The Public Accounts Committee Warden Massie was under examination again yesterday at the Public Accounts Committee of the Legislature and binder twine was the theme of his story. He gave a lot of statistics and quotations showing the prices of manilla last year with the object of showing that Inspector Noxon was wrong in saying that no loss had been sustained by his purchases. He would not gay positively that there were also and women approaching confinement. a lot of statistics and quotations showing the prices of manilla last year with the object of showing that Inspector Noxon was wrong in saying that no loss had been sustained by his purchases. The committee met again at 2 p.m., when John Scully was examined in reference to the Central Prison brick deal. He asserted that Stewart came to his office and asked him to go with him to the Central Prison. Stewart refused to give less than \$4.75 per 1000 for the brick, and he represented to Hon. Mr. Gibson that the offer was a fair one and used his influence to

THE GAS MAINS EXEMPTION And Several Other Measures Pass the

Business was lively in the Municipal Committee yesterday morning, a consider able grist of measures being turned out. Mr. O'Connor's bill exempting gas mains, etc., from assessment was put through, with some amendments introduced by Mr. Gar-row providing that the Act shall extend to the wires and other fixtures of a telephone or electric light company which are partly on a road and partly carried over or along buildings, but shall not affect assessments heretofore made or taxes imposed or collected. Each company shall be assessed in lected. Each company shall be assessed in each municipality on the net profits earned by it therein, and shareholders shall continue to be assessed on the income derived from such companies. The proceedings were enlivened by a spat between Mr. Whitney and Mr. E. F. Clarke, the former accusing the Toronto members of regarding all questions from a Toronto standpoint, and Mr. Clarke indignantly repelling the charge and speaking strongly against the bill. Dr. Ryerson supported the measure on the ostensible ground that the effect would be to affect the price of gas.

The amendments were adopted by a vote of 31 to 10.

of 31 to 10.

Mr. McColl's bill to extend the amount of income exempted from taxation from \$700 to \$1000 was opposed by City Solicitor Caswell and was thrown out by a vote of 27 to 6.

Two bills of Mr. Harty's providing that

boards of police commissioners shall select a chairman at the first meeting after the Mayor has taken his seat and authorizing towns, cities and villages to construct bould vards were adopted.

Mr. Awrey's bill to enable municipalities to give grants to agricultural societies not

ncorporated was passed.

Dr. Gilmour's bill giving municipal counpower to repeal street railway nchises after the time limit had elapsed and to return bonuses to the taxpayers was opposed by Mr. Bronson on the ground that the companies interested had not been heard, and with the usual solicitude for the interest of monopolists that prevails in this committee, was thrown out.

Commented Upon Unfavorably by British Financial Papers. LONDON, April 20.—[Telegram Special.]— The Grand Trunk Railway Company's report for the half year ended Dec. 31, 1893, shows the gross receipts for that period to be £2,155,183, and the working expenses £1,571,. £2,155,183, and the working expenses £1,571.\$60. The net traffic receipts are £600,237, and the Chicago and Grand Trunk and Detroit and Milwaukee deficiencies reduce the net revenue to £577,505. With the preference charges deducted the not revenue further shrinks to £84,902, and the outlay for the new station at Toronto will leave the surplus to barely exceed £5650. It is more than probable that the shareholders will be asked to sanction a fresh borrowing by the directors.

onomy Necessary Owing to Decreasing London, April 20.—The semi-annual report of the Grand Trunk Railway Company was issued this afternoon. It attributes the disappointing results of the past half-year's traffic to the severe business depression in the United States, the low price of wheat throughout America and the uncertainty felt because of the proposed tariff changes. These and other causes so interfered with their traffic that the loss amounted to no less than £130,000 in freight receipts alone during the past half year. The failure yesterday of John M. French & Co., dealers and manufacturers of paints and oils, Adelaide-street west, took many by surprise. Liabilities are about \$15,000 and assets nominally the same. The Canada Paint Company is a creditor to the extent of about \$1600, and it is not likely that unsecured creditors will get much out of the estate. An assignment has been made to Mr. R. Tew, and the creditors will meet on the 25th inst.

DEAR Sins.—I had an abscess on my breas and scrofula of the very worst kind, the doctor said. I got so weak that I could not walk around the house without taking hold of chairs to support me. The doctors treated me for threyears, and at last said there was no hope forme. I asked if I might take B.B.B. and they said twould do me no harm, so I began to take it and before three bottles were used I felt great benefit. I have now taken six bottles and an early well. I find Burdock Blood Bitters of grand blood purifier and very good for children as a spring medicine.

on the Grangers.

Henry A. King & Co. special wire from Hubbard, Frice & Co., New York: A prominent Chicago grain operator is said to be identified with the new buil pool in St. Paul. The statement of net earnings for March has materially influenced sentiment in favor of the stock, but the statement that the road was operated for less than 60 per cent. of the gross earnings is received with incredulity by a great many people in Wall-street who are thoroughly conversant with railroad management, N.Y.C., B.Q. and R.I. responded, as a result of which shorts were induced to cover. Industrials continue to show marked strengthed by C. Gas, Sugar and Cordage. The steady absorption of Gas and the support it receives from inside interests is remarkable in face of the bearish reports from Chicago regarding the probable tenor of the Attorney-General's decision. Cordage was active and a point over the opening at 1 o'clock on reports of improvement which will increase profits.

Continental advices come weaker in sympathy with American mateus. Exports light and less inquiry at scaboard from exporters. Interior receipts to-day have fallen below 200,000. Seeding operations in the Northwest are still delayed by cold and wet weather. The California weekly weather bulletin issued by the Government says that grain crops in San Jonquin Valley and Lower Platte are almost a failure, but the situation is much better in the Sacramento Valley. Reports from Kansas are less encouraging. Many fields are being plowed up. The rains having developed the fact that the wheat had been killed we look for ansettled market and possibly a heavy one for a

Henry A. King & Co.'s special wire from Logan & Co., Chicago:

To-day's market has been somewhat narrow and moderately weak and firm by turns. Liquidation of May was going along to a fair extent. Weather in spring wheat sections wet and cold and retarding seeding.

Foreign advices from Continent were lower, but Liverpool quoted futures for red wheat quarter pensy higher. Clearances 137,000. In wheat and flour, primary receipts are falling off, especially in the Northwest. The feeling towards the close was rather firm. Do your SLOW accounts keep you awakenights. SLOW NO NEED TO.
