

PUBLISHER'S DEPARTMENT.

For sufferers from chronic diarrhoea, symptoms, remedy, &c. See Dr. Whittier, 200 Race St., Cincinnati, O. (old name) State case.

ADVICE TO MOTHERS.—Mrs. WINGLOW'S SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer once it produces natural, quiet sleep by soothing the child from pain, and the little cherub smiles as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle.

FRINK'S REFLECTORS.

The time has long gone by when halls and public buildings had to be inefficiently lighted with a few scattered gas burners or oil lamps, and the powerful reflectors that now throw their light upon audiences that are gathered in our large buildings tell luminously of the progress of the age, and the inventive genius of Mr. I. P. Frink, by whom they are chiefly made. The forms of this reflector are so familiar that it is not necessary to describe them, as there is hardly a hall or a church in the country of any pretensions where they may not be found, and we presume it is safe to say there is not one where they have not answered perfectly all that is claimed for them. The heat of the lamps or gas draws up the foul air, which passes through an opening in the reflector, thus keeping the atmosphere free from noxious odors and substances, whilst the reflection obtained from it is superior to any other form of lamp or burner in use. It is stated by those who use it that the economy of the arrangement is remarkable. Mr Frink is also the patentee of the daylight reflectors which are needed to throw light into dark offices and counting-rooms without the use of gas or other artificial light which, in cities where economy of space is an object, are too frequent. In such this invention is found to be invaluable.
