

'A GRAND JOURNAL.'

'An interesting fact in connection with THE MINING JOURNAL is that with the year 1905 it enters upon the third score and ten years of its existence, having been established in the year 1835. While three score years and ten may be the span of life allotted to man—his period of usefulness drawing at that age to a close—it is not so with THE MINING JOURNAL. Time has written no wrinkle upon its brow; stronger, brighter, better than ever, and of great good to mining men all over the world.'—Los Angeles Mining Review.
