

Candid Chats Concerning Crisco

Crisco is richer than butter which is one-fifth water, salt and curd. Crisco contains none of these elements. As Crisco is 100 per cent. rich, one-fifth or one-fourth less can be used in each recipe. Crisco always is uniform because it is a manufactured fat and quality and purity can be controlled. It keeps sweet and pure indefinitely in the ordinary room temperature. There are many more reasons why you should insist upon Crisco.

ASK YOUR GROCER FOR CRISCO.

DISTRIBUTOR.

No. 10—This is one of a series of twenty ads. which began in this paper on April first under the heading "Candid Chats Concerning Crisco." A different ad. will appear every day for twenty days. If you save them all and send to GERALD S. DOYLE, you will receive a full pound can of Crisco FREE. This offer applies to only one member of any family. If you have missed any of the previous ads, look up the back papers since April 1st.

Germany's Industrial Prince, Hugo Stinnes, is Dead

King and Queen of Rumania Enthusiastically Welcomed in Paris—Industrialists in Germany—Advise Acceptance of Proposals of Experts—Navigation on the St. Lawrence will Begin Early.

ROYALTY IN FRANCE.
PARIS, April 10. Queen Marie, Europe's youngest royal grandmother and King Ferdinand, arrived here this morning for three days' visit and were given a brilliant reception. President and Madame Millerand greeted the Royal couple, and the entire distance from the station to the Foreign Office was lined with troops representing every race of the French service.

DEATH OF HUGO STINNES.
BERLIN, April 10. Hugo Stinnes, more closely identified with Germany's industrial life than any other man, died this evening at 830. Indefatigable in his labors, he struggled against the impending war and was conscious to the last. He was surrounded by his wife and children. To them he devoted his last years all the time he could spare from his vast business inter-

ests. Three major operations had been performed, the first about four weeks ago for gall stones and it was owing to the impossibility of keeping the patient quiet, according to the surgeons, that complications arose, necessitating further operations. The last one on Sunday. It was also reported pneumonia developed.

GERMAN INDUSTRIALIST DISCUSSES PROPOSAL OF EXPERTS' COMMISSION.
BERLIN, April 10. Dr. Kurt Serge, Director of Krupp's Company, and Chairman of the Association of German Industrialists, in a statement on the report of the Experts, to-day, said: "I am of opinion that their proposals must be accepted. The burdens they will impose on German industrialists are enormous, but the Experts' proposals

mark a considerable advance on any heretofore made, particularly as they were not influenced by military and political considerations, but are based on strictly economic lines. Dr. Serge emphasized that the absolute prerequisite to fulfillment was restoration in full of Germany's economic sovereignty over the occupied areas, and especially abolition of the Franco-Belgian Railway regime and the customs barrier between the occupied and unoccupied regions. It would be a great relief to industrialists, he continued, to have, at least for some years ahead, fixed and definite payment; although in his opinion it would have been preferable to have the total sum of reparations fixed. He emphasized also, that fulfillment was only possible if an international loan was raised, of which he confessed himself rather skeptical. He believed that once the Government accepted the proposals, German industrialists would do their utmost, locally, to help Germany carry them through, although he was under no delusion as to the enormous burdens Germany would have to bear for many years to come.

SHIPPING SEASON OPENS.
MONTREAL, April 10. Ice conditions permitting, the opening of the St. Lawrence passenger service, the shipping season will be marked by very heavy arrivals. Eight boats are scheduled to arrive at Quebec between April 26 and 28. The shipping season at St. John, N.B., will practically close this week end with the arrival of three large ships on Saturday and Sunday, carrying 2,547 passengers, a large number of whom are prospective settlers.

MURDERERS EXECUTED.
LONDON, Ont., April 10. Two condemned men stepped on the same platform in the yard of Middlesex Jail, this morning, and were hurried to their doom, in a double hanging, carried out by Arthur Ellis, an official hangman of Canada. They were Sidney Murrell, 26, bank robber, who killed an aged man in the village of Melbourne, when the latter attempted to intercept the robber, and Clarence Topping, 23, who shot and killed his sweetheart, Geraldine Durston, in a local boarding house, last November. "My time has come, good luck and God bless you all" were the last words of Murrell, as he stepped out on the scaffold. Topping said nothing, but went to his doom wearing a bright smile. Both were dead seven minutes after the trap was sprung.

THE AIR RACE ROUTE.
OTTAWA, April 10. The passage across Canada of the British airmen, who are flying round the world, will be a race against time. A similar flight, begun by United States airmen having started competition between the two countries for the honor of being the first to complete the world flight. The itinerary, which provides for the landing of the British flyers at Prince Rupert, B.C., and their departure for Sydney, N.S., for Europe, via Newfoundland, has been completed by the Royal Canadian Air Force, which will supply the airmen at Prince Rupert with scale maps of the country they will traverse, and facilitate their Canadian tour. The longest stop in Canada will be at Ottawa, where about two days will be consumed in installing the new engine. At St. John's, Nfld., the craft will be prepared for the Atlantic flight. With these exceptions the airmen will make only the briefest stops at Edmonton, Regina, Winnipeg, Sault Ste. Marie, Montreal, River Du Loup, Fredericton, St. John, N.B., Amherst and Sydney, N.S. It is possible that to shorten the Canadian flight an alternative route might be followed through Campbellton, N.B., to Port aux Basques, Nfld. The British airmen left Britain March 25th.

M.C.I.L. Holds Annual Meeting

The election of officers for the ensuing year took place at the 57th annual meeting of the M.C.I.L., held last night in the Methodist College Hall. The retiring President, Mr. R. Hearder, occupied the chair, and a large amount of business pertaining to the annual meeting was disposed of. The Secretary reports a session of splendid success. The attendance was above the average, the different subjects were keenly debated and a number of new members had joined. The Treasurer's report showed a balance on hand after all bills had been met. Mr. Hearder received, and deserved, the hearty congratulations of the members on a very successful two years' term. The election of officers, conducted by Mr. George Peters, resulted as follows:—
President—H. J. Russell.
1st Vice-Pres.—J. C. Puddlatier.
2nd Vice-Pres.—J. M. Barbour.
Secretary—A. E. Parkins.
Assistant Secretary—H. Butt.
Treasurer—George Soper.
Assistant Treas.—H. J. Wyatt.
Librarian—George P. Jones.
Committee—Messrs. R. Hearder, G. Peters, William Drover, and Reuben Horwood.

MINARD'S LINIMENT FOR HEAD-ACHE.

Promising Outlook On N. W. Coast

Mr. Jack Henry, of the firm of Henry Bros., Curling, has just returned from what is probably a unique business trip. Wishing to get into personal touch with his customers on the North West Coast, Mr. Henry shouldered his pack at Deer Lake, intending to travel as far down as Flower's Cove. After covering the 150 miles to Hawke's Bay, under exceptionally arduous weather conditions, the traveller was recalled by telegram on account of the sudden illness of his brother. The return trip to Deer Lake took only 8 days, including one day which he was compelled to lie up owing to dirty weather. Altogether 300 miles was covered on foot. Mr. Henry happily reports that the living conditions on this long stretch of coast appear to be the best that have existed for the past four or five years due to the summer employment, the Hawke's Bay industry, and the remarkably mild winter. A good quantity of fur has been trapped and some excellent specimens of silver and white foxes were collected en route. The G.W. and Straths are practically clear of ice, and as early as March 19th a motor boat steamed from Daniel's Harbor to Bonne Bay, taking as passenger one of the Welfare workers of the Grenfell Association. A young Englishman of 23, Mr. Henry recently went into partnership with his brother as Brokers and Commission Agents at Curling, Bay of Islands, COM.

Express Passengers.

The following passengers crossed over to Port aux Basques by S. S. Kyle at 7 a.m. yesterday, and are now on the incoming express:—A. S. Clarke, P. S. Repella, T. A. Moore, H. Moyer, A. White, Mrs. A. Ingraham, S. and Mrs. Foote, J. McLeod, W. F. Brown, S. Elliott, W. Horwood, E. Berub, A. Meadus, R. H. Charlton, E. Charlton, E. Givrus, G. Hemet, E. Letour, E. Saunders, J. Hubley, D. A. Macaulay, J. T. Kerr, O. Lerson, D. Wilky, H. Fredericksen.

Whirlwind Attraction at the Nickel To-day

DASHING HARRY CAREY IN "GOOD MEN AND TRUE."

The week-end bill at the Nickel Theatre is one of exceptional value. The big item of the programme is, however, the feature entitled "Good Men and True," starring the reckless screen actor, Harry Carey. The story in brief is as follows:—
Pringle and Thorpe are rivals in the race for sheriff. Thorpe realizes the other's popularity and discards all scruples in planning to destroy it. Pringle is thrown off a cliff while pursuing Thorpe and is believed by his enemies to be dead. When he reappears later Thorpe decides to make a thorough job of defeating him. He imprisons him in a deserted shack after framing him to appear suspicious in a murder for which Thorpe himself is responsible. An unfortunate man whom Pringle has befriended turns up in time to help him and free him. He hears of his sweetheart's danger in a rough roadside and arrives in time to offer dramatic protection. Incidentally he is elected sheriff.

To-Day's Message to Motorists.

If it is necessary and wise to put brakes on all wheels of steam and electric cars, which run on a restricted line of steel rails, how much more necessary and wise it is to place them on automobiles that travel in traffic that is congested with both cars and human beings. Four-wheel brakes for automobiles are already being welcomed by police departments and safety committees in every large city as a great step forward in making traffic safer.

All 1924 Buicks are equipped with FOUR-WHEEL BRAKES.

STAFFORD'S Sarsaparilla Blood Purifier

FOR THE CURE OF

Skin Diseases, Anemia, Lack of Blood, Paleness,
Impure Blood, Lack of Ambition and Vigor,
Debility, Weakness, Tired Feeling, Boils,
Pimples, etc.

THERE is no Remedy of more universal application than a genuine true-and-tried Blood Purifier and Blood Builder. A medicinal preparation that will truly purify, revitalize and renew the blood, restores hope and pleasure, ambition and happiness, vigor and vitality. It is of inestimable value not only as a strengthener of the system, fortifying it against invasion of disease, but also as a cure for Chronic Diseases which depend upon an impoverished condition of the blood. Diseases of this nature are usually caused by impurities in the blood deposited through the inactivity of the Liver and Kidneys.

These secretions if not removed from the circulation, gradually form poisons which deteriorate the condition of the blood and allow other diseases to obtain a more ready entrance to the system. In the effort of nature to throw off these impurities, frequently pimples, boils, carbuncles, etc., appear, and it is wise to respond promptly to the Warning of Nature.

THIS SARSAPARILLA

is a genuine preparation scientifically prepared from the best and purest remedies for the purifying and rebuilding of the blood. It should be taken every spring, as at this season the blood is more apt to become impure and impoverished. Keep your blood in perfect condition and you will be prepared to fight life's battles with greater success.

One Bottle of this Blood Purifier is all that you will need to take to produce results.

TRY A BOTTLE.

PRICE 50c. POSTAGE 20c. EXTRA.
