**STONY PLAIN SPORTS.**  
 Fine Weather, Big Crowd and Keen Contest.  
 (From Saturday's Daily.)  
 A thousand people in attendance at the annual sports, which were held at the picnic grounds. A special train was run from Edmonton and about 200 from this city and other points on the line attended. The town was on feet and banners of welcome, flags and bunting decorated the streets. Altogether it was a gala day for the residents and visitors.

The sports started at one o'clock and the committee and officials in charge deserve great credit for the very efficient manner in which the events were conducted from start to finish.

**Baseball Tournament.**  
 The baseball tournament was the opening event, three teams being entered: St. Albert, Stony Plain and Spruce Grove. St. Albert and Spruce Grove clashed first, St. Albert winning the game in hollow fashion by a score of 10 to 3. The second and final game, between Stony Plain and St. Albert, was a much classier exhibition. Both teams battled well and fought in professional style. A feature of the game was a triple play by St. Albert. Up to the fifth the score was a tie, two all, but at that stage St. Albert scored the winning run, making the final score 2 to 2. The teams were as follows:  
 St. Albert—J. Doolan 1b, J. Madden

o. Burridge 2b, Perault rf, Taylor ss, Fenquette cf, Courtney p, L'Hiron-delle lf.

**Competition Prow-wow.**  
 The feature of the day was the competition pro-wow, a dance between the Indians of the Stony Plain reserve and those of the Wabamun reserve. Thirty braves, squaws and papooses from each reserve, dandied with paint, decked with feathers, and clothed in their brightest apparel, danced solemnly around a totem pole for three-quarters of an hour, accompanied by weird music and guttural groans. They then marched up to the judges' stand and received a money prize of one hundred dollars, Stony Plain Indians getting the lion's share on account of their superior appearance.

The St. Albert band was in attendance and played excellently. The day ended with a football match between Stony Plain and Fine Ridge, Stony Plain winning the game by a score of 3 to 1. Despite the heavy condition of the field, a fast game was the result, the Stony Plain forwards being especially aggressive and it was only the stellar work of Davidson, in goal, which prevented a much larger score. The teams lined up as follows:  
 Stony Plain—Goal, L. Pugh; backs, J. Miller and A. Hembling; half-backs, C. Condon, E. Ward and T. Miller; forwards, Otway, Tweedie, Russell, A. Miller and J. Pugh.  
 Fine Ridge—Goal, F. Ferguson; backs, Sherman and W. Ferguson; half-backs, Barnhart, R. Sherman and C. Ferguson; forwards, Gauntly, A. Priestly, Marson, N. Priestly and K. Ferguson.

**ONE YEAR OF HOG RAISING.**  
 V. K. Sorenson, of Markerville, Alta., contributes an interesting article to the "One Year of Hog Raising in Alberta."

It is as follows:  
 I went into my hog business eight acres of land bordering upon the Medicine River. The slope towards the river is covered with brush, and the rest of the land is partly in native grass and partly in corn. I have a feed room with tanks for storing water and buttermilk. The feed room is surrounded on three sides by feeding yards fenced in and they are arranged so that hogs of nearly the same size are fed together. Outside of the regular feed yards I have other buildings used principally for brood sows whenever I find it advisable to separate them from the rest, while those as well as the regular stock are available for quarters, the sows seem to prefer farrowing in the bushes in summer.

My bunch of hogs is of the Yorkshire breed, bred from registered stock and consisted in February, 1909, of 11 boars, 13 sows and 27 young hogs for fattening. In the year the pigs averaged 100 lbs. live weight, totaling 133 pigs of splendid vitality fattened as follows: 8 litters in March, 5 in May and 4 in August. 1 litter of 10 half-grown hogs was sent away at Calgary. Deceased, who was widely known, has been suffering for some time and had just arranged to go to the coast for his health.

Mayor S. J. Curry has returned from his trip to British Columbia, and presided at the council meeting where \$10,000 was voted for the purchase of the site of a by-law appointing L. C. Harry as secretary-treasurer.

The sender of the news to your bulletin, Mr. Sorenson, says he had not stated that Miss G. West, greatly interested in the hog business, had been around the town all right and in good health.

A novelty in a travelling cart purveying meat, etc., around the town and adjacent districts has been in vogue the last week.

The Dominion day celebration here has been the small pig feeding contest, which with the Scotch pipers, the infantry band, military drills, baseball, football and fireworks in the evening. ### SIBERIA AS CANADA'S GREATEST COMPETITOR

Rev. David Arnott in Address in the Decades Russian Province Has Expansive Stretches of Fertile Prairie Like Western Canada.

"You people in Canada will need to look out when the province of Siberia wakes up," said the Rev. David Arnott in a lecture delivered in the First Presbyterian Church Wednesday evening, in which he gave account of his recent journey across the plains of his recent journey across the plains of Siberia to Manchuria, and the work of the Presbyterian missions in that country.

"Most of us," he said, "have been accustomed to think of Siberia as a great waste wilderness for exiles. That was our impression once of the Northwest, but it has changed. We will need also to change our impression regarding Siberia.

"Day after day on that journey I travelled across rich prairie land similar to that of the Canadian West, lying ready for the plow. The climate is similar to that of Western Canada, and I believe the country has a future of like greatness.

"Manchuria is another Alberta, vast in extent and rich in undeveloped resources. It is one of the thirteen provinces of China, but lies outside the great wall, and is named by them 'East of the Barrier.'

"It was from Manchuria that, in the seventeenth century, the conquerors of the Manchus, swept down upon the decadent Chinese empire. For the last three hundred years the Manchus have reigned over China from the south of the great wall, and the small feet of the female, are the signs of bondage imposed upon them by this race.

"Today, however, the Manchus are practically played out. The Chinese have absorbed their conquerors. The question which is agitating the mind of Europe is, 'How long will the Manchu dynasty be able to stand?'

"Today there has set in upon the rich land of Manchuria a strong tide of immigration from the overcrowded provinces of southern China.

"Most Progressive Province.

"You know that that must mean for the history of that province and for the character of its people. Those who have had the courage to shake themselves free from the traditions and habits of thought prevailing in the south, Manchuria is therefore probably the most progressive and liberal-minded part of China.

"The Morning Post says no doubt exists that the bill will pass substantially in its present form, and it is desirable that its passage should be marked by as little wrangling as possible.

The Times anticipates more extensive opposition on the second reading, but it is surrounded on all sides by other safeguards, the declaration must surely be felt to afford every security the formula can give.

**INNISFAIL.**

**THEY ARE STILL CONFERRING.**  
 G.P.R. and Men Expect to Reach Working Agreement.  
 Montreal, July 1.—Another conference was held this morning between the leaders of the Tradesmen and Conductors and the officials of the C.P.E., without any definite result being arrived at. Although the leaders on both sides exhibited considerable reluctance, they seemed to hope for a friendly settlement, this being well satisfied with the progress of affairs and a general impression was apparent that within a few days a working agreement might be arrived at which would end the present tension.

For the men the broad issues have been dropped and the discussion is being waged along the line of working conditions which are closely related to them. It was intimated this evening by members of the men's committee that if the rest will be easily settled.

All that the leaders would say was that the discussion was going on in a most friendly manner, and would be continued for several days while the men hoped for a friendly settlement, this, however, depending very largely upon the attitude adopted by the company as the heatiness of the air in some way affected the explosive.

### ASQUITH HAS MADE HIT.

British Papers Unanimous in Commendation of His Declaration Bill.

London, July 1.—Commenting on Asquith's measure dealing with the King's declaration, the Daily Mail says: "Asquith could not have chosen a more favorable moment for the bill. Sensible men of all parties will welcome the new declaration."

The Chronicle says: "The bill seems likely to be so far non-controversial in that the opposition, as such, will be against it. The government's policy is logical and meets a real grievance fully, therefore it contains a promise of finality."

The Daily Graphic congratulates the government on its courage in attempting to go to the very heart of the subject. The comparatively small minority voting against the bill gives an inaccurate expression of opinion, but it is to be hoped that the opposition will be concentrated not on the principle of the bill, but on the wording.

The Daily News says: "The new declaration is preferable to the older formula."

The Leader says there is no guarantee in the old form of the declaration with all its offensiveness to Catholics, which is not to be found in the new.

The Daily Telegraph says the proceedings in the Commons can only be regarded as the happy prelude to King George's reign and of emphatic service to the moral unity of the empire.

The Morning Post says no doubt exists that the bill will pass substantially in its present form, and it is desirable that its passage should be marked by as little wrangling as possible.

The Times anticipates more extensive opposition on the second reading, but it is surrounded on all sides by other safeguards, the declaration must surely be felt to afford every security the formula can give.
