated.

sales of lots of 50 bags at \$4.50 and of small lots at from \$4.62 to \$4.75.

First—Has been quiet. Whitefish and trout have not arrived yet, but some small sales of lots to arrive have been made at \$3 for trout and \$3.25 for whitefish. Herrings are very firm, with Labradors held higher. Ood has been selling fairly well at former prices. TRADE—Has been quiet and prices firmer.

BENVES—Receipts have fallen off; supplies of all sorts have been insufficient, and all offering readily taken. First-class have been wanted te a small extent to complete shipping lots; and good steers, dressing not less than 1,300 lbs. would have sold readily at \$4.25 te \$4.50. Second-class have been wanted for the local market, light steers and heavy oxen and bulls have advanced 15 per cental, and sold at \$3.75 to \$4. Third-class have been in improved demand in consequence of an enquiry for "feeders;" all of these offering have sold readily at an advance, the range being from \$3 to \$3.50, with more wanted; pediary lots have usually sold about the former price, that is when they were to be had at all.

the former price, that is when they were to be had at all.

SHEEF—The number wanted has continued to be small, but those offered have been so very few that they have all found a sale and at an advance. Really first-class wethers, dressing not under 70 lbs., have been wanted at from \$5 to \$5.69. Second-class have not been much in demand, but in default of better would have been taken at \$4 to \$4.75.

LAMBS—The consumption has continued to be checked by the influx of poultry; but receipts have fallen off to a much greater extent than the demand, and the result has been that all offering have been readily taken at a slight advance, part of which is probably due to the high prices paid for skins. Choice picked lambs, dressing from 50 to 55 lbs, have been bringing \$4.12 to \$4.25; and lots of first-class, dressing from 40 to 48 lbs, from \$3.50 to \$3.37, and third-class, consisting chiefly taken at \$3 to \$3.37, and third-class, consisting chiefly of culls, have sold at \$2.75 to \$3, with a very slack demand.

culls, have soid at \$2.70 to \$3, when a very since demand.

Calves—Have been very dull; the only sort wanted has been good first-class, and of these scarcely any have been offered; any of them dressing not less than 120 lbs would still sell at 6 to 7c per lb., or from \$7 to \$9 each. But second-class, dressing from 75 to 110 lbs, have been slow of sale and weak at \$4 to \$5 each. Third-class have not been wanted at any price, and may be set down as unsalable.

Money has been made more rapidly within the last few months in Wall street than at any period since 1873. Immense profite have been realized from small investments. The following affidavit explains itself:

Himms—Prices of green have recovered the fall of 50c of last week, and No. 1 again; stand at \$0.50, with all offering wanted. Cared, however, have sold during the week at \$\frac{1}{2}c,\text{ but are now held higher.} GALPSEME.—There have been scarcely any selling, and prices remain unaitered.

HERMSPHINS.—Prices have advanced to 15c during the week; the best green are now selling at \$1.20 to \$1.25; but these prices are thought to be yout of proportion to those of wool, so they may not prove steady. Offerings have been small.

WOOL—A steady enquiry has been maintained, and all offering, which is not very much, readily
