CABLE LETTER.

The Real Work of Parliament-Tim Healy Becoming Jealous of Edward Blake.

Representatives of Labor in the House -The Cobden Club on Trade Relations.

Bismarck's Popularity-To Stop the Spread of Cholera-The Eastern Question.

LONDON, Aug. 6 .- The coming week will

en and Pfalz will be on Metz during the Emperor's visit in the province. The object of the managers of the enterprise has been to show by it the the enterprise has been to show by it the progress made by the annexed provinces since they came under German rule. The Emperor has promised to encourage the enterprise by his presence, and he may talk, although it is hoped by all except the Chauvinists, that he will remain quiet, as France is likely to watch with extreme irritation, both the manœuvres on her borders and the exhibition with its unpalatable associations. It is announced, with good authority, that the Emperor of Germany will be satisfied with the addition of 40,000 men to the standing army, and the organization and equipment of 50 new batteries. Other changes necessitating some new expenditures, will be proposed in the nex session of the Reichstag, but they will not be Radical ones.

The Cobden Club held its annual meeting this afterneon. The annual report showed that an enormous number of pamphlets had been sent out containing arguments to prove that Lord Salisbury was all wrong in his Hastings speech in which he showed a leaning toward protection. The pamphlets declared that Salisbury's account of the origin of Free Trade was entirely erroneous, as well as his statements as to the effects of commercial freedom upon England's development. The trade of Great Britain was declared by report to be increasing depitte the gloomy croaking of the fair traders. Sir Charles Tupper's scheme of reciprocity was condemned on the ground that Canada's trade was but a trifle in comparison with that of the United. States. The report also expressed doubt whether free trade with the strength of the condense of the containing arguments to prove that Lord Salisbury was all wrong in his Hastings speech in which he showed aleaning toward protection. The pamphlets declared that Lord Salisbury was all wrong in his that Lord Salis

It seems that the Bismarck demonstration at the Halle station, last week, was squelched virtually by the Government railway officials in obedience to orders from Berlin. The committee of Societies in Halle were not permitted to decorate or illuminate the station and all who wished to cheer the enthusiast was admitted to the waiting aroms or platforms. This is a new form of what the Hamburger Nachrichten calls the "boycotting of Prince Bismarck." The Prince and Princess Bismarck arrived at Spandau, at 11 35 o'clock this morning on their way to pay a visit to the exchancellor's brother at Naguard, Prussia. They were cordially greeted by the large crowd gathered at the railway station, and Prince Bismarck pleasantly recognized the popular tribute. In passing through Berlin, Bismarck was welcomed at the railway station by about 1,200 people. He made a brief speech, in which he said that he returned in a much more contented frame of mind than he had left Freidrichsurher. thusiast was admitted to the waiting

frame of mind than he had left Freidrichsruhe. He was contented with the present situation, and entertained bright hopes of the future. Prince Bismarck was presented with flowers, which, in a spirit of galety, he threw among the people. He also drank wine, and toasted the city and citizens of Berlin.

RELATIONS WITH THE AMREE.

A prominent topic of discussion as regards foreign affairs is the situation on the Indian frontier. The attitude of the Ameer of Cabul in persisting in his attack upon states friendly to Great Britain causes no little anxiety. The proposal to send General Roberts to confer with the Ameer at Cabulis likely to be modified. The Indian gov-

ernment now proposes that the Ameer shall meet General Roberts at Jellalabad. The suggestion to employ General Roberts on the mission is criticised as perhaps injudicious. It is not questioned that he has an intimate knowledge of Afghan and Indian affairs, but it is feared that the Afghans will resent the choice of one, who in the past has proven himself a formidable antagonist, to deal with them now in a time of peace. The Afghans are known to be suspicious and revengeful, and it is also known that the Ameer has long regarded with distrust the military party in India.

In his visit to the Ameer of Afghanistan, General Roberts will take with him handsome presents from the Queen and the Vice-

some presents from the Queen and the Vice-roy of India with the object of inducing the Ameer to co-operate with Great Britain in the event of a Russian advance upon India.

MINOR OFFICE PERPLEXITIES.

London, Aug. 6.—The coming week will witness the opening of the real work of Parliament. The Irish members, including the Parnellites, are ready to give an undivided support to Mr. Gladstone in getting rid of the Tory.Government, and in the introduction and passage of a Home Rule bill. The chief trouble seems to be with the English Liberals, who, now that they have their seats, appear to have cooled considerably on the Home Rule issue. It is said that some of them are anxious to oust the Tories, and get the offices with the aid of the Irish, but have no further use for the Irish, after those points have been gained. Day after day, it becomes more evident that the enactment of a Home Rule measure depends upon the ability of Mr. Gladstone to continue in

of the Liberal party. Members of the party who gave a tacit and, apparently, loyal support to Home Rule when an adverse

THE KAISEE'S PROGRAMME.

Emperor William's plans for the Fall are rather elaborate. After the accouchement of the Empress, which will take place in a few days, he will review in detail with his Ministers the work to be laid before the coming session of Parliament. He will attend the grand Sedan review on the Tempel-hofer Field, on September 2nd, and then will probably take a few days' elk hunting with King Oscar, in Sweden; thence he will go to the military review at Coblenz, then to the manœuvres near Metz. Despite the warnings that plots to assassinate him have been anspected, the Emperor will wander up and down the German frontier inspecting the troops, looking over his new estate, and testing the quality of the wines which various town councils, after nights of argument and sampling, have decided to set before him during his visit. The art and industry exhibition of Alsace-Lorraine, Baden and Pfalz will be opened at Metz during the Emperor's visit in the Metal and the control of provisions, especially of milk, vegetables and meat, the institution of sufficient machinery replace.

The westward course of the cholera is creating great anxiety everywhere among of its eating great anxiety everywhere among the sanitary authorities, and Germany, france and Great Britain are adopting extraordinary precautiona. A Berlin despendence of the sanitary procautiona. A Berlin despendence of the sanitary authorities, and Germany, france and Great Britain are adopting extraordinary procautiona. A Berlin despendence of the sanitary authorities, and Germany, france and Great Britain are adopting extraordinary procautiona. A Berlin despendence of the buildings, all immigrants from the infected districts will arrive. The Sanitary Commission appointed by the Government. At this station, which consists largely of corrugated iron buildings, all immigrants from the infected districts will arrive. The Sanitary Commission, which was summoned at Posen to discuss the measures to be taken against a possible introduction of cholera, bas a

Some in the local cutoria, the strictly investigate the qualifications of the provent undesirable emigrants from being sent away and refused a landing on the strictly is not long to enjoy that distinction. Already plans have been prepared for a steamer of different model but about equal in size to the Islander, and these plans, it is understood, are now in the hands of the Albion Iron Works company. Particulars of the projected steamer are withheld for the present, no contract having yet been entered into, but it is understood that if she is built she will in speed, elegance and freight carrying ability equal anything affoat in British Columbia or Puget Sound waters. The principals for the present is to be built are understood to be the Crofter Colonization Company, and it is also rumored that the Sir James Douglas will be pressed into service until the completion of the bigger and better boat.

The C.P.R. steamer Empress of India, with a full cargo and a larger passenger list than usual outward. The following are the passing the results of the house of the heard shots. The men were shooting promiscuously, and Evans ran towards the gate between Smith and myself: Smith fired twice, and one ball whizzed by in uncomfortable prezimity to my head. Evans got out safe, and Smith staggered as though badly hart. He continued following Evans until he reached the gate, when he motioned me to odrive him to the sheriff's office as fast as a possible. I tool him I could head the men of who were running across the vacant lot. He said: "Take me to town, I am shot." I asked him to give me his revolver and I would stop them. He refused and acted as though seriously wounded. I then drove to the sheriff's office as fast as I could."

Denny is an old man, aged about sixty years. Wisalia is in a lever of excitement over the encounter with Gontag and Evans, who are undoubtedly the train robbers. Every available man immediately started in pursuit, all armed to the heart of the house. The men were shooting promiscuously, and Evans ran towards the gate between Smith and myself: Smith fired twice, and one ball whizzed by in uncomfortable prezimity to my head. Evans got out safe, and Smith staggered as
