Stormy Weather Hard on Baby

The stormy, blustery weather which we have during February and March is extremely hard on children conditions make it necessary for the mother to keep them in the house. They are often confined to overheated, badly ventilated rooms and catch colds which rack their whole system.

To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given to the baby to keep his stomach and bowels working regularly. This will not fail to break up colds and keep the health of the baby in good condition till the brighter days come along. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont. (Adv)

Almost Helpless From Rheumatism

Only Able to Move About on Crutches—Dr. Williams' Pink Pills Restored Activity

Inflammatory rheumatism acute rheumatism and rheumatic fever are different names for practically the same thing. It comes on with hardly any warning. The pain is excruciating, and there is a tendency of the disease to attack the heart when it may have fatal results.

Any one who has suffered from an attack of inflammatory rheumatism knows that the usual treatment is highly unsatisfactory. External applications of hot cloths and liniments and internal doses of salicylates to relieve the pain are not enough, for they do not drive the poison from the blood, and the sufferer is liable to renewed attacks whenever exposed to cold or dampness.

To cure rheumatism so that it will stay cured the rheumatic poison in the blood must be driven out, and blood made rich and red. When the blood is pure there can be no rheumatism. Dr. Williams' Pink Pills build up the blood, make it rich, red and pure and in this way cure the most obstinate cases of rheumatism.

Mr. George Herbottle, R R No. 1, Faversham, Ont., is one whose cure through the use of Dr. Williams' Pink Pills is most striking. His mother gives the particulars of his attack and cure as follows:—Some years ago while my son was working as a blacksmith in a Michigan lumber camp he was attacked with rheumatic fever. He was at once taken to a hospital at Marinette and was there under medical treatment for four months with but little or no relief. He then decided to go to Mount Clemens, where he took the baths for three weeks, but did not find any benefit from them. By this time he felt that his case was hopeless and decided to return home.

When he reached home he could only move about by the use of a crutch and a cane. One knee was so stiff that he could not bend it and most of his joints were swollen out of shape. He could neither dress nor undress himself and had to be helped like a child. I urged him to try Dr. Williams' Pink Pills and finally he consented to do so. He had only been taking the pills a few weeks when he could limp about, without the crutch, and his appetite greatly improved. This gave him new courage and he continued the use of the pills. He showed constant improvement, and was able to walk about outside. He continued to use the pills for some four months, by which time every symptom of the trouble had disappeared, and he went to his work in Michigan a cured man.

His case was well known to the neighbors around here and his cure was looked upon as marvelous, for everyone thought that at the best he was doomed to be a rheumatic cripple.

It is because they have made such wonderful cures as Mr. Herbottle's that Dr. Williams' Pink Pills have a world wide reputation, and are the only medicine used in thousands and thousands of homes. You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont. (Adv)

Letters From Soldiers

Hovey, who has been wounded, and the following letter has been received by Mrs Herman Hovey of Ludlow from her son, Pte Trevinon A is now convalescing in England:

Basingstoke Jan 12th 1918

Dear Mother, Received your letter and was glad to hear from you, and to hear that you were all well. I am getting on fine, but am still in Hospital, but will soon be out now.

I was glad to hear they got conscription to see some of the cold footed fellows come over. Are they taking married men, too?

I had a letter from Maude Arbeau She said she was cooking in the woods.

What is papa doing this winter? I suppose Norman is working out now.

Well, ma'ma, I am sorry to say that I can't get home yet for a while but I think I have good-luck, I will be home in another year and six months I think the war will be over then.

I never got any of the boxes that you sent me to France. I like this Hospital very well. I will close hoping this letter finds you all well.

From your loving son,
T. A Hovey

Following is the extract from a letter received by Mrs Duncan Munn from her husband, Driver Duncan Munn:

Witley Camp, England, Jan. 20

Just a line to let you know I have just returned from my trip to Scotland, which I enjoyed very much. I did see some wonderful sights. The people were very kind to me and gave us our Xmas dinner free. They seemed as though they couldn't do enough for us.

I have met Otto Betts and Pete and James Arbeau and Willie Russell since coming here. They are just a few huts from me. They are all looking fine. I expect we will soon be crossing the channel, as the casualties in artillery have been pretty heavy and we will have to reinforce them, I suppose. But, of course, that is what we came over here for, and we may just as well go now and get it over with. Tell mother I'll write to her soon. Give my regards to all my friends. The tobacco here is not like the tobacco we used to get in old Canada. We are going to riding school, learning to be rough riders. Believe me, we are having the time of our lives here. I like the place fine out here. I have not met Fred Rushton or David Ward yet. I am sending you a souvenir from England. Hope you will like it. Write soon as a letter from home is like sunshine after a week of cloudy weather.

Love to all
Yours very sincerely
Duncan
