ANNOUNCEMENT

TO THE PUBLIC:—
We have decided that on the 1st of November, 1913, we will commence A STRICTLY CASH BUSINESS.
In many ways we regret to make this change, as custom has established the credit system and it has gone to such an extreme that in some instances it is thought to be almost impossible to do business without the furnishing of the extra capital for the convenience of our customers.
The keenness of competition to-day created through the high cost of living and increased expenses of business, and the fact that other large houses are adopting the cash system in order to enable them to retail goods at lower prices, forces us to this decision.
It may seem hard to some of our patrons to feel that the firm they have dealt with for years have taken this step, but we think that after a little consideration, even these friends will see the mutual benefit to be derived from a CASH SYSTEM.
Under the credit system you are not only supporting your own family, but assisting to support those who are not willing to be self supporting, in addition to helping pay the book-keeping and interest on money at present tied up in unpaid accounts, etc. While under the cash system we will be able to keep a larger and more modern assortment of goods in stock AT PRICES THAT WILL APPEAL TO YOU.
We trust that you may see your way clear to still continue your business with us, in any case do not withdraw your patronage without first giving us a few months trial. We will take all kinds of produce as cash, balancing each transaction as it occurs.
Again thanking you for the many favors you have shown us from time to time in the past, and assuring you that we will endeavor to fill all your orders under the new system to the very best of our ability. We are
Yours Very Truly
