

possible for us to do otherwise; it is a fixed and certain boundary, and according to the Statute, we have to the best of our knowledge decided it.

In the decision we have made we are supported by the authority of my Lord Hardwicke in the case of Penn and Baltimore. In the disputes between Penn the proprietor of Pennsylvania and my Lord Baltimore on the question relative to the limits of Maryland, a similar difficulty arose, and the case is to be found at length in 1 Vessey, senr., 444.

I mention this case because the court have taken upon themselves to decide the limits of Canada original jurisdiction, relative to the Colonial Territories of the King, is in the King and his Council.

In this dependent Province, nevertheless, we have been compelled to give a decision upon the question, not from any wish on our part, but because it was brought before us incidently, and there was no avoiding it. The power of deciding finally is, however, at home; the question will be taken before the King and his Council, and in deciding the limits of Upper Canada they will either confirm or reverse our decision according as we have done right or wrong, so that as to any consequences that may result from our error, if error we have committed, they will be obviated by the superior authority to whom the question is to be referred.
