A. E. AMES, - 46 King-st. W. John J. Dixon & Co. received the following despatch over their private wire from HenryAllen & Co. of New York: Quotations have been heavy to-day. Some efforts have been made to boost stocks, but they were largely wasted endeavors. There are evidences that more gold is going to be shipped. One foreign house has already-booked an order for \$000,000 by Saturday's steamers. This of course is subject to modification or entire cancellation, but at the present time the indications are that it will increase rather than diminish. While there is no pressure to sell stocks by heavy holders there are no indications of a desire on the part of anybody to increase their loads. The Western Traffic Associatinn meeting to-day has been devoid of interest. Mr. Gould's joint agency scheme has been postponed until the fall. This is bad; it wipes out the only possible bull factor which could be expected from the meeting. Mr. Gould is talking bullish, but his stocks are not supporting his rhetoric.
