

Guide-Advocate

WATKINS, APRIL 16, 1920.

CURRENT OPINION

The information given by Hon. W.

Mr. Harvey that the Government is

considering the question of increas-

ing the scale of fees to be paid

to jurors and witnesses is one that

will be welcomed by those whom it con-

cerns. Those who are called to

serve on juries do not, as a rule, feel

that the honor compensates them

for the smallness of the emolument.

Investigation in the United States

shows that the per ton mile cost of

hauling wheat and corn with motor

trucks averages 15c, as compared

with 32c with horses. In the South

hauling cotton by horse costs the

planter 40c per ton mile, while the

motor truck performs the same

service for 15c per ton mile. In many

sections of the country motor trucks

are used for conveying live stock to

the stockyard, as the shrinkage is

much less. These figures are con-

vincing arguments for good roads.

Returning to the United States are

the largest users of motor trucks.

One of the Toronto newspapers

observes that once upon a time the

average farmer was supposed

to buy her millinery and dresses

with the cash she received for her

eggs and butter, and expressed a fear

that no farmer's wife could afford

to finance her clothing account now.

In as much as a dozen of eggs today

will fetch five or six times what was

paid a score of years ago, and butter

is at present so expensive that a sub-

stitute is allowed by law, it looks as

though the eggs and butter sold from

the average farm would easily buy a

dress or two, or a hat or two for the

fair sex in the course of a year.

One of the most striking lessons

impressed on any traveller through

Western Canada is the limitless

spirit of boasting and making every

man, woman and child in the west.

Here we have almost everything

that the westerner lacks, but because

we have become part of our lives we

are nothing to boast about. The

westerner, on the other hand, has

been to boast about, but he certainly

does infinitely more boasting for the

place in which he lives. You never

hear one of them do any knocking.

It is that sort of spirit that's making

Western Canada go ahead, for north-

ing can hold a municipality where

every inhabitant is out plugging for

it for all he is worth.

None but the initiated know the

accuracy required in the printing

office. The average reader who de-

fects a misspelled word or a letter

upside down feels that his mission

on earth will not be fully accom-

plished until he has called the atten-

tion of the overworked editor to the

glaring defect. He does not notice

the multitude of words correctly

spelled, but his eagle eye is glued

to the one that is out of place. So

it is with our deeds. Man does a

thousand good deeds and no atten-

tion is paid to them, but he makes

one mistake and that is flashed all

over the world. A life may be spent

in building up a reputation that may

be wrecked in a moment. The

world is a harsh critic, exacting to

fact, and if the Father of all does

not temper justice with mercy, we

all may fall of Heaven.
