

CLEVELAND

There are approximately 30 seafood wholesalers in the Cleveland area and many purchase Canadian seafood products. Purchases are primarily Canadian salmon, some Atlantic cod, rope grown mussels and shellfish, primarily lobster. The trend in seafood consumption in the Cleveland area is fairly high and remains consistent. To date, the majority of seafood entering the Cleveland area has been purchased through Boston and Detroit. However, local wholesalers have requested more information on Canadian seafood products and have shown an interest in future direct purchases from Canadian seafood exporters.
