#### Frightening Children.

With painful frequency we hear of cruel "practical jokes" perpetrated upon little children. Again and again comes to us the old story of a child frightened into convulsions by a playfellow who "only wanted to have a little fun." One would think that incidents like this had been enacted and told with ghastly iteration often enough from generation to generation to warn off the most incorrigible fun-lovers and fools from the dangerous ground. The progress of the witless plot is generally the same up to a certain point. There is neither originality nor variety in the favourite mode of execution. It soundstrite in telling. A figure wrapped in the conventional sheet lurking in the dark corner; a spring upon the unsuspected victim, selected because he is the most timorous or delicate of the family or school; dismay, shrieks of anguish blent with goblin laughter—then a difference in the ending. Sometimes no apparent harm is done, unless that one child is made more timid, another more cruel. Again, the nervous system is unbalanced so far that a swoon, or, as in the case before us, convulsions ensue. Once in a while the innocent subject of the practical joke pays for his tormentor's prank with his reason or his life. In a less flagrant manner incalculable mischief is done in many nurseries by tales of ghosts, bogies, the black man who comes down the chimney to catch children who will not go to sleep quietly, etc. The mother is culpable who, when she finds her child unduly timid, does not watch narrowly for indications that the nervous organism of her offspring has been tampered with, and who, should her suspicions be confirmed, does not follow the clue to its source and banish the criminals from the household.

A man possessed of four ears is a natural curiosity in San Francisco. John Henry Grimes is a native of Nova Scotia. The peculiarity about him that attracts attention makes him the best developed person in the world, so far as hearing is concerned. The front ears, which are placed in their natural position, are perfect and well-formed. The extra pair are partly covered by those in front, yet they appear like ordinary ears. Tests have been made which demonstrate that Mr. Grimes can hear equally well with either pair of ears.

The experiment which Messrs. Tuckett & Son entered upon when they commenced to make their "Myrtle Navy" tobacco was this: to give the public a tobacco of the very finest Virginia leaf at the smallest possible margin beyond its actual cost, in the hope that it would be so extensively bought as to remunerate them. By the end of three years the demand for it had grown so much as gave assurance that the success of the experiment was within reach. The demand for it to-day is more than ten times greater than it was then and it is still increasing. Success has been reached.

#### The Raw Cutting Winds

Of winter bring to the surface every latent pain. It is one of the strange things associated with our physical well being that the very air, without which we could not exist, is heavily laden with the germs of disease. Rheumatism, neuralgia, lumbago and, other complaints of a similar character hold revel at this season of the year amongst human muscles. There was a time when fortitude alone could make life tolerable, but now with the advent of powerful, penetrating and nerve soothing remedies pain becomes a thing of a moment. The best, the most powerful and most certain pain cure is **POISON'S NERVILINE**. Nothing equals Nerviline for penetrating power. Nerviline is beyond comparison the grandest discovery for the relief of pain offered to the public. Druggists sell a sample bottle for 10 cents: large bottles only 25 cents at any drug store.

#### Rupture, Breach or Hernia.

New guaranteed cure for worst cases without use of knife. There is no longer any need of wearing awkward, cumbersome, trusses. Send two letter stamps for pamphlet and references. World's Dispensary Medical Association, 663 Main Street Buffalo, N. Y.

There is as much wisdom in bearing with other people's defects as in being sensible of their good qualities; and we should make the follies of others rather a warning and an instruction to ourselves than a subject of mirth and mockery of those who commit them.

#### Is It Not Singular

that consumptives should be the least apprehensive of their own condition, while all their friends are urging and beseeching them to be more careful about exposure and over-doing. It may well be considered one of the most alarming symptoms of the disease where the patient is reckless and will not believe that he is in danger. Reader, if you are in this condition, do not neglect the only means of recovery. Avoid exposure and fatigue, be regular in your habits, and use faithfully of Dr. Pierce's "Golden Medical Discovery." It has saved thousands who were steadily falling.

Some time ago the two year-old baby of Owen Walker, of Marshall, swallowed a copper cent. All efforts to remove the coin from the child's stomach proved unavailing, and the little one has been growing weaker day by day. Strange to say the child is turning blue. A heavy blue circle under the eyes was first noticed. This began to spread and is gradually extending.

Don't hawk, hawk, blow, spit, and disgust everybody with your offensive breath, but use Dr. Sage's Catarrh Remedy and end it.

On one of the Azore Islands, St. Michael's the people invariably drop the family name, each being known by entirely different unlike titles. The same names are also applied to either sex indiscriminately.

#### Fun for Everybody!

Fun is just what every person is looking for, willing to pay for, and finds hardest to secure. We want a new process mill so that fun can be ground out by the ton and sold at close cutting prices everywhere. How would this be done?
