Mr. Tarte "Going For" Sir Hector Langevin.

Personnel of the Cabinet-Glencoe Gets Another Railway Connection.

OTTAWA, June 17.—Mr. Tarte does not intend to allow Sir Hector Langevin to remain much longer under suspicion of being implicated in the McGreevy scandal. He proposes to begin to convict him. He will inquire on Thursday if the Minister of Public Works authorized Mr. H. F. Perley to write the letter in which he gives Larkin, Connolly & Co. valuable hints as to how to alter their tenders for the Quebec harbor works.

Mr. Innes is inquiring into the subject of the quarantine regulations recently issued by the United States. He believes that these regulations will have a serious and injurious effect on the exportation of sheep and hogs from Canada. He will ask if the Government has received any communication from Washington on the subject or if they intend to make any effort to induce the United States Government to rescind

he regulations. The Ministry stands to-day thus: Mr. Abbott, Premier and President of the

The Toronto World says; "D'Alton McCarthy was asked to join a Ministry under Sir John Thompson, but refused to take anything except the Premiership. He was also asked to join one under Mr. Abbott, but gave a similar answer again. Mr. McCarthy endeavored to obtain a pair during his absence in Europe, but was unable to get one. Sir Donald Smith wants to leave for Europe immediately, but he, too, was unable to obtain a pair. A prominent Grand Trunk official said to night that Mr. Chapleau's statement that that company favored his appointment to the portfolio of Railways and Canals was utterly devoid of truth. The Grand Trunk, he said, expressed no opinion as to who should be Minister of Railways."

### WORK AND WAGES.

Lumbermen's Troubles Tided Over.

At a meeting of the laundresses in North London yesterday after speech-making and some wrangling 300 of the women went on strike. The laundresses demand the eighthour day and 42 pence for a day's labor. The strikers marched in a body to the establishments where "blacklegs" were employed, and after smashing the windows dragged the blacklegs away from their work, upset or emptied the washtubs, overturned the ironing tables, kicked over the clothes horses and played havoc generally. It is probable 22,000 mill operatives in Fall River, Mass., are to be asked to submit to a reduction of wages, probably mit to a reduction of wage amounting to 10 per cent.

The annual meeting of the Supreme Council of Federated Railway Employes began in Chicago Monday night. It is probable that two new new orders will be admitted to the Federation, one from Illinois and one from Lower L

London, June 17.—The Duke and Duchess

London, June 17.—The Duke and Duchess of Teck gave a garden party at White Lodge, Richmond Park, last evening, to celebrate their silver wedding. Over 1,000 relatives and friends were present, including the Prince of Wales and family, the Duke of Cambridge, Prince and Princess Christian, Prince and Princess Edward of Saxe-Weimar, foreign diplomats and leaders of the aristocracy. The Duke and Duchess received splendid presents from their relatives. The chief feature of the lawn was a richly-furnished royal tent, draped with pale blue and cream Indian silk. The grounds were dotted with Egyptian tents for smoking and refreshments and for the use of children, and an orchestra of 70 young ladies, presided over by Princess Mary Adelaide, added to the attractions of an enjoyable fete.

Trouble at the St. Clair Tunnel.

SARNIA, June 17.—The St. Clair Tunnel.

Company are perplexed by a new source of trouble. Following the cave-in a month ago on the Canadian side comes another, now on the American side. The north bank for a distance of 325 feet has caved in, filling the approach to the depth of ten feet or more. As the bank slid down the track leading to the tunnel rose up, in about the same manner as it did on the Canadian side. The mouth of the tunnel is not closed, but to the west the passage is completely wrecked, the building standing at an apple of 45 degrees on the bank. The machinery was not damaged. The building was at once made fast and the planer and engines are being removed. Along the bank are other seams, and it is probable that other cave-ins will take-place.

MARRIED IN A TENNIS COURT. Players Wedded in the Midst of an Exciting Match.

Springfield, O., June 17.—There have been weddings in balloons, yachts and store windows, but Milford Center, a small place near here, can probably lay claim to the first law tennis wedding ever solemnized in the country. For some time Andrew Bates has been laying siege to the heart of Miss Bertha Stokes. Both parties are the champion tennis players for miles around. One day Mr. Bates was pressing Miss Stokes to name the day for their marriage. "You may name it yourself if you will have the ceremony performed in the tennis court." said Miss Stokes. "Agreed," said the young man. A day or two ago 200 guests gathered on the spacious lawns of the beattiful country place of Asa Bates, father of the groom. The bride and groom were dressed in jaunty tennis costumes, as were the bridesmaid and groomsman. The four finally engaged in an exciting match. Right in the middle of it Rev. Mr. Wardell, of Milford Center, walked out on the lawn to the tennis court and raised his hand. The game was stopped and the contracting parties clasped hands, and in a few minutes the marriage vows had been spoken and Miss Stokes and Mr. Bates were man and wife. After the bridal kiss had been given they seized their racquets and finished the game. A splendid wedding banquet and an old-fashioned barn dance followed.

Both are young women of families very high in the social circles of Sussex county, and the case has excited a good deal of interest.

Report of the General Assembly Record Committee.

The Temperance Question Dealt With-Nothing Short of Prohibition Should Be Accepted as Final.

KINGSTON, June 16 .- The General Assembly resumed its deliberations this morning in St. Andrew's Church. The Record Committee reported the following statistics respecting the denominational organ:
Average circulation, 46,000 monthly; re-

sented and the following resolution proposed:

That this Assembly reaffirm the opinion of past Assemblies regarding the nature of the general liquor traffic and its evil effects on individual, family and social life, and the necessity of the faithful preaching of the Gospel to effectually overcome these evils and build up a godly, temperate and prosperous nation; that it asserts its conviction that, in the matter of legislation, nothing short of prohibition, rigidly enforced by the proper authorities, should ever be accepted as final or satisfactory, and that it is now the duty of the Dominion Parliament to enact such a law.

Rev. Allan Simpson, Halifax, moved in amendment that the words after "nation" be struck out—in other words, that no

Principal Grant declined to accept an appointment on the Foreign Missions Committee, and Dr. MacLaren took Principal Grant's place. Montreal was chosen as the next place of meeting, Crescent Street Church being selected; time second Wednesday in June. Further attention was then given to the foreign mission report. Mr. Hamilton Cassels, having resigned the secretaryship of the western mission section, the report recommended as the unanimous opinion of the committee that Dr. Fraser be appointed secretary of that division at a salary of \$2,000 and expenses. The proposal to create this salaried office provoked a long discussion, and finally Rev. D. D. The Old Made New.—Many have been the suggestions as to the best way of bringing the White Sulphur Springs, with their great chrarier properties, into more general use by the public, and all have agreed the first move to make was to have a better building. Recognizing this the present proprietor, Mr. R. Hodgins, has had the old building entirely rebuilt from the top of the tower down, and in addition has built an engine and boiler house to the east to furnish hot water. Inside the plan of the baths has been rearranged and twenty new baths put in and everything done that was needed to make a first-class bath house. The grounds surrounding the springs will be laid out in lawn, etc., and when finished will present a very attractive appearance. The value of the springs as to their healthgiving properties has been acknowledged by many medical men as well as citizens who have been benefitted by them, and this year they should be well patronized. The plunge bath is in full swing. Several new features have been added, and already is receiving a good share of support. Mr. Hodgins' efforts are highly deserving of a liberal support from the citizens of London. The Old Made New .- Many have been

respecting the denominational organ:
Average circulation, 46,000 monthly; receipts from all sources for the year, \$13,211 60; disbursements, \$9,798 65; balance in hand, \$3,412 95. The resignation of the managingeditor, Mr. Croil, and hiscolleague, Mr. Murray, was noted with great regret. The new illustrated magazine for Sabbath schools was reported to have reached a monthly circulation of 18,000. A resolution was unanimously adopted giving Mr. James Croil, editor, the sum of \$1,000 out of the balance now in hand as a slight to keen of the esteem in which his long and faithful labors are helft by the General Assembly. Mr. Murray, of Halifax, was appointed editor of the Record and the Children's Record.

In submitting the report of the Committee on Temperance, Rev. Mr. Fraser spoke briefly of the systematic work which had been done in the direction of securing prohibition legislation. It was objected, he said, that the stoppage of the manufacture and sale of liquors would most seriously disarrange the condition of the finances of the country and create an alarming loss of revenue. "What," exclaimed the speaker, "is the temporary loss of \$7,500,000 when the eternal salvation of 5,000 immortal souls annually was at stake, and there were the best reasons for believing that this disarrangement would only be temporary." The report was accepted as presented and the following resolution proposed:

That this Assembly reaffirm the opinion of past Assemblies regarding the nature of the Thomas Orchestra concert as the final gasp

I suppose that we may consider the Thomas Orchestra concert as the final gasp of the musical season, and a very enjoyable gasp it was in many respects, and one which deserved a larger attendance. Although the selections were of the highest class, I do not think that all of them were suited to a general audience. An analyse suited to a general audience. Applause was freely bestowed, but one could very plairly see that the numbers which really "took" were the Mendelssohn "Scherzo," so fresh and sparkling and ever-welcome.

and that it is now the duty of the Dominion Pallament to enact such a law.

Rev. Allan Sinpson, Halifax, moved in a mendment that the words after "nation" be struck out—in other words, that no opinion on prohibition be expressed, but simply a general reaffirmation of the necessity of aggressive temperance work. Mr.¡Simpson was heard very impatiently by the Assembly and frequently interrupted by cries of dissent and disapproval. The amendment only received the support of eleven members, and the original resolution subsequently passed with only one dissentient vote.

The mission report was taken up. The estimates for the coming year were adopted as follows: For the western missions \$95,000, about the same as lastyear; for the eastern missions \$30,600, an increase of \$5,000.
