St. Petersburg, Oct. 13.-The story cabled from Shanghai to the London Daily Telegraph by Bennett Burleigh, that Oyama will be recalled, and that Gen. The new duty of \$7 a ton on steel rails completely shuts out the American man-ufacturers, and as their Canadian market is becoming a very important one, the only way out of the difficulty is to build a manufacturing plant in this country. Experts say that a plant such as the Steel corporation would like to put up, would cost from twelve to thirteen milion dollars.
