YORK COUNT ...AND... SUBURBS SOMETHING MUST **CAR IS DELAYED BE DONE AT ONCE** FOR THE PUPILS

Don Road Muddle is Serious York Radial Will Accommoand Highway is Very date Scholars at Newmarket Dangerous. High School.

The highways commission met yes, terday and decided to try and do something with the three miles of the Don road nearest the city, a mile of which is in dangerous condition. They have asked solicitor's advice as to what they should do in the matter of the failure of B. F. Law, the contrac-tor, to continue the work as ordered by the commission. If Law does not come to time, and the solicitor ad-vises the commission to go on with the work, they say they will either do it themselves or engage another contractor. They have the stone ready for delivery. by the Toronto and York Radial Rail-way Company to accommodate the high school pupils at Newmarket by delaying the 3 p.m. northbound car until 3.15. This enables nearly all the pupils from the north to get home right away. The cousideration shown by the ormpany in this matter has been much appreciated by the pupils and their parents, who have also thanked The World for calling attention to the matter in the first instance. The ladies' aid of the Methodist Church will meet today in the church parlor at 3 o'clock. On Friday evening the North York Poultry Association will hold their annual meeting for the election of of-ficers.

WARD SEVEN.

contractor. They have the stone ready for delivery. A deal was completed yesterday by the commission for the purchase of 3000 feet of L. Wallace's property for \$1770, to enable them to divert the Weston road from the Humber River to the Woodbridge line in order to get a better road and increase the width from 25 to 66 feet.

SHAWA.

The annual convention of the South Ontario Teachers' Institute will be opened at Oshawa tomorrow in the high school. An interesting program of lectures and subjects for discussion has been prepared, including a lecture entitled "An Evening with Dickens." The convention will occupy two days, Thursday and Friday. Miss Margaret Mulholland, after spending the summer with her mother at Trinity Cottage, Muskoka was in town en route to Ottawa and Perth, where she will spend the winter with her aunt.

MIMICO.

MIMICO. The milk supply at Mimico is being nvestigated by the provincial board St. John's Church, West Toronto, was the scene of a very pretty wed-ding at 7 o'clock last evening, when not revealed any cause for the pre-valence of typhoid fever. If con-tanination is located those responsible for the condition will likely be prose-cuted.

GUELPH, Sopt. 30.—(Special.)— Another new building will be erected to add to the three now in course of construction and the already large group of buildings at the Ontario Agricultural College. This will be a milk-house and it will be erected ad-joining the fine new dairy barn re-cently completed. It will be built of cement and stone, and will contain every possible convenience for the proper care of the milk. In connec-tion with it will be built a septic tank to take care of all the refuse from the building.

building. It is understood that plans have been prepared and arrangements are being made for the crection of a fine new dormitory building at the college, one large enough to house the entire student body for many years to come. The building will in all probability be added next year. There are at present 413 students

added next year. There are at present 413 students enrolled at the O.A.C., the largest number ever enrolled at one time. Of this number the freshmen or first year class, make up more than one-half, there being a class now in resi-dence there of 214 freshmen, with several more to come. This beyond doubt establishes the O.A.C. as easily the leading agricultural college of the world. The largest freshman class heretofore has been only 156. In the second year, or sophomore class, there are 101 students. In the third year the class numbers 60, which is the largest third-year class in the history of the college. The fourth-year, or senior class of 50, is also the largest-graduating class in the history of the college. Say and Disgusting.

Narrow Lots Cause Building Congestion-Back Yards

in a Bad State.

Bad smells from the piggeries near the new school at Fairbank raised a storm of protest at last night's meeting

office, was instantly killed tonight. A timber 15 feet long fell from the third storey, striking him on the head. His skull was crushed. Marlatt, who was married, had been employed only a week with the Secord Construction Co. Week with the Secord Construction Co.

Messre anilet, and some of the school trustees. Messre Lacey, Birch and Wilcox also spoke strongly as to the necessity for instant action to abate the nuisance and a motion was passed instructing the secretary to write to Dr. McCullough, provincial health officer, asking him to take the matter up.

Building congestion in the district was also dealt with. Many of the houses are built on very narrow lots, and as there is no sewerage outside conven-iences are too closely crowded to be healthy

healthy. The necessity for street lighting right away was also talked about by Mr. Miller, who pointed out that no private company could be approached until the people had voted on it, so that the mat-ter would have to stand over in any case until next election. President Hill occupied the chair. A cadet corps is being formed in Fair-bank. Dan Low being captain and E. Lewis second in command. The corps will meet in the clubhouse
