Ex-Guelphites Meet.

A meeting of ex-residents of Guelph was Spadina-avenue, when arrangements were Spadina-avenue, when arrangements were made for an excursion to the Royal City on Civic Holiday, Aug. 28. Three hundred and fifty Guelphites now residing in Toronto have signified their intention of making a visit to their old home. James Massey was elected chairman of the meeting and Mr. W. R. Jacobs & Sparrow's Opera House. Jacobs & Sparrow's Opera House.

The next attraction at Jacobs & Sparrow's Opera House on Monday next, Aug. 21, with matinees Tuesday, Thursday and Saturday, will be "The Cruiskeen Lawn," by the well-known author-actor, Mr. Dan McCarthy. This piece is an excellent example of Irish comedy-drama. All that makes this style of entertainment strong in popular favor has been incorporated in this play. Repeated production has brought about an excellent general effect, and the dramatic and humorous situations furnish intense pleasure. Mr. Frank G. Mack, who plays the leading role, is an excellent actor and is supported by an unusually clever company.

The Magistrate Was Lenient,
At Osgoode Hall yesterday Solicitor Dymond
applied for a mandamus to compel Magistrate
O'Loane, Stratford, to inflict punishment on a
lad named Blair. The youth pleaded guilty to
having stolen letters from the Stratford postoffice and was allowed to go on suspended sentence. Now, the ponaity called for is three or
four years' imprisonment and the Attorney-General's Department disapproves of O'Loane's
leniency. The motion was laid over until after
vacation.

TILSONBURG, Aug. 18.—Last night a window in the rear of Foster & Hobbs' hardware store was cut out and an entrance made. The thief after making a suitable selection opened the front door and made his exit. Value of the goods stolen is not known.

Why suffer from disorders caused by impure blood, when thousands are being cured by using Northrop & Lyman's Vegetable Discovery? It removes pinples and eruptions of the skin. Mr. John C. Fox, Olinda, writes: "Northrop & Lyman's Vegetable Discovery is giving good satisfaction. Those who have used it say it has done them more good than anything they have ever taken."

The young man who were his hair long and talked music had been to call on the young lady, and when he took his leave she went into the library where her father was and threw herself on a sofa wearily.

"Tired?" enquired the father.

"He's been talking music in the abstract," was all she said.

"What did he say about it?"
"Well," she replied, "he said that the musical faculty is located in the second frontal convolution of the brain, and as

frontal convolution of the brain, and as it has a centre in each cerebral hemisphere, a strong development of it expands the temporal region of the cranium, about where the hair begins."

"Was that all?" smiled the father.

"Oh, no! He said further that the temperament on mixture of the bodily elementa must also be carefully considered, and as the tone art is so largely a matter of feeling and suggestion, the degree of sensitiveness and responsiveness in the fibre of the individual will be only second in importance to the development of the brain."

"Why didn't you ask him to sing after that?"

"I did, papa, I did." sighed the girl.
