

Penn's Treaty

William Penn bought lands from King Charles, for his colony, then traded with the Indians for the same grounds. He paid a double price—very much like the man who buys tailor-made clothing.

The tailor is busy only about ten to twelve weeks each season, the balance of the time he is practically doing nothing. He must of necessity charge such prices as will allow for the long period of his idleness. His clothing cannot be better than ours, neither can it be better made. Our garments are equal to the tailor's in every detail except price. Fit-Reform Clothing Company make them.

Suits or Overcoats—\$10, \$12, \$15, \$18, \$20.

Trousers—\$3, \$4, \$5, \$6.

THE IRISH FLAG

Will Fly From the Mansion House on St. Patrick's Day.

Smallpox Epidemic in the French Capital—Theater Francaise to Be Rebuilt.

According to private letters just received from Paris, smallpox is epidemic in the French capital, and the writers advise those who contemplate a trip there this summer to be first vaccinated.

London, March 12.—The lord mayor, Mr. A. J. Newton, has directed that the Irish flag be hoisted over the Mansion House on St. Patrick's Day, in recognition of the bravery of the Irish troops in South Africa.

THE THEATER FRANCAISE.

Paris, March 12.—Paris, which has been vainly yearning for a sensation, found ample excitement in the destruction of the Theater Francaise, which overshadows every other topic of interest. Little damage is noticeable from the outside of the building, as the main wall of the theater, surrounded by galleries, in which are situated the offices and dressing-rooms, is still standing, and it is hoped to reconstruct the interior without rebuilding this wall. The government has decided that the work of reconstruction shall proceed immediately, for which a credit of 3,000,000 francs will be asked.

THE WAR LOAN.

London, March 12.—It is estimated that the war loan was over-subscribed within two hours on Saturday.

The new war loan, which the Stock Exchange has christened "khaliks," has been already thrice covered, exclusive of applications from the provinces, the colonies and the continent. Dealings took place at 2 1/4 to 2 1/2 per cent premium.

NOTES.

Some of the Paris Exposition buildings cannot be ready before the date set for the installation of exhibits, and some departments will be incomplete for weeks after that date, but the exposition will be formally opened as announced.

The cargo of the United States auxiliary cruiser Prairie is arriving in Paris at the rate of twenty carloads daily. They are unloaded as fast as they arrive, and there is no congestion such as occurred at the Chicago exposition.

The French newspapers publish a statement of the American losses in the Philippines furnished by Agoncillo, the Philippine agent, which even the papers publishing it describe as fantastic. According to the figures, 6,339 American soldiers have been killed and 17,349 wounded between February and November, 1899, without reckoning the losses by disease.

THERE IS NO SENSE

In Feeling Miserable When

You Can Be So Easily Cured.

Dr. Ward's Blood and Nerve Pills have been a great boon to my daughter Maggie. Prior to taking them she had been suffering from excessive nervousness for a long time, and her nerves were in a terribly shattered condition. The action of the heart was so weak that it did not have strength to perform its functions, causing violent palpitation and smothering after retiring. Frequently on account of this smothering sensation she was afraid to go to bed. Slight exertion exhausted her and caused shortness of breath. Her blood was impoverished and lost vitality, and she had no appetite. She was wasting away and was very hypochondriacal, feeling dejected all the time. Last December she began taking Dr. Ward's Blood and Nerve Pills, and she improved at once. Her blood became healthy and strong, and in six weeks her impaired nervous system was restored to its normal healthy condition. Her heart responded to the healthy condition of her blood and nerves, and resumed its strong and healthy functions. She now sleeps without any of the dangerous, distressing, smothering and choking spells, her appetite is good and she has gained in flesh. Healthy color has replaced pallor, and she is now well and strong, thanks to Dr. Ward's Blood and Nerve Pills. I thank you, gentlemen, for the remedy that has restored my daughter to health.

Western Ontario Cheese and Butter Association Arrangements for the Season.

At a meeting of the directors of the Western Ontario Cheese and Butter Association held on Friday in Brantford, arrangements were completed for the work of the association during the coming season. There were present: Messrs. E. M. Bullantyne, Stratford, president; A. Wenger, Aylton, James Connolly, Porter Hill; J. H. Paget, Candor; H. Eagle, Atercliffe Station; Robt. Johnston, Bright; Geo. H. Barr, Sebringville; Geo. C. Goodhand, Milverton; Murdoch Morrison, Hamilton.

Mr. Goodhand placed his Milverton cheese factory, free of charge, at the disposal of the directors for illustration and experimental purposes during the coming season, and Mr. A. Smith, superintendent Western Dairy School, was appointed officer in charge of the station. He will conduct experiments in fermentation and curd tests, and illustrate the latest and most improved methods of cheese factory operation. Mr. Smith begins his duties at the experimental station in April, and is to be in attendance there every alternate week until the middle of October.

The president and Messrs. Goodhand and Barr were appointed a committee to advise with Mr. Smith as to illustrations and experiments.

The following were appointed instructors at factories and creameries: Jas. Morrison, Brantford, for cheese factories in the counties of Oxford, Norfolk, Haldimand, Welland, Lincoln, Wentworth, Brant, Halton, Peel and Waterloo; A. Smith, Dairy School, Strathroy, at cheese factories in the counties of Essex, Kent, Elgin, and the northwestern Middlesex and Lambton lying south of the Grand Trunk Railway, running from Stratford via London to Sarnia; George McDonald, Bluevale, at all the cheese factories, not situated in any of the foregoing.

The instructors' duties will include the making of fermentation tests at factories when such tests have been duly applied for by the managers.

WEAKNESS OF HOSPITALS

Said To Be Incapable of Curing One of the Most Deadly Diseases of the Age.

Montreal, March 12.—Mr. Wm. Brownley tells an alarming story of utter failure of the hospitals to cure him of Bright's Disease. He was treated in the best hospitals both in Canada and the United States. They gave him up as incurable. Medical science had failed; the hospitals were powerless to help him. Nevertheless Mr. Brownley is cured. Dodd's Kidney pills cured him, and he is a well man today.

Says Mr. Brownley himself: "I have been subject to Bright's Disease of the Kidneys for many years. I have been in all the best hospitals in Canada and the United States. I could get no relief. I have just finished eleven doses of Dodd's Kidney Pills, and am completely cured. I am a locomotive engineer, and well-known, so many can vouch for this statement."

WELL-MERITED PRAISE.

The Chatham Banner on Friday gave an extended account of the dedication of the new I. O. O. F. Temple there. A handsome illustrated supplement contains a portrait of Dr. Cl. T. Campbell, of this city, past grand sire and chairman of the committee on Oddfellows' home for Ontario, and an accompanying biographical sketch concludes with the following: "Dr. Campbell is a genial, warmhearted gentleman and on his left a Victorian in the order, and deserves all the popularity he has attained. The Order of Oddfellowship owes much to him for the proud position it now occupies in Ontario."

A NEW ZEALANDER'S TRIBUTE.

In writing to the New Zealand Times a member of the Australian contingent says: "As far as physique is concerned, the Canadians take an easy lead. They are the finest body of men that has yet come here except her Majesty's Guards. They have as a rule a light, springy, devil-may-care sort of a swagger. They had all a lank neck handed to each of them, and past grand sire and chairman of the committee on Oddfellows' home for Ontario, and an accompanying biographical sketch concludes with the following: "Dr. Campbell is a genial, warmhearted gentleman and on his left a Victorian in the order, and deserves all the popularity he has attained. The Order of Oddfellowship owes much to him for the proud position it now occupies in Ontario."
