A REAL NEED.

The organ used in our rooms in the west end is next to useless, old and infirm, 7 years ago when placed in the waiting room at the Nipissing Station, very often refusing to do service. Now we have a good organist and several to

help with our singing, but the instrument is most discouraging. Have we not some friend who will come to our help in this particular, and give us an instrument worthy the Saviour we proclaim, and the splendid rooms secured for the benefit of all in the extreme west of the city and Parkdale.

BRO. A. MUNRO.

Is it not most gratifying to know that one of our number, who has labored in the Lord's word and work here in this city so long, a *bona fide* railway man—one who was never otherwise employed—has, like the prophet Elisha, been called right from active secular employment to be a prophet of the Most High. Now, such is the case with our above-named brother, and may the blessing which Elisha sought and obtained—a double portion of the Holy Spirit—be realized by him in the field in which he is called to labor, and in the position he is called to fill,—Secretary of the Troy (N. Y.) R. R. Y. M. C. A. For years it has been our conviction that the Lord, who knows all things from the beginning, had some place for Bro Munro to fill, and now that He has called him, may he exemplify John 15: 8.

WANTS.

HERE are a few things which we need in our rooms.

We want two or three tables of various kinds.

We want plants for our windows.

We want a Secretary's desk.

We want donations of books, magazines and papers.

We want you to bring your friends and see us.

We want every young man and every railroad man to feel he has a special right in our rooms.

The Lord Jesus Christ wants you to work for him. Have you been doing this?

GOD IS LOVE.
