 J P Dawes, br m Little Jennie (ped above)... 1
 Owner's Careless Moll..... 2
 No time. W. E. O.

AMERICAN BLOOD IN ENGLAND.—Captain Mitchell is the owner of the chestnut gelding Ventnor, five years, by The Palmer, dam Magiore, by Leconte. Ventnor was recently entered in the Pavillion Stakes, Brighton, to be sold for \$1,000. He won the race, but his owner could not part with him and bid him in at \$3,000. Magiore, the dam of Ventnor, was bred by Major J. R. Viley, of Lexington, Ky., and was carried to England by Mr. Richard Ten Broeck. She has had the good fortune to throw several good foals, among them Simplon, by Master George, Como, by Macaroni, and Ventnor, by the Palmer. The latter has run thirty-five times, of which he has been twelve times a winner.

L. W. Johnson.—Standing broad jump, first, 10ft. 1in.; running broad jump, second, 17ft. 4in.; putting the stone, second, 42ft. 5in.; tossing the caber, third, 36ft. 3in.
 A. C. Reid.—Running broad jump, first, 18ft. 2in.
 JOHN RAINE.—Mile race, \$50, first, 5:01½; two-mile race, \$75, first, 10:22.

WRESTLING MATCH.
 A correspondent says arrangements had been in progress for some time past for a wrestling match between John McFarland, of Russell, champion of five counties, and Richard Burden, of Fallowfield, and last week the match came off, James Hogan, Burden's backer, and Tom Lawler, for McFarland, depositing \$20 each, as stakes. The agreement was three falls, catch and catch, which is Burden's favorite style, and three falls, side holds, McFarland's favorite, the man winning most falls out of the six to be the champion. The men met, and Burden won, taking three falls, catch and catch, and one, side holds. There were about 150 spectators present. Burden is a man weighing about 220 lbs., and is very active, having been a clown in a show for the past ten years.

LONG WALK.—A match has been made between two amateurs of Seaforth for \$80, to walk forty miles on the Driving Park there on the 16th. One is a painter (the favorite), and the other is a dispenser of fluids in the Royal Restaurant.

MISSING.—P. M. Duffy, the Ottawa athlete, had a pair of pants and a coat stolen from him while he was taking part in some picnic games in the capital last week.
 BIG HOP, STEP AND JUMP.—At the Caledonian games held on the Montreal Lacrosse Grounds, August 24, James Newton is said to have cleared 45ft. 6in. in a running hop, step and jump, which, if true, beats E. W. Johnston's performance of 45ft. 1in., at Belleville, Ont., and gives Newton the best on record.

MCKINNON AND ROSS.—It looks like as if the proposed match between these distinguished heavy weight athletes would come to something. Ross has covered the \$200 the Belleville policeman forwarded to the Clipper, and is ready to sign articles.

ROSS.—D. C. Ross, the Canadian heavy-weight athlete, accompanied by E. W. Johnson and A. C. Reid, visited our office on Monday. They all look in fine condition after their American campaign. Ross seemed anxious about his match with Hugh McKinnon, of Belleville, and requests the latter gentleman if he has not already forwarded the articles under which the contests are to take place to the N. Y. Clipper office, to send them on immediately to Ross, care of this office, for his signature.

TOO FAST.—The Montreal Gazette says, at the Mechanics' Athletic Club's sports on St. Helen's Island, last Saturday, P. Fitzgerald ran ten miles in 45m. 53 sec., and that he was timed by Mr. Alger. This is too fast. It is dollars against cents that the track was very short or the watch or town clock fearfully slow. The best ten miles is 51:45, by John Levitt, England, Oct. 11, 1852, and it is a moral certainty that Levitt could have given a man like Fitzgerald hundreds of yards and a beating at that distance.

TORONTO.—The annual athletic games of the Toronto Lacrosse Club will be held to-morrow (Saturday) afternoon, on their grounds, Jarvis street. The games are all for amateurs, and several prominent athletes from a distance are expected to take part. It was at these games last year that Mr. T. Arthurs made his quarter mile record of 54s. In anticipation of some fast time to-morrow, it is suggested that the time keepers use quarter-second chronographs or stop-watches, in preference to a watch beating only seconds.

THE DION BROTHERS.—Not to let their brother experts, the Dion brothers, take extensive changes in their room on Sixth avenue, New York. The upholsterer, painter and other artisans re-busy at work fixed up both the billiard-room and the ten-pin alleys. Levelly tones are anticipated in the latter department this fall and winter, many new clubs having decided to hold their regular meetings there.

A RUN OF 454.—Albert Garnier informs us that in a recent exhibition game between Mons. E. Margin and a Signor Polanco, of Spain, the former made a run of 454 without missing, and not a single shot in the corner. The game was 600 points up, three balls, and took place at Margin's cafe in Paris before a goodly assemblage. A number of gentlemen present signed a paper vouching for the validity of the run.—Turf.

TRIP.—Mr. Sam. May, the billiard-table manufacturer of this city, has been on a trip to the Lower Provinces. The New York papers of last week report him in that city, homeward-bound. It is his first visit to the modern Gotham in two years. His success in the Maritime Provinces was quite marked, and the future possibilities are that the demand for billiard material in that section will be supplied from Toronto, as it naturally should be.

Lacrosse

SHAMROCKS—CAUGHNAWAGAS.—These clubs played a game at Quebec on Saturday last. The Shamrocks (Montreal) beat the Indians in the first, third, and fifth games in two, nine and seven minutes respectively. The Governor-General witnessed the game.

THE PROFESSIONAL TOUT.

The recent investigation at Saratoga, growing out of the attempt of a noted tout and scullawag named A. Platt, to bribe the trainer and jockey of Luelfer to throw a race, should admonish the regular clubs of the importance of excluding all the touts, both black and white, from their grounds. There is quite a large lot of them, possessing any amount of cheek, but no real knowledge of the qualities or performances of the horses, who attach themselves to the skirts of gentlemen's coats and offer information whose horse is "sure to win." A certain horse is selected for one man, a different one for another so that between three or four different ones, the best in the race, they are almost sure to strike the right one. The impecunious, ignorant fellow then extends his hands for his share of the winnings. It is sheer nonsense for any one to suppose that these scoundrels can possibly obtain the secrets of any reputable stable, or neither the rubbers nor stable boys ever know the result of the trials or what weight is up when the work is done.

The only way in which any man of intelligence can learn anything of the chances of horses in a race is by watching their public performances, the weight carried and position at the finish. This is the only safe guide by which, if the horses are honestly run—and ninety-nine out of a hundred are—he may place them in a race. How can any sensible man convince himself that an ignorant, dishonest loafer, white or black, can possibly gain access to the confidence of the owners or trainers of reputable stable, or be able to read or understand the public form of any horse, as well as a person guided by intelligence or practical observation? This fellow, Pratt, was at the bottom of the Bill Bass Blow matter at Lexington last Spring, and, as he has been excluded from the Saratoga grounds, the exclusion should follow on all the courses of the country, and with him should go all the balance of such fellows. Their presence tends to demoralize jockeys and attendants. No one of these touts will hesitate to commit any outrage, or perjure themselves, if they are not fitted peculiarly by doing so.—Turf.
