

WOMAN IN TERRIBLE STATE

Finds Help in Lydia E. Pinkham's Vegetable Compound.

Cape Wolfe, Canada.—"Last March I was a complete wreck. I had given up all hope of getting better or living any length of time, as I was such a sufferer from female troubles. But I took Lydia E. Pinkham's Vegetable Compound, and today I am in good health and have a pair of twin boys two months old and growing finely. I surprised doctors and neighbors for they all know what a wreck I was.

"Now I am healthy, happy and hearty, and owe it all to Lydia E. Pinkham's remedies. You may publish this letter if you like. I think if more women used your remedies they would have better health."—Mrs. J. T. Cook, Lot No. 7, Cape Wolfe, P. E. I., Canada.

Because your case is a difficult one, and doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has remedied many cases of female ills, such as inflammation, ulceration, displacements, tumors, irregularities, periodic pains, backache, and it may be exactly what you need.

The Pinkham record is a proud and peerless one. It is a record of constant victory over the obstinate ills that women suffer from.

Why don't you try it if you need such a medicine?

NOTE AND COMMENT

Germany's foreign trade is excess of \$8,000,000 per day. You will be doing a patriotic service, Mr. Manufacturer, by capturing as much of it as possible, Mr. Citizen, your patriotism can be shown by refusing to buy German-made goods and demanding made-in-Canada or British-made goods.

If Gen. Sherman were alive, the New York Sun declares that he would have to apologize to hell. The war of his time was but an innocent, harmless killing game. The dropping of bombs in Antwerp to produce random destruction with no military results, to slay little children and young mothers in their beds, is, the Sun says, an archdeed of pitiless savagery against which all civilized nations should raise their voices.

The Canadian Churchman tells of a wonderful piece of microscopic engraving accomplished by a Jewish farmer in Alberta, who wrote, on a grain of wheat, in Hebrew characters an address of welcome to the Duke of Connaught. The address contained 300 letters and was so fine as to require a powerful microscope to

read the inscription.

Christian Herald.—From the Christian era to the present time, as statisticians and historians tell us, there have been less than 240 warless years. Up to the middle of the nineteenth century, it was roughly computed that nearly 7,000,000,000 men had died in battle since the beginning of recorded history, a number equal to almost five times the present estimated population of the globe.

The total tonnage carried through the canals at Sault Ste. Marie during the season of 1913 was 79,718,344 tons, which is 7,245,668 tons more than 1912. Of this amount 37,022,201 tons passed through the American locks and 42,696,143 through the Canadian, although only about half as many vessels used the Canadian lock, thus showing that the largest vessels use the Canadian canal. The United States canal was open 245 days, and the Canadian canal 246 days.

The prices of meat dropped three or four cents per pound last week in New York just because people would not pay them. It's the bright side of the shield in all the talk about dear food. If the people really wish it they have a simple remedy at hand. We all eat more than we should. If meat advances five cents per pound, sugar two cents, bread so much per loaf, milk two cents a quart the average family can rearrange its daily bill of fare and live quite appetizingly enough and more healthfully for less money than it has been in the custom of spending.

A puddingless Christmas is the latest prediction. Don't worry. Though nuts and raisins grow scarce we shall find something to make puddings of and some reasons for a Merry Christmas. We shall have our trials between now and then, but this old world is not going to be lost in a welter of blood and anarchy. It will not be ruled by murderers dropping bombs from the midnight sky upon the helpless inhabitants of a city of harmless people. There is more good than evil in mankind. The whole world will not go mad because a group of war lords in Berlin are crazy with the lust of blood.—Toronto Star.

Distribution of Rams and Boars By the Federal Department of Agriculture

As the distribution of pure bred stallions and bulls, 125 and 414 of which respectively have been located in different parts of the Dominion, has now been completed for the current year, it is announced that the Live Stock Branch of the Federal Department of Agriculture will undertake a further distribution of pure bred rams and boars during the months of August, September and October next, to associations of farmers organized in districts in which the services of satisfactory breeding animals in these classes are not already available. Applications for rams and boars, a large number of which have already been received, should be made at an early date, as it will not be possible to consider those that are not made prior to October 1st. Farmers desiring to secure the services of such stock should arrange to organize an association in their district and forward their application to the Live Stock Commissioner, Department of Agriculture, Ottawa, from whom application blanks and all information with respect to the conditions under which pure bred sires are distributed, may be obtained. It is understood that all applications shall be reported upon by officers of the Live Stock Branch and that favourable action as regards any application shall be subject to the approval of the Live

A "Helping Hand" Extended to the Middle Aged Woman

THERE comes a time in every woman's life when she undergoes an important change. This is a critical period. It is a time when a woman needs her full health and strength. For your own sake you should anticipate this.

Dr. Pierce's Favorite Prescription

has been recommended for over forty years as a tonic for women. It is helpful in the equalization of the circulation of the blood and in regulating the action of the bowels. Nervousness and low spirits disappear. Happiness and contentment take their place.

WATFORD PLANING MILL PRODUCTS

A busy plant in a lean year, is a sure sign, that some one is delivering the goods.

Consider the advantage of buying from a concern, that manufactures all the different lines that you require. That concern will give you service.

We handle all the different kinds of wood material, used in building houses, and manufacture same at our mill, for this reason, we can sell you at rock bottom prices.

Our mill is complete in every respect, there is nothing too large or too small for us to manufacture and no order too large or too small for us to handle.

Good Rugs Made From Worn Carpets

Take, let us say, two yards of dark green monk's cloth, fifty-three inches wide, and lay it smoothly down over a worn piece of carpet, sewing the selvage of the cloth to the selvage of the carpet—or, if the carpet has to be cut so that a selvage is impossible, whip the raw edge carefully before fastening the monk's cloth to it.

At the ends allow two inches of the cloth to extend beyond the edges of the carpet, which must be first

whipped before they are fastened down. Then unravel the ends of the cloth—a particularly easy thing to do with monk's cloth—and in this way make a finishing fringe. If further ornamentation is desired a stenciled border may be painted on either end. Or a band of a lighter or darker shade than the color of the monk's cloth used may be stitched on perfectly plain or applied in a conventional design.
