In Memoriam.

MRS. MARK CHAPLIN.

The passing of Mrs. Amelia Jane Chaplin whilst on a visit to her daughter, Mrs. Mabel Chetwynd, at Ocean Park, Maine, U.S.A., has inspired genuine sorrow. Mrs. Chaplin was a lady whose influence was uniformly for good. Quietly and unostentatiously she was ever foremost in good works. With large sympathies her generous heart responded to all calls. Nor did she wait these. It was sufficient for her to know that there was need for her to supply it in full measure. Only those whose great privilege it was to know her, can adequately estimate the good she accomplished in church and philanthropic work. A devoted wife and mother, her sympathies extended beyond the family circle. Kindness and benevolence were her most prominent traits. During recent years she was called to pass through deep waters. Her eldest son, one of the most popular and admired of the professional men of the city, Dr. Herbert Chaplin, was called away in early manhood. Then came the war, and the first of the Regiment to answer the summons was her youngest son, Jack. Later the third son, Dr. Hal, Chaplin, found sepulture with Lord Kitchener at the waters of the Scotch Coast. With breaking heart but splendid courage Mrs. Chaplin faced the future, but her health was undermined. For some months it was feared that recovery might not be, but she rallied and so regained her strength as to be able to visit her daughter in the States. Only a few weeks ago her husband left to rejoin her. But it was not long, and her beautiful and truly Christian life is now merged in the larger life beyond. She leaves to mourn their irreparable loss, her husband, one of St. John's most deservedly popular and generous citizens, one son, Mr. Lloyd Chaplin, and four daughters, Mrs. Mabel Chetwynd, Mrs. Driscoll and the Misses Miriam and Kathleen Chaplin. In their great sorrow a host of relatives and friends here. To Mr. Chaplin and his family we voice the sympathy of the thousands whose privilege and joy it was to know and admire the eldest lady. Mrs. Chaplin was a daughter of the late George Bowden. Mrs. H. Y. Mott is a sister and Mr. W. H. Bowden of Little Bay, are brothers, to whom also sympathy is extended.

One Dollar a pair of Ladies' and Gentlemen's Fine Boots and Shoes on Friday, Saturday and Monday at Smallwood's Big Shoe Sale.—aug.16

B. I. S. Outing.

The first B.I.S. outing in several years will be held at Donovan's on Wednesday next, and the affair is expected to surpass any held previously. A special train will leave town at 3 p.m. and return at midnight. During the afternoon, sports for which valuable prizes will be awarded, will be held, including 100 and 20 yards and quarter mile races, football fives and a game of baseball between past and present B.I.S. players. A supper followed by a dance at which the C.C.C. orchestra will furnish the music, will make up an extra good programme. The Sydney baseball players will be amongst the visitors.

INSTANT POSTUM
"There's a Reason"

Through Canadian Eyes.

(By J. R. Smallwood, Halifax Herald.)

FOR ONCE THEY AGREE.

For once, at least, the coal operators and miners of Nova Scotia stand on a subject upon which they can stand with common feeling. These inherently antagonistic forces are as one breath in declaring that Hon. F. B. Carvell's, the fuel commissioner of Canada, statement that there is a shortage of coal in Canada is incorrect and without foundation. Little over a week ago Carvell, making this declaration, imposed an export embargo on coal. The coal operators of Nova Scotia immediately raised a chorus of protestation and the miners joined in with a unanimity which is decidedly unusual. Both declare that there is plenty of coal in Nova Scotia and that, as a result of the embargo, the miners will henceforth have employment for only three and four days a week with the consequent depreciation in pay envelopes. The men are holding protest meetings, and there are ominous mutterings of discontent. Union officials state that there may be a general strike within a very few days. For once, amazing to behold, the operators hardly blame them! Carvell, indeed, seems to have put his foot right into it. A royal commission makes its first sitting on Monday (to-morrow) and all sides of the controversy will give evidence.

RECORD HARVESTER EXCURSIONS.

Record harvester excursions are leaving Nova Scotia for the West this year. One finds nothing to wonder at, either. The pay which they will receive out on the prairies is from \$5.00 to \$8.00 a day, and their passage out by special trains, costs them \$25.00 to Winnipeg. The wheat and other grain crops of Canada are this year well above the average, and from 250,000,000 to 300,000,000 bushels of wheat will be the output. The world cereal output for 1920 will, from all indications and according to reliable estimates, be above the average. In Europe the crops are reported to be very promising, and although it looks at the moment of writing that the world is not to have the enormous stocks of Russian wheat, the crops for the rest of the continent will go a long way toward filling the hole. The American output will be 809,000,000 bushels. That with the Canadian, gives a total of 1,109,000,000 bushels for the North American Continent. With so much wheat it does not appear as if flour will this fall be fetching the fancy prices which the past few years have seen.

CONSERVATISM'S LAST LEGS.

Conservatism seems to be on its last legs in Canada. The Unionist Government at Ottawa is feeling pretty empty around the region of the pit of the stomach, and it will take but slight shaking of their party sloop to send them scurrying to the rails. The truth is, conservatism has been at sea for some time, now, and the trip has not done them any good. Their next tussle with the elements will likely swamp them altogether. On September 21 two bye-elections will be fought—one in Colchester, N.S., and the other in St. John, N.B. For the Federal Government Hon. R. W. Wilmot will contest St. John and Hon. F. B. McCurdy, Colchester. These are the very strongest conservative districts and that is why they were picked. It is not proposed to let them go by acclamation. Both Liberals and Labor-Farmer group will oppose the conservatives, and that there will be hair-tying no one doubts. If the Ottawa Government loses these two seats, it will probably mean a general election. Otherwise the Unionists will likely remain in office until the last moment—1922. The September elections are being looked forward to with great interest.

PROHIBITION IN CANADA.

The result of the referendum in New Brunswick by which overwhelming majorities were recorded against a return to pre-war conditions, and even against the re-establishment of the sale of beer and light wines, may be taken as an indication of the state of public opinion throughout Canada on this important question. Halifax, Aug. 8, 1920.

Keep fish away from other foods if you do not wish them to have a fishy taste.

He hated having his photograph taken, but his wife indirectly, and forced him to undergo the much-dreaded ordeal. When she saw the photograph she cried out in horror, "Oh, George, you have only one button on your coat!" "Thank heavens," replied her husband, "you've noticed it at last. That's why I had the photograph taken."

Got Busy.
A pessimist and an optimist were discussing life from their different viewpoints. "I really believe," said the former, "that I could make a better world myself."
"Sure!" returned the optimist; "that's what we are here for. Now let us get to work and do it."

An Appreciation.

Editor Evening Telegram.

Dear Sir.—One of the chief points of interest to the tourist in St. John's is the Museum. One can find there relics of the earliest history of Newfoundland—such as the skeleton of the Red Indian—as well as more recent signs of Newfoundland's aerial ventures like the wheels cast off by Hawker in his trans-Atlantic flight. The person interested in geology can find stones of many kinds from different parts of the world, while the botanist is delighted with a book filled with specimens of plants growing on the island. A valuable museum like this could be very helpful in school work. Days could be appointed for especially conducted parties at children so that they might be instructed about the exhibits of their own land. For instance, there could be forestry days, when trees might be discussed, specimens shown and the uses of the different kinds of wood explained. This would lead up to paper making when the model of Grand Falls could be exhibited. If specimens of the flora of the island were shown to the school children, they might easily be taught to recognize the flowers and to classify them in a few main families. This study of plants would keep the children from picking uselessly the wild flowers, which add so much to the beauty of the scenery near St. John's.

The historiographer of the Museum, Mr. H. F. Shortis, is busy collecting data and is writing the almost forgotten legends of Newfoundland, which will necessarily be more and more interesting to those who study the history of the island. Mr. Shortis is glad to show and to explain the chief features of the Museum, which deserves many visits from the tourists, as well as from the inhabitants of St. John's.

Yours truly,
CELINDA B. ABBOTT.

Cash's Tobacco Store

IS NOW READY FOR THE TOURIST TRADE.

The man from England or the United States or any other country, when visiting our city, will find his favorite brands of Cigars, Cigarettes, Tobacco and other Smokers' Requisites at our store.

We also carry a full line of Picture Postcards and Books of Views of Newfoundland.

Our Soda Water Fountain is now in full swing. Our Ice Cold Coco Cola and other Syrups are pronounced by all to be the very best in the city.

A good smoke, a cool drink and a visit to our beautiful Bowling Park will linger in your memory for many years.

CASH'S TOBACCO STORE,
117 1/2, COULING ST.

Household Notes.

Never use a punctured jar rubber. New turnip tops are a tempting salad green. Dainty dryness is an essential of a perfect salad. Serve hollow-handled glass spoons with fruity drinks. In canning, each jar should be thoroughly sterilized. In making an egg-nog, beat white separately until frothy. Never allow meat to stand in water even for a minute. Use a discarded thermometer case for baskins and darners. Novel slip covers are of Turkish towelling, calico and linen. To ripen fruits a little green, wrap in paper separately. Gelatinized fish and fowl are delicious food for midsummer. Fanned chicken is delicious served with currant jelly sauce. Keep flour in a dry place and watch for the little brown weevil. A bit of onion or a sprig of mint gives a delicious flavor to hot peas. Fruit preserved with honey keeps better and retains its bright color. To keep fruits, spread out on shelf so that each stands by itself. Mold tuna fish in ring form and fill the center with a vegetable salad. Stockings will be as smooth as though ironed if shaken while damp. Halve cucumbers lengthwise, boil until tender and fill with creamed fish. For canning, peaches and apricots should be prime ripe, yet not too ripe. After washing peaches, put them carefully so as not to take the bloom off. A cupful of broken walnut meats makes a delicious addition to potato salad. Five to ten minutes should be devoted each morning to cleaning the oil stove. Light salads should be dressed at the table by the hostess with French dressing. Always wash the outside of the milk bottle and keep milk in bottle until used. A delicious filling for tea sandwiches is honey mixed with chopped nut meats. Sweeten fresh sliced pineapple with honey rather than sugar. Flavor with vanilla.
