a character would have been their most lasting degrace. The men of the Irish Brigade have every reason to be thankful to the Times for its scurrility and lying. It has caused their bravery to be vindicated in a manner that otherwise modesty would have shrunk from ;-it has supported it by a mass of evidence, that is irresistible and irrefragable-und has put it on record in such heting characters that it will be handed down to the last syllable of recorded time. The Times (like all other rogues) was indeed short sighted (was it demented !) when it did not foresee this.

Several of our villagers went to the house on Monday last, determined to find out the secret, but got a handkerchief torn to pieces and returned as much in the dark as ever. It is certainly one of the strangest affairs that we have ever heard of, and we trust that the secret will soon be developed .- Andmer Times.

From the foregoing extracts the reader will perceive the intent of the Leader to prepare the public mind for the decision of the judges to give tigation—and it is a most righteous one—has been up Anderson, at least so it appears to us. We hope not, and yet when we see nearly the whole of the ministerial press averse to the liberation of Anderson-strong in defence of the course pursued by the Attorney General, Bill Matthews and the Leader, it almost shakes our faith in human virtue. Give the Attorney General and Bill Matthews, full sway, and Canada would soon be turned into a slave hunting field .- Brockville Recorder.

Our Brockville friend goes too far when he includes " nearly the whole of the ministerial press" in the same turpitudinous category with the Leader. We cut the following from the Quebec Chronicle of Thursday :-

From the Chlef Justice of a great country we should have expected a profound declaration on the comity of nations rather than a confused argument which would do little credit to a Nisi Prius Lawyer on the special and particular incidents of the case. However, the matter we presume will ultimately lie with the judicial Committee of the Privy Council in England, and whether the criminal is given up or not, we shall have such judgments rendered as may fairly be held to establish a precedent for all time coming.
