CIVIC ABATTOIR IS CARRYING ON

Not So Badly Hit by Strike
as Privately-Owned
Plants.

The civic abattoir is not so badly hit by the butchers' strike as some of the privately-owned plants. They have some men carrying on, but 34 obeyed the call of the union last Monday, and went on strike. The civic abattoir is in somewhat a different position from the packing houses; they are only open for killing, and are not selling meat for profit. It is hoped the men's union will see this in its proper light, recognize the plant as outside their scope of action, and allow the 34 strikers to return to work. Negotiations to this effect are in progress and a happy result is anticipated.

Property Commissioner Chisholm and D. W. Wright, the manager of the civic abattoir, are of opinion that the abattoir is conducted on the exact lines for which the men are striking. In addition, the employees, being civic servants, have certain additional privileges which private-owned concerns do not give. For instance, they have a 48-hour week, all permanent employees receive two weeks' holiday with full pay, and if ill, on presentation of a doctor's certificate, receive their pay; all holidays are granted without reduction of pay. The property commissioner is of the opinion that the men from the civic establishment did not give these matters sufficient consideration before striking, and to his mind the men might have consulted himself and Mr. Wright before taking such drastic measures.

APPLE GROWERS WOULD INCREASE EXPORT TRADE

A reputation from the Counties of Durham and Northumberland, representing the Apple Growers' Association, waited on Hon. George S. Henry, minister of agriculture, at the parliament buildings Monday afternoon. The purpose of the deputation was to request assistance in securing for these counties a large measure of export trade. They asked the government to establish an experimental farm with a view to improving the quality of apples so that the foreign demand for their product may increase. Mr. Henry promised to give the matter due consideration.

TO PROVIDE MORE ROOMS FOR TRAVELING PUBLIC

The first annual meeting of the reconstructed King Edward Hotel Company was held yesterday morning at the hotel. The meeting of shareholders took the form of a luncheon given to them by the directors. The new company has been running the hotel under the management of G. H. O'Neill for just a short time over one year. A month ago a five per cent. dividend was paid on each share, and a substantial balance carried to reserve account. The report given by both the president, F. A. Dudley, and the manager, as to the equipment and the business transacted during the past year, was considered satisfactory by the shareholders. A scheme for the enlargement of the hotel was placed before the shareholders, and it was left in the hands of the directors to decide if the enlargement should go skywards or if some additional property should be purchased alongside the present structure for the development.

In view, however, of the ever-presenting applications for sleeping accommodation in the hotel, and having regard to the expected large tourist rush this summer, it was decided to at once commence certain alterations. There are many large bedrooms in the King Edward. These will now be partitioned and made into two rooms. By this means a large bedroom addition will be forthcoming.

The directors elected by the shareholders for the present year were: F. A. Dudley (president), D. M. Johnston, F. W. Rockwell, J. R. L. Starr, K.C., J. H. Spence, and G. H. O'Neill (managing director), and Colonel Dimmock.

C. H. BISHOP LEAVES BOARD OF EDUCATION

Superintendent Chas. H. Bishop, who for forty years has supervised the school buildings in Toronto, handed in his resignation yesterday to the board of education.

In a statement regarding his action, Mr. Bishop said: "I have refrained this step to avoid agitation. The report of Mr. Justice Lennox, whatever it may be, cannot remove or mitigate hostility which has been directed against myself and the building department."

"I will be glad to assist the judge in any way I can until the end of the investigation, and continue my other duties relating to it up to that time, but tender my resignation as superintendent of buildings herewith."

The school board has not yet taken any action in the matter.

Enforcement of O. T. A. Is Scandal and Shame

"It is a scandal and a shame that the Ontario Temperance Act is not being enforced as it ought to be," said Rev. Ben Spence yesterday. "The provincial and city authorities are not punishing violations of the act in the way they should. They are making revenue out of the violations instead of putting an end to the traffic."

"It is a rotten policy," he continued. "The police should deal with the traffic in a determined way, and there would be no difficulty in seeing that the spirit of the act was enforced. They are imposing fines of \$200, when they should make it \$1,000, as the act permits. Offenders are not being sent to jail as they ought to be."

BEWARE OF DECEPTION

Statistics show that when egg albumen is used as a constituent of baking powder, the amount so used is too small (usually 15/100 of 1%) to affect the quality or effectiveness of the baking powder containing it, and when so used, is plainly for the purpose of fraud. Intelligent buyers will not permit themselves to be deceived by the water glass test.

MAGIC BAKING POWDER

contains no alum or egg albumen and is guaranteed to be composed of the ingredients printed on the label—and none other.
