GRAY-DORT

SAYS DRURY CHANGES LIKE A CHAMELEON

M. MacBride, M.P.P., Wonders Farmers Have Any Faith In Premier.

Brantford, April 28.—That the mention of T. Herbert Lennox, Toronto lawyer, as the next attorney-general of the province is pure propaganda on the part of the Raney element, was a statement made here by M. MacBride, M. P. P., at a large meeting held in West Brantford. He said that the country was praying for someone broadminded enough and strong enough to fill the position in order to lead the province from under the reign of terror of Mr. Raney. Referring to Premier Drury's return to the U. P. O. the member for South Brant likened him to a chameleon who could change the color of his skin at will. The premier changed his party as often as possible, and it would be more than strange if the farmers continued to have any faith in him. "He will

double-cross them as sure as fate," he stated. "Just wait till after the election, and if he is returned you will see."

Bird Notes

Contributed by The Melbourn Ornithological Club

It is the intention of the Bird Club to publish in each Saturday's notes a list of the birds that are to be expected in the coming week. The dates of arrival vary, of course, but just as one might expect, and the condition of the season a few days previous to the date of arrival at most invariably determines whether the birds shall be early or late.

On the 28th the Ruddy Duck, the Swift, and the Eave Swallow are due; but the Ruddy Duck is already here. On the 30th the House Wren, the Greater Yellowlegs, Barnard's Sandpiper, the Roughwing Swallow, and the Yellow Warbler, and all of these but the last are already here.

On the 1st of May, the Titlark, Redbreast, Nuthatch and Bonaparte's Gull, the Black and White Warbler and the Louisiana Water Thrush.

On May 2, the Pine Warbler, the Lesser Yellowlegs, Redhead Woodpecker, Whipoorwill, Blackthroat Green Warbler and the Catbird.

On May 4, the Warbling Vireo, Least Flycatcher, Bobolink and the Baltimore Oriole.

On May 5, the Palm Warbler, Ovenbird, Northern Water Thrush and the Green Heron.

On May 6, the Gnatcatcher, Wilson's Thrush, Bluehead, Vireo, Goldfinch and the Crested Flycatcher.

On May 7, the Kingbird, Bank Swallow, Yellow Throat Vireo, Pintail Duck and Virginia Rail.

Due to the warm weather all of these species may be looked for from one to four days earlier than normal, but a change in the weather would delay them, immediately.

W. E. SAUNDERS.

SUFFERED SO FROM HEART AND NERVES

Life Was a Burden

Mr. A. H. Lee, Beamsville, Ont., writes: "I am delighted to let you know what I have to say regarding the good Milburn's Heart and Nerve Pills did me."

"A short time ago I suffered with heart and nerve trouble, and was so bad I could not sleep, only about two hours each night. My heart was so bad I had spells when driving on the road and would faint away, and neighbors would carry me in from my wagon. I also took these pills in the night and during my daily work on the farm. My nerves were so bad I would jump out of bed, and was then compelled to walk the floor before I could settle down again, but after taking a few boxes of

MILBURN'S HEART AND NERVE PILLS

I can honestly say I am a relieved man. I now feel in the best of health, in fact, the best I've been in for three years and can do any class of work with pleasure where before life was a burden to me."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.—Adv.

IMPERIAL TOBACCO COMPANY OF CANADA, LIMITED

The Chevrolet is Sturdily Built for Canadian Conditions

Chevrolet is built with a strength and ruggedness that make it the ideal car for Canadian conditions.

As the world's largest manufacturer of fully-equipped, quality automobiles, Chevrolet is able to effect savings in the cost of materials and manufacture. Chevrolet's immense sales absorbs overhead expenses and make it possible to sell the individual car at a smaller profit.

Thus Chevrolet is able to produce a high-class, handsome, quality car—strong, durable and with refinements and appointments usually found only in more expensive cars. Sturdily built with a powerful valve-in-head motor and the best finish possible, Chevrolet meets effectually every Canadian condition.

It has the power and stability to go any place that any other car can go and many places where others cannot go. It has remarkable ability to travel rough roads.

Moreover, Chevrolet is the most
