

Scott's Emulsion

The Whole Oil!

There is no secret about Scott's Emulsion. Nothing is covered up by obscure references to active principles or alkaloids. Neither is it an alcoholic mixture put up under some mystifying title.

It is simply an emulsion of the best Norwegian cod-liver oil combined with the hypophosphites and glycerine.

We use the whole oil (*a*) because the great reputation of cod-liver oil as a food and medicine was made by using it in this way; (*b*) because such use is, almost without exception, approved by the medical profession of the whole world; and (*c*) because we fail to find a single writer, worthy to be called an authority, who advocates differently.

When cod-liver oil is indicated, the whole oil must be used.

We will gladly send you our formula, together with sample bottles, upon request.

Two sizes; 50c. and \$1.00. SCOTT & BOWNE, Chemists, Toronto.
