SPREADING THE WORD

In this era of rapid communications, DFAIT uses modern technology to help both Canadians and citizens of other countries gain a better understanding of the work we do. Our award-winning Internet Web site (www.dfait-maeci.gc.ca) can provide you with instant access to information about Canada's international role, foreign and trade policy initiatives, and the services the Department provides.

The Department's Speakers Program, through which ambassadors, trade commissioners and other DFAIT officials are made available to speak at public events across Canada, is another key component of our effort to spread the word about international issues and the work we do. We also have a wide range of publications that are available to the public free of charge.

For more information or to order publications, you can call our toll-free number at 1-800-267-8376 (or 944-4000 in the National Capital Region), or write to:
