

CHINESE COMPLICATIONS.

THE FRENCH PREMIER AFTER MORE MONEY.

Paris, Nov. 28.—Premier Ferry, minister for war, and the minister of marine today attended the meeting of the committee of the chamber of deputies upon the Tonquin credits. M. Ferry imparted to the committee the contents of the Chinese memorandum. The committee unanimously approved the French reply thereto and decided that it would be unnecessary to bring matters before the chambers prior to the debate upon the credits because there existed no diplomatic rupture, and the government had promised that the yellow book should contain the memorandum and the reply.

They stated that France had imposed upon the government of Annam an unjust treaty and had ignored the rights of China. France had invaded Annam and manifested an intention to take Bacninh, the key to the Chinese empire. China desired nevertheless to maintain pacific relations with France, but the Chinese troops would be compelled to resist any aggression. To avert bloodshed China appealed to the traditions of honor and loyalty cherished by France and expressed the regrets which she felt if events forced China to make her rights respected.

The French reply declared that France had no wish to disturb the peace of Tonquin, but that the sole object of the Hue treaty was to define the terms of the treaty of 1874, that in order to consolidate the protocol of Tonquin France considered it expedient to occupy Bacninh and Sontay, but there was nothing to prevent an equitable arrangement of the question on these bases.

Gen. Campano stated that measures had been taken to despatch 6000 troops forthwith to Tonquin. Admiral Ferry informed the committee that he had received no fresh despatches from Admiral Courbet, whose operations had commenced at the date of his last despatch. He announced that he had completed the concentration of his forces for the attack upon Bacninh. He believed that Admiral Courbet awaited the arrival due in Tonquin to day. Admiral Courbet had given full latitude to act in every way, and he (Admiral Ferry) was in every confidence in his prudence and energy.

The committee met again this afternoon. In the chamber of deputies today M. Clemenceau on behalf of the extreme left requested M. Ferry to furnish an explanation relative to the Chinese memorandum. M. Ferry declined. M. Clemenceau will all give the question to morrow. He repeated the question to morrow. He repeated the question to morrow. He repeated the question to morrow.

It is stated M. Ferry has requested the committee upon the Tonquin credits to postpone their report to the chamber for three days. The report has informed the government that he cannot advance upon Tonquin without additional reinforcements.

Gen. Milot is sent to Tonquin he will go direct to the passes by which the Chinese troops entered Tonquin and will cut off their base of operations and prevent the enemy recruiting. The gunboat Farly has been ordered to Tonquin.
