

Napoleon — how is it to be accomplished by shallow spouters and turgid pamphleteers? If they will not forbear for the Union's sake, it is needless to implore them to be prudent for the sake of the Negroes. But what other result can all this blind fury and inflammatory harangue have upon the helpless slaves, save to fill them with discontent or rouse them to revolution? There must be wise heads and iron wills in Virginia to have thus long repressed the effervescence; but if the rabid declamations of the North continue much longer, there cannot fail to be such a crisis as America has never yet beheld and will never cease to deplore.
