

SIXTY MORE GALLANT BOYS

Arrived at Quebec City From South Africa on Sunday.

The Steamship Dominion Brought This Batch of Invalids, and the Old City Gave Them a Right Royal Welcome—Complete List, With Many Other Details of Interest—Signs That the Boer War is Ended.

Quebec, Sept. 24.—Quebec was called upon yesterday to receive and welcome back to Canada from South Africa 60 gallant boys from different parts of our wide Dominion. As on many other similar occasions, the old city has had the pleasant duty of acting for the nation in welcoming back these heroes.

In spite of the weather, which was far from being favorable, drizzling rain falling all day, the demonstration was enthusiastic, and the reception was such as to make the boys feel that they were home again. Flags and bunting were conspicuous everywhere in the city, especially on all public buildings. The Queen's Wharf and the Government steamers, Aberdeen and Druid, had been tastefully decorated.

Arrival of the Steamer. The steamer Dominion arrived in port, and moored at the Grand Frank wharf, Point Lévis, about 9.30 o'clock. The steamer Druid was placed at the disposal of the Citizens' Reception Committee to go down the river about 11 o'clock, and transfer the men from the Dominion, as was done in previous cases, and land them at the Queen's Wharf, where the public demonstration took place at 1.30 o'clock. The boys had lunch on board the Druid, which had been elegantly prepared by a city caterer.

Address of Welcome. On the Queen's Wharf an appropriate address of welcome was read to them by pro-Mayor Tanqueray, who was surrounded by some of the city officials.

After three enthusiastic cheers and a tiger for the boys, a procession headed by the detachment of police, under Chief Pomeroy, formed, and the detachment was escorted to the Citadel by the R. C. A. and the R. C. I., with the State Band, and the members of the committee and citizens generally, and some carriages which the committee had taken the precaution to have on hand to convey some of the boys who were too lame or too weak to climb up the hill and walk to the Citadel. The men have been quartered in the Citadel, and Major Fages, who has been specially authorized to act in the matter, will begin to-day to pay them off and grant discharges.

A Correct List. The following is a correct list of the boys, including their residences, and, in many cases, the cause of their disability. The detachment was in charge of Lieut. Van Luyken of the Royal Canadian Dragoon Rifles, Lieut. H. Ketchen, formerly of the N. W. M. P., but who has been serving as lieutenant in the Strathcona Horse, was with the party. Lieut. Ketchen was wounded in the right side in the surrounding of Heidelberg, and afterwards suffered with an attack of enteric fever. The other boys are:

- Sergeant A. W. McLeod, C.M.R., formerly of the 1st Squadron, R.C.E., Winnipeg, enteric and dysentery. Sergeant Rowan Johnston, C.M.R., Brandon, Man., enteric. Sergeant E. OPPOSED TO BALL VALVES.

An Old Detective Tells How One of Them Figured in an Escape.

"I never had but one prisoner escape from me," said an old railroad detective, "and that was under very peculiar circumstances. In 1882, when I was working for the Atchison, Topeka and Santa Fe road, I captured a fellow named Jim Lake, who was wanted for robbing freight cars. I got him near Trinidad, Colo., and after securing the requisition papers started east with him for Kansas City. Lake was a little, consumptive chap, as frail as a woman, and I didn't consider it necessary to even put the handcuffs on him. With one twist I could have broken him in two. Besides, I didn't care to cause him needless humiliation by exhibiting him before the other passengers in the role of a prisoner, so we simply sat side by side, like two fellow tourists, and nobody in the cars had any idea he was under arrest.

LORD METHUEN'S CAPTURE.

Boer Convoy of 28, With Cattle, Sheep and Guns. London, Sept. 24.—The following despatch has been received from Lord Roberts:

"Pretoria, Sept. 21.—(Friday)—Methuen completely routed a Boer convoy at Hart River, west of Klondorp, and recaptured a 15-pounder and at Golenso. He also captured 26 wagons, 8,000 cattle, 4,000 sheep, 20,000 rounds of ammunition and 28 prisoners. "Hildyard occupied Vryheid Sept. 19, turning out the Boers from a strong position. The British casualties were few.

British Occupy Komatiport.

London, Sept. 23.—The British have occupied Komatiport without opposition.

Portuguese Fighting Boers.

London, Sept. 24.—A special despatch from Lorenzo Marquez says that Boers arriving there report that collisions are occurring on the frontier between Portuguese troops and Boers on entering Portuguese territory. Several have been wounded and further fighting is feared. The Portuguese are almost powerless unless reinforced.

20,000 REFUGEES TO RETURN.

Col. Girouard is Now Arranging For Their Transportation.

Cape Town, Sept. 23.—Col. Girouard is expected to arrive here to-day to arrange railway transportation for the Orange Free State and the Transvaal to their homes. The first trains will carry 10,000 tons of food-stuffs. Then the commercial and mining storekeepers will be sent through. Afterward the remaining refugees, to the number of about 20,000, will receive transportation. The latter will probably begin to return by the end of October.

To Declare Boer War Ended.

Johannesburg, Sept. 21.—It is reported that the war will be officially declared at an end in a day or two.

FORTY-TWO MEN DROWNED.

Last Week's Gale on the Grand Banks of Newfoundland Played havoc With the Fishing Vessels.

St. John's, Nfld., Sept. 24.—An unknown American vessel was wrecked on the Grand Banks during last week's gale, and all of her crew, about 20 in number, perished. The French banker, Thornley, founder and 14 of her crew were drowned, while six others were rescued.

The Newfield is a Wreck.

Dominion Government Steamer Ashore at Hill Cove, Bay of Fundy.

Digby, N. S., Sept. 24.—The Dominion Government Newfield, wrecked ashore at 1 p. m. yesterday at White Cove, three miles west of Sandy Cove, in the Bay of Fundy, and will probably prove a total loss. The tug Morina carried a despatch to the Government steamer Lansdowne at 6 o'clock last night, to come to her assistance. The Lansdowne left here as soon as she could get up steam. A telephone message from Point Prim fog alarm says that it is thick fog in the bay but no wind. It is doubtful at present if the Lansdowne will be able to get a line to her. The crew are safe. The Newfield was built at Sunderland, G. B., in 1871, and is 500 tons net tonnage.

Tried to Kill His Parents.

London, Ont., Sept. 24.—An elderly man named Hoskins, who lives here, is in Victoria Hospital, suffering from an injury to the skull which may result fatally. His son, 25 years of age, who inflicted the wound, is in the lockup. The young man is supposed to be insane. He dealt his father a blow on the forehead over the left eye with a brick. He then said he was going to kill his mother, but he was overpowered and handed over to the police.

Dr. Sturgeon of Petrolas, Ont., died on Saturday evening.

GOODWILL OF CHINA'S RULERS

Seems to Have Been Much Exaggerated in the U. S. Mind.

The Republic Will Not Accept Germany's Proposal—The Empress-Dowager Will Not Return to Peking, as It Has Been Desecrated by the Intrusion of Barbarians—Her Imperial Majesty Still Backs Up the Boxers.

London, Sept. 24.—(3.30 a. m.)—The morning papers are too fully occupied with the general election campaign to bestow much attention upon the Chinese problem. The Standard, which discusses editorially the replies of the United States Government, especially that refusing support to Germany's proposal, says:

"The policy thus laid down implies the existence of a Washington of very exaggerated estimate of the goodwill of the Chinese rulers. It is to be feared that the action of the United States will lead to weaken the moral influence of the allies, and for this reason it is to be greatly regretted."

According to the Pekin correspondent of The Daily News, wiring Sept. 16, the Chinese declare most positively that the Empress-Dowager and the Emperor will in no case return to the imperial palace in Peking, as they hold that it has been desecrated by the intrusion of barbarians.

This irreconcilable attitude receives confirmation in many reports emanating from Shanghai. One of these is that as a reply to the denunciation of Prince Tuan and others by the viceroys an imperial edict, dated Sept. 17, deals most leniently with the Boxer movement, and reminds the people that both the Boxers and Chinese Christians are Chinese who shall receive imperial protection if they quietly disperse to their homes. The edict points out that it is impossible for the Imperial Government to distinguish between good and bad Boxers. It says, "If the rebel Boxers still continue to assemble they will be dealt with summarily."

Another report asserts that the edict frankly declares that no execution will be sanctioned until an adequate inquiry has been made.

Further indications that Prince Tuan has resumed his former ascendancy are found in the Shanghai reports of his promotion and in the statement that he has been appointed generalissimo of the Northern Chinese armies, and Prince Chang, deputy commander-in-chief of the Boxers, has been made a Grand Councillor. It is also reported that Loh, former Governor of Kiang Su Province, a Manchurian, and bitterly anti-foreign, has been appointed to succeed Li Hung Chang at Canton.

According to various accounts of the Pei Tang affair, the Chinese had anticipated that the allies would attack in force. The Britishers and others who left Peking with the intention of cutting off the retreat of the Pei Tang garrison, arrived too late. They were only half-way to their destination when the forts were captured.

Advices to The Standard from Shanghai place the losses of the allies before Pei Tang as 300, principally due to the explosion of mines, one of which, 200 yards long, exploded like an earthquake, killing and wounding large numbers and literally blowing two mounted officers to pieces.

60,000 WORKMEN

Resume Work After Three Months of Enforced Idleness.

Cincinnati, Sept. 24.—The Conference Committee of the Amalgamated Association of Iron and Steel Workers and the manufacturers, at 6.30 o'clock Saturday morning signed the wage scale that will be effective until July, 1901. It is what is known as the yearly scale, which takes effect usually in July. Owing to the unusual fluctuations of the market, the new scale had not been signed when the mills shut down June 30, and the conditions have been unfavorable ever since June, so that the mills have been idle almost three months. Some mills will start to-day, and all others as soon as possible.

Means Work for 60,000.

This decision means employment to-day to over 60,000 workmen, who have been idle since June. President Schaefer and Commissioner Nutt jointly gave out the following official statement on Saturday:

"The rate for boiling is \$4.75 per ton, based upon a one cent card rate, with the same basis running up to one and two-tenths for the card rate, or \$1.20. But the price for boiling for September and October shall be \$5 per ton, based on a card rate of one and one-fourteenth cents."

A Fenian Story.

Paris, Sept. 23.—Information has been obtained that the Fenians, whose headquarters are in Paris, are preparing for a coup for Irish independence. Arthur Lynch, now on his way to America by a French steamer, it is said, was sent by Patrick O'Brien, a member of Parliament, and Maud Gonno to bring back ammunition and rifles, and above all, fearless, intelligent Irishmen, capable of controlling and leading the masses when the signal for rebellion is given.

MICHIGAN CENTRAL

"The Niagara Falls Route."

Table with train schedules for Michigan Central, including routes to Buffalo, Niagara Falls, and Detroit.

ABSOLUTE SECURITY.

Genuine Carter's Little Liver Pills.

Must Bear Signature of Dr. J. C. Carter.

See Fac-Simile Wrapper Below.

Very small and so easy to take as sugar.

FOR HEADACHE, FOR DIZZINESS, FOR BILIOUSNESS, FOR TORPID LIVER, FOR CONSTIPATION, FOR SALLOW SKIN, FOR THE COMPLEXION.

GUARANTEED PURELY VEGETABLE.

CURE SICK HEADACHE.

The Wabash Railroad Co.

THE BANNER ROUTE.

Trains on the Wabash will leave Aylmer as follows:

WEST BOUND.

No. 3—11.31 a. m. Solid, wide vestibule train for St. Thomas, Chatham, Detroit, Chicago, Louisville and New York.

No. 5—6.40 p. m. Solid train for Detroit, Chicago and intermediate stations.

EAST BOUND.

No. 2—2.23 p. m. Solid vestibule train for Niagara Falls, Simcoe, Cayuga, Niagara Falls, Buffalo and New York.

No. 6—3.58 a. m. Solid, wide vestibule train for Niagara Falls, Buffalo and New York.

Passengers going west on No. 1 or 3 can go to St. Thomas on No. 5.

All Wabash Passenger trains have free lunch cars.

J. A. RICHARDSON, N. A. McCALLUM, Dist. Passenger Agent. Depot Agent, Toronto and St. Thomas. Aylmer, Ontario.

SPAVIN, RINGBONE, SPLINTS, CURBS, AND ALL FORMS OF LAMENESS YIELD TO KENDALL'S SPAVIN CURE.

Works thousands of cures annually. Endorsed by the best breeders and horsemen everywhere. Price, 50¢ per bottle. As a liniment for family use it has no equal.

West Lorne, Ontario, Can., Dec. 14, 1898.

Dear Sir:—A year ago I had a valuable horse which got lame in the Veterinary Bureau, who pronounced it curable and gave me little hope, although he applied many blisters. This animal was only worse and the horse became so lame that it could not walk. After trying everything in my power, I went to a neighbor and told him about the cure. He gave me one of the bottles and I used it carefully and it relieved to do the utmost in favor of my horse. I used the cure and applied it strictly according to directions. For the first bottle use and I had an improvement. He and when the seventh bottle was about half finished, his horse was cured. I had a second horse which was lame in the hind leg and I used the cure and it was cured. I had a third horse which was lame in the hind leg and I used the cure and it was cured. I had a fourth horse which was lame in the hind leg and I used the cure and it was cured. I had a fifth horse which was lame in the hind leg and I used the cure and it was cured. I had a sixth horse which was lame in the hind leg and I used the cure and it was cured. I had a seventh horse which was lame in the hind leg and I used the cure and it was cured. I had an eighth horse which was lame in the hind leg and I used the cure and it was cured. I had a ninth horse which was lame in the hind leg and I used the cure and it was cured. I had a tenth horse which was lame in the hind leg and I used the cure and it was cured. I had an eleventh horse which was lame in the hind leg and I used the cure and it was cured. I had a twelfth horse which was lame in the hind leg and I used the cure and it was cured. I had a thirteenth horse which was lame in the hind leg and I used the cure and it was cured. I had a fourteenth horse which was lame in the hind leg and I used the cure and it was cured. I had a fifteenth horse which was lame in the hind leg and I used the cure and it was cured. I had a sixteenth horse which was lame in the hind leg and I used the cure and it was cured. I had a seventeenth horse which was lame in the hind leg and I used the cure and it was cured. I had an eighteenth horse which was lame in the hind leg and I used the cure and it was cured. I had a nineteenth horse which was lame in the hind leg and I used the cure and it was cured. I had a twentieth horse which was lame in the hind leg and I used the cure and it was cured. I had a twenty-first horse which was lame in the hind leg and I used the cure and it was cured. I had a twenty-second horse which was lame in the hind leg and I used the cure and it was cured. I had a twenty-third horse which was lame in the hind leg and I used the cure and it was cured. I had a twenty-fourth horse which was lame in the hind leg and I used the cure and it was cured. I had a twenty-fifth horse which was lame in the hind leg and I used the cure and it was cured. I had a twenty-sixth horse which was lame in the hind leg and I used the cure and it was cured. I had a twenty-seventh horse which was lame in the hind leg and I used the cure and it was cured. I had a twenty-eighth horse which was lame in the hind leg and I used the cure and it was cured. I had a twenty-ninth horse which was lame in the hind leg and I used the cure and it was cured. I had a thirtieth horse which was lame in the hind leg and I used the cure and it was cured. I had a thirty-first horse which was lame in the hind leg and I used the cure and it was cured. I had a thirty-second horse which was lame in the hind leg and I used the cure and it was cured. I had a thirty-third horse which was lame in the hind leg and I used the cure and it was cured. I had a thirty-fourth horse which was lame in the hind leg and I used the cure and it was cured. I had a thirty-fifth horse which was lame in the hind leg and I used the cure and it was cured. I had a thirty-sixth horse which was lame in the hind leg and I used the cure and it was cured. I had a thirty-seventh horse which was lame in the hind leg and I used the cure and it was cured. I had a thirty-eighth horse which was lame in the hind leg and I used the cure and it was cured. I had a thirty-ninth horse which was lame in the hind leg and I used the cure and it was cured. I had a fortieth horse which was lame in the hind leg and I used the cure and it was cured. I had a forty-first horse which was lame in the hind leg and I used the cure and it was cured. I had a forty-second horse which was lame in the hind leg and I used the cure and it was cured. I had a forty-third horse which was lame in the hind leg and I used the cure and it was cured. I had a forty-fourth horse which was lame in the hind leg and I used the cure and it was cured. I had a forty-fifth horse which was lame in the hind leg and I used the cure and it was cured. I had a forty-sixth horse which was lame in the hind leg and I used the cure and it was cured. I had a forty-seventh horse which was lame in the hind leg and I used the cure and it was cured. I had a forty-eighth horse which was lame in the hind leg and I used the cure and it was cured. I had a forty-ninth horse which was lame in the hind leg and I used the cure and it was cured. I had a fiftieth horse which was lame in the hind leg and I used the cure and it was cured. I had a fifty-first horse which was lame in the hind leg and I used the cure and it was cured. I had a fifty-second horse which was lame in the hind leg and I used the cure and it was cured. I had a fifty-third horse which was lame in the hind leg and I used the cure and it was cured. I had a fifty-fourth horse which was lame in the hind leg and I used the cure and it was cured. I had a fifty-fifth horse which was lame in the hind leg and I used the cure and it was cured. I had a fifty-sixth horse which was lame in the hind leg and I used the cure and it was cured. I had a fifty-seventh horse which was lame in the hind leg and I used the cure and it was cured. I had a fifty-eighth horse which was lame in the hind leg and I used the cure and it was cured. I had a fifty-ninth horse which was lame in the hind leg and I used the cure and it was cured. I had a sixtieth horse which was lame in the hind leg and I used the cure and it was cured. I had a sixty-first horse which was lame in the hind leg and I used the cure and it was cured. I had a sixty-second horse which was lame in the hind leg and I used the cure and it was cured. I had a sixty-third horse which was lame in the hind leg and I used the cure and it was cured. I had a sixty-fourth horse which was lame in the hind leg and I used the cure and it was cured. I had a sixty-fifth horse which was lame in the hind leg and I used the cure and it was cured. I had a sixty-sixth horse which was lame in the hind leg and I used the cure and it was cured. I had a sixty-seventh horse which was lame in the hind leg and I used the cure and it was cured. I had a sixty-eighth horse which was lame in the hind leg and I used the cure and it was cured. I had a sixty-ninth horse which was lame in the hind leg and I used the cure and it was cured. I had a seventieth horse which was lame in the hind leg and I used the cure and it was cured. I had a seventy-first horse which was lame in the hind leg and I used the cure and it was cured. I had a seventy-second horse which was lame in the hind leg and I used the cure and it was cured. I had a seventy-third horse which was lame in the hind leg and I used the cure and it was cured. I had a seventy-fourth horse which was lame in the hind leg and I used the cure and it was cured. I had a seventy-fifth horse which was lame in the hind leg and I used the cure and it was cured. I had a seventy-sixth horse which was lame in the hind leg and I used the cure and it was cured. I had a seventy-seventh horse which was lame in the hind leg and I used the cure and it was cured. I had a seventy-eighth horse which was lame in the hind leg and I used the cure and it was cured. I had a seventy-ninth horse which was lame in the hind leg and I used the cure and it was cured. I had an eightieth horse which was lame in the hind leg and I used the cure and it was cured. I had an eighty-first horse which was lame in the hind leg and I used the cure and it was cured. I had an eighty-second horse which was lame in the hind leg and I used the cure and it was cured. I had an eighty-third horse which was lame in the hind leg and I used the cure and it was cured. I had an eighty-fourth horse which was lame in the hind leg and I used the cure and it was cured. I had an eighty-fifth horse which was lame in the hind leg and I used the cure and it was cured. I had an eighty-sixth horse which was lame in the hind leg and I used the cure and it was cured. I had an eighty-seventh horse which was lame in the hind leg and I used the cure and it was cured. I had an eighty-eighth horse which was lame in the hind leg and I used the cure and it was cured. I had an eighty-ninth horse which was lame in the hind leg and I used the cure and it was cured. I had a ninetieth horse which was lame in the hind leg and I used the cure and it was cured. I had a ninety-first horse which was lame in the hind leg and I used the cure and it was cured. I had a ninety-second horse which was lame in the hind leg and I used the cure and it was cured. I had a ninety-third horse which was lame in the hind leg and I used the cure and it was cured. I had a ninety-fourth horse which was lame in the hind leg and I used the cure and it was cured. I had a ninety-fifth horse which was lame in the hind leg and I used the cure and it was cured. I had a ninety-sixth horse which was lame in the hind leg and I used the cure and it was cured. I had a ninety-seventh horse which was lame in the hind leg and I used the cure and it was cured. I had a ninety-eighth horse which was lame in the hind leg and I used the cure and it was cured. I had a ninety-ninth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundredth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and first horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and second horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and third horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and fourth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and fifth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and sixth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and seventh horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and eighth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and ninth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and tenth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and eleventh horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and twelfth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and thirteenth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and fourteenth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and fifteenth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and sixteenth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and seventeenth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and eighteenth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and nineteenth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and twentieth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and twenty-first horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and twenty-second horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and twenty-third horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and twenty-fourth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and twenty-fifth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and twenty-sixth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and twenty-seventh horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and twenty-eighth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and twenty-ninth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and thirtieth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and thirty-first horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and thirty-second horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and thirty-third horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and thirty-fourth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and thirty-fifth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and thirty-sixth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and thirty-seventh horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and thirty-eighth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and thirty-ninth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and fortieth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and forty-first horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and forty-second horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and forty-third horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and forty-fourth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and forty-fifth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and forty-sixth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and forty-seventh horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and forty-eighth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and forty-ninth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and fiftieth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and fifty-first horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and fifty-second horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and fifty-third horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and fifty-fourth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and fifty-fifth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and fifty-sixth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and fifty-seventh horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and fifty-eighth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and fifty-ninth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and sixtieth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and sixty-first horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and sixty-second horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and sixty-third horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and sixty-fourth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and sixty-fifth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and sixty-sixth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and sixty-seventh horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and sixty-eighth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and sixty-ninth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and seventieth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and seventy-first horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and seventy-second horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and seventy-third horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and seventy-fourth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and seventy-fifth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and seventy-sixth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and seventy-seventh horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and seventy-eighth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and seventy-ninth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and eightieth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and eighty-first horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and eighty-second horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and eighty-third horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and eighty-fourth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and eighty-fifth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and eighty-sixth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and eighty-seventh horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and eighty-eighth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and eighty-ninth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and ninetieth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and ninety-first horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and ninety-second horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and ninety-third horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and ninety-fourth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and ninety-fifth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and ninety-sixth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and ninety-seventh horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and ninety-eighth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and ninety-ninth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundredth horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and first horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and second horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and third horse which was lame in the hind leg and I used the cure and it was cured. I had a hundred and fourth horse which was lame in the hind leg and I used the cure and it was cured.
