Hands And Feet Swollen.

THE SERIOUS CONDITION OF A WELAND WOMAN WHOM DR. PITCHER'S BACKACHE KIDNEY TABLETS CURED.

Mr. Joseph Young, Division Street, Welland, Ont., says: "I have suffered from backache and kidney troubles for four or five years. At times I could hardly shut my hands, they were so swollen and my feet the same. Going up stairs hurt my back so, I thought I would die, and my breath grew awful short. I tried almost everything with no relief. Black specks floated all around and my eyes were very bad. The pain ran from the small of my back to the base of the head. I could not sleep lying on my back. I went and got a bottle of Dr. Pitcher's Backache Kidney Tablets, and they have been a great boon to me. They are just splendid. I can see to thread a needle, and the pain in the head is just about gone. All the old feeling of cracking and creaking in the base of the head is gone and the back comfortable. The old spells that came on night or day, are gone, and I feel like living again. I can work now with comfort and go up stairs fast with no trouble. I am only too glad to recommend them to everyone. I used to be afraid to turn over at night, and now I am not afraid at all and can sleep well."

Dr. Pitcher's Backache Kidney Tablets are the newest and most effective remedy for backache, lame or weak back, Bright's disease, diabetes dropsy, puffiness under the eyes, swelling of the feet and ankles, gravel, rheumatism, specks floating before the eyes, kidney weakness, of children and old people and all urinary troubles. Price 50c a box at all druggists or by mail. The Dr. Zina Pitcher Co., Toronto.

KING CONFESSES TO MURDER

Killed His Chum on the Farm in a Fit of Jealousy.

Fegan Boy, St. Thomas, Wanted to Get Rid of Freeman to Take Place of Adopted Son-In Response to Detective Murray's Questioning King Broke Down and Admitted That He Had Fired the Fatal Shot.

St. Thomas, Sept. 15.—The body of 15-year-old James W. Freeman of Rodney, Ont., was exhumed yesterday for a post-mortem examination. On circumstances developed in the former inquest, it is believed that the deceased met with foul play, although the cause of death was first supposed to be from the accidental discharge of a gun.

An Arrest Made. William Charles King was arrested yesterday afternoon by Detective John Murray of the provincial force, charged with the murder of James William Freeman, the 15-year-old adopted son of D. B. Freeman, who owns a farm on Hogz street, in the Township of Aldborough. King is Freeman's hired man.

After examining on the spot where the shot was fired, it was concluded that it would be impossible for them to be self-inflicted. A visit was then made to the Freeman home, and King put through all his alleged movements after hearing the shot on the day of the tragedy.

Jealousy the Cause. After talking the matter over with Detective Murray the suspected man broke down and acknowledged that he had shot young Freeman because he was jealous of him. In telling his story King said he crept upstairs in the drive house and took aim at Freeman's eyes and shot him. He then called Mr. and Mrs. Freeman and told them that "Willie had shot himself."

King was brought to the county jail here last night by Detective Murray, to await the outcome of the inquest at Rodney to day. He is about 25 years of age and a Barnard Home boy, and has been with the Freemans over six years.

Detective Murray's Story. Detective Murray says that after warning King that anything he might say would be used against him, he related again how he killed young Freeman. Afterwards, in the presence of Mrs. Freeman, King said he killed James because he was jealous of him. He said if he could get James out of the way he would get his place on the farm.

PROBLEMS IN TRANSPORTATION. Passengers Handled Without Stopping Trains on Through Lines.

Windsor, Sept. 15.—The engineering section of the British Association has been much interested in the model of an electric express train, which paradoxically "stops at all stations." The idea is that a simple train composed of several motor cars, each of which carries a passenger car, passes each station drops off behind one carriage containing passengers who want to alight there, and picks up in front, another from that station, all this being done while the train is traveling at full speed. The carriages to be attached has to start in advance and get well under way by the time the train catches it, and is coupled by a patent automatic arrangement. The scheme is only possible where each carriage has its own motors in the multiple system.

Killed Instantly by Train. Woodstock, Sept. 15.—Mrs. Albert Aitchison and her daughter, of Currier's Crossing, township of East Oxford, were proceeding home from the Woodstock market Saturday, at 11 o'clock, when their buggy was struck on the Wilson street crossing by the G.T.R. west bound accommodation express due here at 10:42 a.m.

The rig was demolished, and the locomotive striking Mrs. Aitchison in the body, killed her instantly. Strange to say, the daughter escaped with a few slight bruises, and although she is suffering from shock of the dreadful accident, yet no serious results are anticipated.

The deceased was 46 years of age, and leaves a husband and five children to mourn her sudden demise. The former is in Manitoba at present.

Deaths in Forest Fires. Kalama, Washington, Sept. 15.—News reached here last night that the forest fires on Lewis River have wrought sad havoc. D. L. Wallace, his wife, and two children, were burned to death. They were camping in the woods when caught by the fire. A 12-year-old boy of Mr. Manley's is also dead. Mrs. John Polly, her baby and a brother, name unknown, and Mr. Newhouse and Mrs. Graves are dead. Five others were found without clothing, except gunnicks.

Blown Out of Cab. New York, Sept. 15.—George Lutz, engineer; James J. Dooley, fireman, and Walter Weber, conductor, were blown out of the cab of a locomotive which exploded on the Penna Railroad just west of Jersey City yesterday. Lutz was killed, and the others seriously scalded and bruised.

German Army's Weakness. Berlin, Sept. 15.—The foreign officers present at the Kaiser's war manoeuvres were unanimous in declaring that the infantry system of the German army, of which His Imperial Majesty is most proud and confident, is impracticable in action and a weak link of the army.

Empress in Summer Palace. Peking, Sept. 14.—The Emperor, Dowager Empress and the entire court removed to the Summer Palace to-day this being their first visit there in three years.

DINED IN THE KITCHEN.

One Satisfactory Meal Grant Had After His Tour of the World.

"When General Grant stopped at the Palmer House in Chicago on his return from his tour of the world," said a man who was there at the time, "the steward was all but stupefied one noon at seeing the ex-president slide in at the kitchen door as though escaping from some one."

"I am sorry to trouble you," he said, as though asking a great favor, "but may I have a little corned beef and cabbage?" "No," he answered, "I'll eat it right here if you'll let me sit down."

"So a place on the rough board table, where the cook had been fixing the meat, was cleared, and Grant drew up a stool and set to, and the way he got away with that corned beef and cabbage was a caution. When he had finished, he laid down his knife and fork with a funny sigh of satisfaction, put one hand on the steward's shoulder and said: "Young man, I don't suppose you care for that at all, but if you had had to eat what I have for the past few months, it would taste like a dinner for the gods. It tastes homey!"

The ex-president then dined with everybody from the queen down, but that cabbage and corned beef doubtless reminded him of the time when he was not so well known, but probably far happier—when people in St. Louis called him "captain" when they spoke to him and bought the wood he carried into town to sell."

Character at a Glance. An insignificant nose means an insignificant man. An open mouth is a sure sign of an empty head (keep yours closed). A projecting upper lip shows malignity and avarice. Pointed noses generally belong to meddlesome people. Large eyes in a small face betoken maliciousness.

A retreating chin is always bad; it shows lack of resolution. A projecting under lip indicates ostentation, self conceit and folly. Fine hair generally betokens native good taste and intelligence.

A simple in the chin is pretty, but indicates weak mental organization. High cheek bones always indicate great force of character in some direction. Fullness of the temples is supposed to show powers of mathematical calculation.

A small mouth, with nose and nostril also small, shows indecision and cowardice. Half shut eyes show natural shrewdness, together with lack of sincerity. Slow moving eyes are always found in the heads of persons of prudence and ability.—London Answers.

Wheat in Fable and History. Possibly wheat was the corn so plenty in Egypt when famine drove thither Joseph's unnatural brethren. Wheat went with other precious things into the mummy cases and sealed jars stored in royal tombs. Today acres by the thousand laugh in bearded grain said to have sprung from sparse kernels plundered by a ruthless explorer from a royal mummy's hand. Does it whisper now—this new-old Egyptian wheat—to its constant friend the sun, of Osiris—the great sphinx—and Memnon's head, singing to hail the sunrise? If it would but speak aloud so mortals could comprehend, how our wisdom might be broadened! What a recasting of history must be wrought, and how we boasting moderns might hide diminished heads!

A Tart Retort. Lord Roberts once found himself the center of a circle of new friends in a London club. There was a very tall gentleman present, who, evidently believing himself to shine, seized every opportunity to raise a laugh at the other people's expense. One being introduced to Lord Roberts the wit went down patronizingly to his lordship and remarked: "I have often heard of you, but"—shading his eyes with one hand as though the famous general, being so small, could be seen only with difficulty—"I have never seen you."

To this Lord Roberts promptly replied: "I have often seen you, sir, but I have never heard of you."

The Cause of Woman's Ills. In almost every case where woman suffers from ills peculiarly feminine the cause is to be found in a weakened and exhausted condition of the system. The nerves are depleted and the blood thin and watery. If medicines have failed to cure, it is because the wrong treatment has been used.

Mrs. Henry Clark, Port Hope, Ont., states—"I have seen boxes of Dr. Chase's Nerve Food for nervousness and a completely run down system, and can heartily recommend it as a wonderfully effective treatment. Before using this remedy I had been in very poor health for some months. I seemed to have no energy or ambition, felt tired and listless most of the time, and could scarcely drag myself about the house. I was weak, irritable and nervous, could not sleep well, and felt discouraged about my health. Dr. Chase's Nerve Food has taken away these symptoms and given back my usual health and vigor, consequently I endorse it fully."

ALL-NIGHT CONFERENCE.

Governor Stone and Miners' President John Mitchell Discuss Strike.

Harrisburg, Pa., Sept. 15.—The conference between Governor Stone and John Mitchell, President of the United Mine Workers of America, on the coal strike ended at 4:30 o'clock Saturday morning, after a discussion of two hours and a half. The others at the conference were State Senator William Flinn of Pittsburg, a political friend of the Governor, and a large employer of labor in Allegheny County, M. K. McMullen of Harrisburg, a wealthy man of many interests; Col. W. F. Richardson of Harrisburg, keeper of the State Arsenal and Assistant Quartermaster of the National Guard; and District President Thomas D. Nichols of Scranton, Thomas Duffy of McAdoo, and John Fahy of Shamokin. At the conclusion of the meeting, Governor Stone gave to the waiting newspaper correspondents a written statement, reading as follows:

Messrs. Mitchell, Nichols, Fahy, Duffy, Senator Flinn, Colonel Richardson and Governor Stone have been in conference all the afternoon and have been discussed with the best of feeling."

Mitchell Will Not Talk. Wilkes-Barre, Sept. 15.—John Mitchell, the leader of the striking miners, got back to his headquarters here from Harrisburg about 10 o'clock yesterday morning, and all day long has resolutely refused to discuss the interview which he had there in the dead of the night with Gov. Stone. People here are disposed to believe that the conference was without result.

Will Start the Mines. Superintendent Barnard of the Delaware, Lacka and Western Company collieries in the Wyoming region last evening notified Sheriff Jacobs that additional men would be put to work to-day at the collieries, which resumed operations last week, and that probably one or two more of the mines would be started up.

Hard Coal Almost Gone. Toronto, Sept. 15.—If the anthracite coal strike continues much longer Toronto householders will have no other alternative but to use soft coal. Local dealers think that this is what it will come to unless a settlement is shortly reached. Some of them had no hard coal on hand even now, while the supply of others is almost exhausted.

BOERS FLEED FROM COST. Relief Funds Will Be Taken Out of Imperial Exchequer.

Johannesburg, Sept. 14.—It is officially announced that the £3,000,000 granted for the relief of British subjects and foreigners who have not committed a breach of neutrality, and natives. These sums, it is announced, are independent of the payment made by the Military Compensation Boards.

It is reported that ex-State Secretary Belk, of the Transvaal, and other irrefragable, have abandoned their scheme of migrating to South-west German Africa, and are going to Madagascar instead.

Boer Generals to Stay. The Hague, Sept. 15.—The departure from Holland of the Boer generals, Botha, Dewet and Delarey, has been postponed. According to a rumor in Boer circles, the generals expect to be received by Queen Wilhelmina, who offers the Dutch Parliament Sept. 16.

Dublin Mass Meeting. Dublin, Sept. 15.—Some 20,000 persons, the biggest open air gathering that has been seen here in years, assembled in Phoenix Park yesterday to protest against the action of the Government in "proclaiming" the Irish capital. The Lord Mayor of Dublin presided at the meeting, and John Dillon and William O'Brien, Nationalist members of the House of Commons, were the chief speakers.

Penny Paper Pioneer Retires. Paris, Sept. 15.—M. Marinoni, the originator of one cent papers in Paris, retired this week on account of his advanced age and ill health.

The schooner Jamieson, bound from Toronto to Detroit, light, ran back to Port Colborne on Saturday night for repairs. The heavy gale of Friday night struck the schooner off Long Point and carried away her main-sail and forestays.

A COMPACT OF DEATH.

Kent Sticks to His Story That Ethel Dingle Tried to Kill Him and Then Succeeded by Agreement.

Rochester, Sept. 16.—The coroner and the police authorities are reticent in regard to the Whitcomb House tragedy, but it is understood that they are working on the theory that Ethel Dingle could not have committed suicide with the razor in her left hand, where it was found. Edward D. Kent, the other party to the terrible state of affairs, will recover. He is in the Homeopathic Hospital, closely guarded by detectives.

Kent sticks to his story that Miss Dingle tried to kill him and then succeeded. They had arranged to do so together when they left Buffalo for Rochester on the night of the tragedy. Before they retired they left letters to relatives stating that such was their intention. These letters are in possession of the coroner.

A Hamilton despatch says: Ethel Dingle, the victim of the tragedy, was a Hamilton girl. Her father was James Dingle, a well-known butcher on South John street, who died about 15 years ago, and Joseph Dingle, of the Central Market, is an uncle. A brother, who boards at South 135 John street, left early yesterday morning for Rochester. The dead girl was born at the old Dingle homestead, a short distance over the mountain. After the death of her parents she, with her sisters, went to Toronto to live with a grandmother, and later with one of her sisters, she went to Buffalo and entered the Nurses' Training School. She lived for some time with her grandmother, Mrs. McDonald, in Toronto, before going to Buffalo.

ON HER BEAM ENDS. Eight Men of Steamer Bewick Picked Up on North Sea.

London, Sept. 16.—The mate and seven of the crew of the British steamer Bewick, which was on her way to Stockholm with coal, have arrived at Boston, England, in a trawler, which picked them up Sept. 14 from an open boat on the North Sea. The report was that the Bewick cargo shifted during a gale, and that the steamer went on her beam ends. In launching the boats from the Bewick, three of them were smashed. The captain and 10 men remained aboard the steamer. The trawler, which brought the mate and his seven companions to Boston saw no trace of the disabled steamer.

PEARY ON HIS WAY HOME. On Board the Relief Ship Windward—All Are Well.

New York, Sept. 16.—Herbert Bridgman, secretary of the Peary Arctic Club, received a despatch yesterday from Lieut. R. E. Peary, the Arctic explorer, dated Chateau Bay, Labrador, Lieut. Peary says in the despatch that he is on his way home on the relief ship Windward and that all on board are well.

What Caused Forest Fires. Portland, Oregon, Sept. 16.—Driven from their homes in the darkness of the night by a raging forest fire, which swept everything before it, from Ariel, Clatsop County, Washington, to the foot of Mount St. Helens, a distance of 25 miles, eleven people are dead, four are missing and more than 200 people have been left homeless many with not even clothes enough to cover their nakedness.

Scientists attribute the fires to a fall of meteors.

Dr. Gilmore Favors Whipping. Philadelphia, Sept. 16.—Numerous addresses were made at yesterday's sessions of the National Prison Congress. Among them was that of Dr. N. T. Gilmore, warden of the Central Prison, at Toronto, Ont., whose topic was "Prison Discipline." Dr. Gilmore favored the whipping post as a corrective measure in penal institutions.

Last Thought of Duty. Tydesley, Wales, Sept. 16.—While lowering a cage containing twenty-four miners in a colliery here Sunday, Engineer Scott was seized with apoplexy. Thinking only of the safety of the miners, Scott applied the brakes and then fell dead. His promptness saved the miners from dashing to death at the bottom of the pit.

Will Not Be Taken Up. London, Sept. 16.—The fall jury sittings of the High Court of Justice in aid for the County of Middlesex opened at 2 o'clock yesterday afternoon at the Court House here. Mr. Justice Lush announced that the Sifton case would not be taken up at the present sitting.
