WHO LOOKS AFTER THE SQUARE

Newcastle has a nice little park of which the citizens could be proud, if it was properly looked after. At the present time papers and other kind of rubbish is allowed to accumulate along the walks and everywhere else. The fountain leaks and is seldom kept clean. One of the ornamental cannons has been lying on the grass for a month at least and no attempt has been made to put it back in its place. Some one is the caretaker and some one else is his boss; both are guilty of carelessness as a few hours work now and then would make the park appear decent and worthy of the town.

HOW TO MAKE THE

SPOTLESS TOWN

We read in many of our exchanges, agitations by the editors for the various towns to clean up the streets. In this respect Alvinston leads many of the surrounding towns, as every Friday morning (weather permitting) the merchants get out on the street and sweep into piles all refuse which may have collected during the week, this being then hauled away. This makes a very presentable looking street and should be an example to other towns.—Alvinston Free Press.

the region of Villars les Roye. In the Champagne the French took prisoners and also checked a German raid. The Canadians captured the village of Parvillers in a smart operation. A number of machine guns and prisoners were taken.

American airmen bombed the German railroad yard at Dommary and Baroncourt near Metz.

Battling against Germans, Austrians and Bolsheviks, small allied armies are protecting Russia, valiantly seeking the people from oppression of the common enemy. British forces have reached Baku, the center of southern Russia's oil fields.

American regulars have reinforced Allied troops in Vladivostok.

Saturday

Saturday—French troops are within a mile of both Roye and Lassigny. Camp De Cesar a mile west of Roye has been captured while the Median trench and Pleris-de-Roye less than a mile southwest of Lassigny has been occupied. A number of prisoners and a great quantity of material taken. British troops have gained further ground in the neighborhood of Vieux Berquin at the apex of the Lys salient.

In Picardy British troops have made additional progress. The British lines have been pushed eastward north of the Amiens-Roye road and north of the Ancre.

Soviet forces have surrounded Kazan held by the Czech-Slovaks and bombarding it. Another Soviet army advancing toward Olegawhere a new Allied expedition has landed in Northern Russia has occupied Kirillovka.

Sunday

Sunday—Between the Oise and the Aisne French troops attacked Sunday night over a front of fifteen kilometres between Carlepoint and Fontenoy. They advanced an average distance of two kilometres over the whole front.

The work will be started as soon as plans are received from the Educational authorities.

Beaverbrook, though small at present has great possibilities. There is a road from the station to Ferryroad on the Miramichi, about nine miles, which a little repairs would put in good shape. Along this road, which runs back of Douglastown lots are good sites for many farms. The road to Newcastle could also be easily be made good, opening up more land for settlement. One Douglastown man has already applied for a homestead at Beaverbrook and hopes to be the pioneer of a numerous colony.

The local government's surveyors have recently examined the district. The strip of good farming land is said to run clear through to Maple Glen and Whittemyville.

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets, or a few hours they may be beyond aid. These Tablets will prevent summer complaints if given occasionally to the well child and will promptly cure those troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee of a government analyst that they are absolutely safe.
