

cost and add it to the burden borne by the consumer in this country. I say that that is a very fair and proper attitude for that company to take. But I ask this question of the Prime Minister (Mr. Bennett) and I want an answer: If it is right, if it is fair, if it is in the public interest that Imperial Oil Limited should be allowed to buy its supplies where they can be bought the cheapest, why is it not right for the common people of this country to do the same thing? That is the question to which I should like an answer. I think I have proved that the price of gasoline in this country is too high and the cause of this high price is the duties and dumping duties imposed by the present government. The additional cost which we are paying is not going into the treasury, in many cases it is being paid to foreign manufacturers.

Mr. Speaker, I beg to move that the report be concurred in.

Mr. R. W. GRAY (West Lambton): Mr. Speaker, I move that the house do now proceed to the orders of the day.

Mr. YOUNG: Mr. Speaker, that motion is out of order; there is a motion before the chair.

Mr. SPEAKER: A motion for reading the orders of the day has preference to any motion before the house.

Mr. GARDINER: Mr. Speaker, on a point of order; is the motion to proceed to orders of the day seconded?

Mr. SPEAKER: It is seconded by Mr. McPhee.

The house divided on the motion (Mr. Gray) which was agreed to on the following division:

YEAS

Messrs:

Anderson (Halton),	Fortin,
